* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Respondents with unknown past year Major Depressive Episode (MDE) data were excluded.

[a] The difference between this estimate and the 2018 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

[1] Respondents with unknown impairment data were excluded.

[2] Respondents with unknown past year treatment for depression data were excluded.

Definitions: Measures and terms are defined in Appendix A.
