Note:

This table uses data from URS Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2017

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2018

North Dakota Reporting Period: 7/1/2017 To: 6/30/2018

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	33.5%	70.3%	73.0%	56
Percent of Children served through the SMHA who meet the Federal definition for SED	37.3%	69.7%	69.5%	54

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	30.7%	27.5%	27.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	3.6%	4.2%	3.0%	53
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	38.0%	25.7%	24.0%	55
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	62.8%	7.3%	3.0%	52

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

Percentage of adults served by the SMHA who also have a diagnosis of substance abuse problem and Percentage of children/adolescents served by the SMHA who also have a diagnosis of substance abuse problem are derived from the data reported for Table 2. Percentage of adults meeting Federal definition of SMI who also have a diagnosis of substance abuse problem and Percentage of children/adolescents meeting the Federal definition of SED who also have a diagnosis of substance abuse problem are derived from the data reported for Table 14.

General Notes FY 2018

North Dakota

URS Table Number	General Notes
3	State Hospital client data will be updated at a later date. For more information about state hospital data, please contact Heather Mertz at the ND Behavioral Health Division.
6	The general decrease in State Hospital LOS may be due to an increase in the number of admissions, which results in a rapid need to discharge and a shorter length of stay.
7A	The decrease in the total CSC-EBP for FEP expenditures may be due to (1) an administrative delay to receiving an approved, signed contract from vendor and (2) a change in the 10% allotment which is based on overall MHBG funding.
8	One possible explanation for the decrease in total non-direct MHBG expenditures is a discontinuation of some contracts from year to year.
16	The methodology for calculating "Receiving Integrated Treatment for Co-occuring Disorders (MH/SA)" and 'Receiving Supported Employment' changed from previous years. The numbers reported for Integrated Treatment for Co-Occurring disorders appear consistent with the previous reporting year, but this methology change may partially explain the increase in the number receiving supported employment services.
17	The methodology for calculating "Receiving Integrated Treatment for Co-occuring Disorders (MH/SA)" changed from previous years. The numbers appear consistent from the previous reporting year, however this will need to be monitored in subsequent reporting cycles.
19A	In Table 19A, two different reporting time frames are reported here. For adult consumer survey data, which includes only the 5 adults represented as Gender NA in part 2-T2 (For Consumers who began MH Services during the past 12 months), the reporting time period includes services within 7/1/2016 - 6/20/2017. For the children (and some adult) partnership data- not including the five adults represented as Gender NA in part 2-T2-the reporting time period for services is 7/1/2017-6/30/2018.
20A	The data source from which this information was to be derived was incomplete and did not reflect representative State Hospital Readmission rates. Data will be updated and provided at a later date. For further information about state hospital readmission rates, please contact Heather Mertz at the ND Behavioral Health Division.
20B	The data source from which this information was to be derived was incomplete and did not reflect representative State Hospital Readmission rates. Data will be updated and provided at a later date. For further information about state hospital readmission rates, please contact Heather Mertz at the ND Behavioral Health Division.
