Total	666	100.0%	97,869	100.0%	0.2	0.3	48

Notes:

US totals are based on states reporting.

This table uses data from URS Table 15a.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age	None
Gender	None
Overall	None

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2017

Oklahoma

Reporting Period: 7/1/2016 To: 6/30/2017

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	69.2%	72.0%	71.0%	54
Percent of Children served through the SMHA who meet the Federal definition for SED	62.8%	70.9%	68.0%	54

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	13.3%	25.4%	23.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	0.9%	6.2%	4.0%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	12.3%	23.3%	21.0%	53
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	1.1%	5.1%	3.0%	53

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

The clients counted as co-occurring were selected from admitted clients with a mental health service that also had a substance abuse diagnosis on either axis1 primary, axis1secondary or axis1tertiary.

State Notes

None

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table3 and 6.

URS Table Number	General Notes
3	The increase in total number of consumers served in State Psychiatric Hospitals is due to decreased lengths of stay allowed for more individuals to be served in the capacity limited facility.
6	The increase in total Admissions to State Hospital During the Year is due to decreased lengths of stay allowed for more individuals to be served in the capacity limited facility. The decrease in total Number of Consumers Served in Community Programs at the beginning of the year and increase in total Admissions to Community Program During the Year are due to changes in community programs during the previous fiscal year resulted in fewer in services at the start of this fiscal year. During the current fiscal year the community programs were able to provide other services resulting in an increase in admissions.
6	The increase in total admissions to Other Psychiatric Inpatient During the Year is due to decreased lengths of stay allowed for more individuals to be served in the capacity limited facility.
6	The decrease in Average LOS of Children (in facility <1 year) who were state hospital residents at the end of the year is due to the only ODMHSAS operated child hospital transitioned from inpatient to crisis unit/residential and are now counted differently.
6	The decrease in Average LOS of adults discharged from state hospitals is due to two items: a) As long-term forensic clients are discharged, the Average LOS is artificially inflated, and b) There was an emphasis on decreasing LOS at primary state inpatient unit.
6	The decrease in Average LOS of adults (in facility <1 year) who were state hospital residents at the end of the year is due to there was an emphasis on decreasing LOS at primary state inpatient unit.
16	The increase in total number of consumers receiving ACT services: Emphasis was placed on discharging ACT clients who no longer needed to be in ACT, thus allowing more individuals to be enrolled in ACT during the year. Also, emphasis was placed on ACT teams to get to full capacity. The increase in total number of Children with SED: Oklahoma now has Health Homes. To be enrolled in Health Homes, a child has to be SED. The providers were proactive about identifying SED clients in the community to become enrolled in the program, as well as providers making sure they had the SED check box marked correctly.

URS Table Number	General Notes
14A	<p>SMI means an individual 18 years of age or older who meets the following criteria: A. Currently or at any time during the past year have had a diagnosable mental, behavioral or emotional disorder of sufficient duration to meet criteria specified within DSM-IV with the exception of "V" codes, substance use disorders, and developmental disorders, unless they co-occur with another diagnosable serious mental illness; And B. Has at least (a) moderate impairment in at least four, (b) severe impairment in two or (c) extreme impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a person's life. Marked change in mood. Depression and/or anxiety incapacitates person. Emotional responses are inappropriate to the situation. 2. Thinking: Severe impairment in concentration, persistence, and pace. Frequent or consistent interference with daily life due to impaired thinking. Presence of delusions and/or hallucinations. Frequent substitution of fantasy for reality. 3. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. 4. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. 5. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Unable to obtain or maintain employment and/or conduct daily living chores such as care of immediate living environment. 6. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Disregard for safety of others. Destructive to property. Involvement with law enforcement. 7. Self Care/Basic Needs: Disruption in the ability to provide for his/her own needs such as food, clothing, shelter, and transportation. Assistance required in obtaining housing, food and/or clothing. Unable to maintain hygiene, diet, clothing, and prepare food. Or C. Has a duration of illness of at least one year and (a) at least moderate impairment in two, or (b) severe impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a person's life. Marked change in mood. Depression and/or anxiety incapacitates person. Emotional responses are inappropriate to the situation. 2. Thinking: Severe impairment in concentration, persistence and pace. Frequent or consistent interference with daily life due to impaired thinking. Presence of delusions and/or hallucinations. Frequent substitution of fantasy for reality. 3. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. 4. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. 5. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Unable to obtain or maintain employment and/or conduct daily living chores such as, care of immediate living environment. 6. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Disregard for safety of others. Destructive to property. Involvement with law enforcement. 7. Self Care/Basic Needs: Disruption in the ability to provide for his/her own needs such as food, clothing, shelter and transportation. Assistance required in obtaining housing, food and/or clothing. Unable to maintain hygiene, diet, clothing, and prepare food. Note: Individuals with a primary diagnosis of substance abuse or developmental disorder are excluded from this definition. Individuals may show less impairment if they are on medications or receiving other treatment services that reduce the symptoms of the illness, but moderate to severe impairment in functioning would result with discontinuation of the medications.</p>

URS Table Number	General Notes
14A	<p>SED: Individuals from birth to seventeen years of age who meet the following criteria comprise the target population: A. A child who possesses a diagnosable, serious disorder under DSM-IV such as pervasive developmental disorder, childhood schizophrenia, schizophrenia of adult-type manifesting in adolescence, conduct disorder, affective disorder, other disruptive behaviors, or other disorders with serious medical implications such as eating disorders, or persistent involvement with alcohol or drugs; And B. Who has a functioning level which includes: (a) a moderate impairment in at least four, (b) severe impairment in two or (c) extreme impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a child's life. Frustration, anger, loneliness and boredom persist beyond the precipitating situation. Symptoms of distress are pervasive and do not respond to encouragement or reassurance. 2. Thinking: Disruption of daily life due to impaired thoughts and thinking process. Inability to distinguish between fantasy and reality. Unusual thoughts or attachments to objects. 3. Substance Use: Frequent difficulties due to substance use. Repeated use of substances causing difficulty at home or in school. 4. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. Lacks family support. Abused or neglected. 5. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. Lacks age appropriate social skills. 6. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Persistent behavior problems. Failure, suspension or expelled from school. 7. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Shows little concern for consequences of actions. Delinquent acts and/or frequent contact with law enforcement. 8. Self Care/Basic Needs: The ability to care for self is considerably below expectation. 9. Caregiver Resources: Caregiver has difficulties providing for the child's basic needs or developmental needs such that there is a negative impact on the child's level of functioning. Or C. Who has a duration of illness for at least one year and has (a) functioning level of moderate impairment in at least two, or (b) severe impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a child's life. Frustration, anger, loneliness, and boredom persist beyond the precipitating situation. Symptoms of distress are pervasive and do not respond to encouragement or reassurance. 2. Thinking: Disruption of daily life due to impaired thoughts and thinking process. Inability to distinguish between fantasy and reality. Unusual thoughts or attachments to objects. 3. Substance Use: Frequent difficulties due to substance use. Repeated use of substances causing difficulty at home or in school. 4. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. Lacks family support. Abused or neglected. 5. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. Lacks age appropriate social skills. 6. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Persistent behavior problems. Failure, suspension or expelled from school. 7. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules and strong mores. Shows little concern for consequences of actions. Delinquent acts and/or frequent contact with law enforcement. 8. Self Care/Basic Needs: The ability to care for self is considerably below expectation. 9. Caregiver Resources: Caregiver has difficulties in providing for the child's basic needs or developmental needs such that there is a negative impact on the child's level of functioning. Note: Children with a primary diagnosis of developmental disorders are excluded from this definition. Individuals may show less impairment if they are on medications or involved in other treatment services that reduce the symptoms of the illness but moderate to severe impairment in functioning would result with discontinuation of the medications or current treatment.</p>
