Notes:

US totals are based on states reporting.

This table uses data from URS Table 15a.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age	None
Gender	None
Overall	See General Notes

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2017

Rhode Island

Reporting Period: 7/1/2016 To: 6/30/2017

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	52.1%	72.0%	71.0%	54
Percent of Children served through the SMHA who meet the Federal definition for SED	21.3%	70.9%	68.0%	54

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	37.4%	25.4%	23.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	6.6%	6.2%	4.0%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	41.4%	23.3%	21.0%	53
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	5.0%	5.1%	3.0%	53

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

Clients who have both a diagnosis of mental health and substance abuse (regardless of which is primary)

* Reported under Hispanic Ethnicity.

Note:

This table uses data from URS tables 5a and 5b.

Type of Medicaid Data Reported

Data based on Medicaid Eligibility, not Medicaid Paid Services.

State Notes

5a Age None

5a Gender None

5a Overall Since the URS tables were generated by RI; the population changed significantly, thereby changing the count of individuals overall and, most significantly, those declaring themselves as Native Hawaiian or Pacific Islander

5b Overall Between the production of the URS tables, the population has changed significantly. This has inflated unknowns.

APPROPRIATENESS DOMAIN: NUMBER OF ADMISSIONS DURING THE YEAR TO STATE HOSPITAL INPATIENT AND COMMUNITY-BASED PROGRAMS, FY 2017

Rhode Island

URS Table Number	General Notes
2, 3, 6	RI has no state psychiatric hospital, but rather adult psychiatric/forensic units in a general hospital and acute inpatient care contracted through private hospitals
2, 3, 6, 12, 14, 15, 15A	Only children served through the community mental health centers are included.
3	Table 3 counts the number of state-funded clients in inpatient settings. Because of the Affordable Care Act, RI ended its Respect contract as of December 31, 2013 which provided state funding for these services and the numbers of clients served was reduced.
5a	Due to the Affordable Care and Medicaid expansion, funding was shifted from state dollars to Medicaid. RI has been very effective in getting its mental health clients signed up for Medicaid expansion, thus the increase in Medicaid funding in this table. In addition, budget cuts account for a reduction in state funding for services.
5a/b	Some of the total number of consumers reported in table 5A are greater than the total number of consumers served in table 2a due to the current BOLD system does not allow us to keep a snapshot as of December for reporting purposes.
6	The one year change in data are due to the stability of the population and the decreasing sample size.
8	Funding for this work was moved to the Substance Abuse block grant
9, 11/11A, 16, 19A/19B, 20A/20B	Although we attempt to provide children's data for applicable tables, and are able to include children's counts of those served through the Community Mental Health Organizations, we do not have access to many of the measures relating to children in the listed Tables 9: Social Connectedness and functioning, 11/11a:Children's Consumer Survey, 16: Children with SED receiving Therapeutic Foster Care, Multi Systemic Therapy, or Family Functional Therapy, 19a:Criminal Justice Involvement, 19b: School attendance, and 20a/b: Hospitalizations for those under 18
12	The one year change in data is due to small sample size.
14, 16 & 17	Tables are all related to the issues between SMI and SED. This cannot be adequately reported based on RI's current data.
