

South Carolina 2018 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	7,808,416	17.36	23.69	58
Community Utilization per 1,000 population	7,577,095	17.24	22.99	58
State Hospital Utilization per 1,000 population	129,300	0.31	0.39	52
Other Psychiatric Inpatient Utilization per 1,000 population	447,545	-	1.58	41
Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	758,207	42.7%	46.0%	57
Employed (percent with Employment Data)**	758,207	16.7%	22.2%	57
Adult Consumer Survey Measures	State	U.S. Rate	States	
Positive About Outcome	97.3%	80.4%	50	
Child/Family Consumer Survey Measures	State	U.S. Rate	States	
Positive About Outcome	97.4%	72.3%	46	
Readmission Rates:(Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	5,658	2.7%	7.2%	46
State Hospital Readmissions: 180 Days	13,392	8.6%	17.1%	50
State Hospital Readmissions: 30 Days: Adults	5,104	1.5%	7.3%	45
State Hospital Readmissions: 180 Days: Adults	11,997	7.1%	17.1%	49
State Hospital Readmissions: 30 Days: Children	545	4.4%	6.5%	17
State Hospital Readmissions: 180 Days: Children	1,386	10.8%	16.5%	19
Living Situation	U.S.	State	U.S. Rate	States
Private Residence	4,154,672	90.3%	83.5%	56
Homeless/Shelter	222,312	1.7%	4.5%	53
Jail/Correctional Facility	111,902	1.0%	2.2%	50
Adult EBP Services	U.S.	State	U.S. Rate	States
Supported Housing	91,920	-	2.9%	35
Supported Employment	70,310	-	2.0%	45
Assertive Community Treatment	76,802	-	2.1%	45
Family Psychoeducation	39,412	-	2.8%	15
Dual Diagnosis Treatment	250,051	-	11.6%	28
Illness Self Management	336,335	-	20.0%	21
Medications Management	524,689	-	32.1%	19
Child/Adolescent EBP Services	U.S.	State	U.S. Rate	States
Therapeutic Foster Care	7,762	-	1.1%	22
Multisystemic Therapy	25,203	-	3.8%	20
Functional Family Therapy	24,841	-	4.9%	16
Change in Social Connectedness	State	U.S. Rate	States	
Adult Improved Social Connectedness	-	76.6%	48	
Child/Family Improved Social Connectedness	-	86.3%	45	

*Denominator is the sum of consumers employed and unemployed.

**Denominator is the sum of consumers employed, unemployed, and not in labor force.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age	None
Gender	None
Overall	None

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2018

South Carolina

Reporting Period: 7/1/2017 To: 6/30/2018

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	93.0%	70.3%	73.0%	56
Percent of Children served through the SMHA who meet the Federal definition for SED	97.0%	69.7%	69.5%	54

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	23.0%	27.5%	27.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	3.0%	4.2%	3.0%	53
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	23.0%	25.7%	24.0%	55
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	3.0%	7.3%	3.0%	52

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

Method used combines primary and secondary DSM-V diagnoses codes for substance use disorders and DSM-V mental health diagnoses codes meeting the federal criteria for SED and SMI.

State Notes

None

What populations are reported? All Clients Number of States Reporting All Clients: 49 Number of States Reporting Some Clients: 9

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
SC	Yes	-	-	-	Potential to update status available but not required.
US	42	29	4	5	27

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Age	None
Gender	None
Overall	During the year, the state will work on a method to improve data collection for national outcome measures through EMR redesign that prompts the user for an update to this and other behavioral outcomes of interest.

South Carolina

URS Table Number	General Notes
4	Significant change in employment status due to data analysis strategy. Changes to the EMR are underway to ensure data collection standards meet timeline windows. These data are reviewed annually with patients. Currently, these data are not easily tied to an update in the situation that the patient's status was reviewed and no change was reported. The current report includes these values if a date for status review or update was not readily available. The former strategy took a more conservative approach and limited employment status to those patients with an actual change date attached. This strategy unfairly excludes updates where no status change was made. EMR change efforts to capture review date is needed to improve standards to meet the requested data reporting strategy.
5A/B	Medicaid status: Change in analysis strategy to reduce complexity and limit classification of records as unknown status.
6	Decline inpatient consumer count and length of stay from 2017 is due to change in the number of programs being reported. Prior years included two programs that should have been omitted from psychiatric hospital reporting.
7/7A	Change in Evidence-Based practice funding is due to program expansion. During the year Charleston-Dorchester implemented its First Episode Psychosis program called NAVIGATE.
8	Figures provided by Finance and Block Grant Liaison. Previous years may have unintentionally neglected to seek out data for this table.
9	During the year, the state will work on a method to improve data collection for national outcome measures through EMR redesign that prompts the user for an update to this and other behavioral outcomes of interest.
11/11A	The state piloted a brief customer service survey during the reporting year in an effort to respond to feedback regarding the use of a longer patient care survey that attempted to address multiple information needs. The revised survey focused on gathering feedback regarding that day's appointment (all patients with appointments during the Month of May 2018 were offered an opportunity to complete the five question survey) in an effort to improve respondent recall and comprehension. Results indicated that the survey was well received by both administrators and respondents. Future revisions during the current reporting period will work to add essential items that were omitted from the prior survey instrument into the electronic medical record or to the next round of the customer service survey. Data presented in these tables reflects completed surveys tied to appointments. Some duplication exists for patients that had more than one appointment during the month. Data can be unduplicated at the patient level for those patients whose survey included a valid patient ID # (approximately 6% of surveys did not contain a patient number). Data displayed in these tables is limited to those surveys with a patient number in order to display the data based on race, ethnicity, and age criteria. Copies of the survey as well as the statewide results are available by request.
12	Changes in figures due to change in data analysis strategy which included use of secondary inpatient diagnoses and different method for identifying diagnosis codes and descriptions.
14A/B	Change in Asian and Multi-Racial categories due to changing coding strategies from those used in previous reporting.
19A/B	During the year, the state will work on a method to improve data collection for national outcome measures through EMR redesign that prompts the user for an update to this and other behavioral outcomes of interest. Previously, these data elements had been captured during an annual patient survey. This process is currently being revised to reduce PHI related data collection activities occurring outside of the state's electronic health record.
