\* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Some 2006 to 2010 estimates may differ from previously published estimates due to updates (see Section 3.3.5 in Chapter 3 of the *2019 National Survey on Drug Use and Health: Methodological Summary and Definitions*).

NOTE: Respondents could indicate multiple locations for receiving outpatient mental health services; thus, these response categories are not mutually exclusive.

NOTE: Respondents with unknown mental health services information were excluded.

NOTE: Because of revisions in 2004 to the logical editing of the outpatient mental health services data, these 2002 and 2003 estimates may differ from estimates published prior to the 2004 NSDUH.

NOTE: Because of revisions in 2017 to the outpatient mental health service estimates, these 2010 to 2016 estimates may differ from estimates published prior to the 2017 NSDUH.

<sup>1</sup> Respondents were permitted to specify other locations for receiving outpatient mental health services. This location was the most commonly reported other location for receiving outpatient treatment/counseling.

<sup>2</sup> Respondents with unknown or invalid responses to the other-specify question on Some Other Place Received Outpatient Mental Health Services were excluded.

Definitions: Measures and terms are defined in Appendix A.
