Received SU Tx at a Specialty Facility AND MH Services	297	257	339	300	290
Received NEITHER SU Tx at a Specialty Facility NOR MH Services	3,311	3,358	3,060 ^a	3,494	3,679

* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Specialty facilities for substance use treatment include hospitals (inpatient only), rehabilitation facilities (inpatient or outpatient), or mental health centers.

NOTE: Mental Health Services for adults includes inpatient treatment/counseling, outpatient treatment/counseling, or use of prescription medication for problems with emotions, nerves, or mental health. Respondents with unknown mental health service information were excluded.

NOTE: Mental Illness aligns with DSM-IV criteria and is defined as having a diagnosable mental, behavioral, or emotional disorder, other than a developmental or substance use disorder. Estimates of serious mental illness (SMI) are a subset of estimates of any mental illness (AMI) because SMI is limited to persons with AMI that resulted in serious functional impairment. These mental illness estimates are based on a predictive model and are not direct measures of diagnostic status.

^a The difference between this estimate and the 2019 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

Definitions: Measures and terms are defined in Appendix A.

Table 10.31A Receipt of Substance Use Treatment at a Specialty Facility and/or Mental Health Services in Past Year among Persons Aged 50 or Older with Past Year Co-Occurring Substance Use Disorder and Level of Mental Illness: Numbers in Thousands, 2015-2019

Co-Occurring Substance Use Disorder (SUD) and Level of Mental Illness/Receipt of Substance Use Treatment (SU Tx) and Mental Health (MH) Services	2015	2016	2017	2018	2019
SUD and Any Mental Illness					
Received SU Tx at a Specialty Facility OR MH Services	980	927	938	1,162	1,000
Received SU Tx at a Specialty Facility BUT NOT MH Services	62	49	76	*	35
Received MH Services BUT NOT SU Tx at a Specialty Facility	804	743	716	892	798
Received SU Tx at a Specialty Facility AND MH Services	114	135	145	143	167
Received NEITHER SU Tx at a Specialty Facility NOR MH Services	737	720	844	557	728
SUD and Serious Mental Illness					
Received SU Tx at a Specialty Facility OR MH Services	*	*	*	*	*
Received SU Tx at a Specialty Facility BUT NOT MH Services	*	*	*	*	*
Received MH Services BUT NOT SU Tx at a Specialty Facility	*	*	*	*	*
Received SU Tx at a Specialty Facility AND MH Services	*	*	*	*	*
Received NEITHER SU Tx at a Specialty Facility NOR MH Services	*	*	*	*	*
SUD and Any Mental Illness Excluding Serious Mental Illness					
Received SU Tx at a Specialty Facility OR MH Services	730	578	555	*	531
Received SU Tx at a Specialty Facility BUT NOT MH Services	62	*	64	*	35
Received MH Services BUT NOT SU Tx at a Specialty Facility	591	517	394	477	408
Received SU Tx at a Specialty Facility AND MH Services	77	26	97	85	88
Received NEITHER SU Tx at a Specialty Facility NOR MH Services	564	573	665	*	590

* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

NOTE: Specialty facilities for substance use treatment include hospitals (inpatient only), rehabilitation facilities (inpatient or outpatient), or mental health centers.

NOTE: Mental Health Services for adults includes inpatient treatment/counseling, outpatient treatment/counseling, or use of prescription medication for problems with emotions, nerves, or mental health. Respondents with unknown mental health service information were excluded.

NOTE: Mental Illness aligns with DSM-IV criteria and is defined as having a diagnosable mental, behavioral, or emotional disorder, other than a developmental or substance use disorder. Estimates of serious mental illness (SMI) are a subset of estimates of any mental illness (AMI) because SMI is limited to persons with AMI that resulted in serious functional impairment. These mental illness estimates are based on a predictive model and are not direct measures of diagnostic status.

^a The difference between this estimate and the 2019 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

Definitions: Measures and terms are defined in Appendix A.
