NOTE: Medication-assisted treatment for alcohol or for opioids refers to medication prescribed by a doctor or other health professional to help reduce or stop the use of alcohol or opioids, respectively.

<sup>1</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>2</sup> Other Health Insurance is defined as having Medicare, military-related health care, or any other type of health insurance.

Definitions: Measures and terms are defined in Appendix A.
