\* = low precision; -- = not available; da = does not apply; nc = not comparable due to methodological changes; nr = not reported due to measurement issues.

<sup>a</sup> The difference between this estimate and the 2019 estimate is statistically significant at the .05 level. Rounding may make the estimates appear identical.

<sup>1</sup> Estimates of binge alcohol use include use by those who were heavy alcohol users.

<sup>2</sup> The Total column includes respondents with unknown pregnancy status.

<sup>3</sup> Respondents aged 18 to 22 who were living in a college dormitory were excluded.

<sup>4</sup> Respondents could indicate multiple types of health insurance; thus, these response categories are not mutually exclusive.

<sup>5</sup> Other Health Insurance is defined as having Medicare, military-related health care, or any other type of health insurance.

<sup>6</sup> Pregnant females aged 15 to 44 not reporting trimester were excluded.

Definitions: Measures and terms are defined in Appendix A.
