URS Table Number	General Notes
2A/B, 3, 4, 4A, 5A/B, 14A/B, 15, 15A, 20A/B	This is Alabama's eighth year of reporting Client Level Data.
5A	Decrease in number of consumers receiving services from both Medicaid and non-Medicaid funding sources is due to COVID-19. When the pandemic hit, much adjustment to the use of telehealth had to be put in place. Also, due to quarantine requirements, many consumers that had been receiving services declined even with access to telehealth options. The number of consumers served decreased due to the pandemic.
6	The change in percentages from 2019 to 2020 is linked to COVID-19. When the pandemic hit, admissions to hospitals and residential treatment facilities halted. Also, court systems closed so there was a decrease in ADMH commitments to include Juvenile Civil Commitments, Adult Probate Civil Commitments, and Adult Forensic Commitments. Because of the pandemic, admissions to any programs decreased and LOS increased.
7	Total Other Funds – we put more funding in FY20 into other funding from state funds freeing up block grant funds. We also had some 1 time expenses in FY19 that we did not have in FY20. EBP Expenditures – we increased the EBP programs in the state from 1 to 3. This was needed to try and reach our EBP set-aside. Hospital Expenditures – we received funding for COVID-19 related expenses which reduced state expenditures.
7A	In FY20, we implemented two new FEP sites which accounts for the increase in usage of these funds.
8	We put more state funds into non-direct freeing up block grant funds.
12	ADMH has worked with our providers on improving this data focus with their reporting which accounts for the increase.
