Age 18-20	72	5.8%	3,722	3.8%	0.4	0.3	48
Age 21-64	1,161	92.7%	81,222	84.0%	0.5	0.4	51
Age 65+	19	1.5%	5,801	6.0%	0.0	0.1	50
Age Not Available	-	-	2	0.0%	-	-	2
Age Total	1,252	100.0%	96,735	100.0%	0.3	0.3	51
Female	428	34.2%	30,627	31.7%	0.2	0.2	51
Male	824	65.8%	66,072	68.3%	0.4	0.4	51
Gender Not Available	-	-	36	0.0%	-	-	5
Total	1,252	100.0%	96,735	100.0%	0.3	0.3	51

Notes:

US totals are based on states reporting.

This table uses data from URS Table 15a.

US penetration rates are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Age	None
Gender	None
Overall	None

Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2020

Oklahoma

Reporting Period: 7/1/2019 To: 6/30/2020

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	71.2%	71.6%	77.0%	55
Percent of Children served through the SMHA who meet the Federal definition for SED	70.7%	71.1%	75.0%	55

Co-occurring MH and Substance Abuse Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	14.5%	28.0%	25.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	0.6%	8.1%	3.0%	55
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	20.3%	27.4%	24.5%	54
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	0.8%	9.6%	3.0%	54

Note

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

The clients counted as co-occurring were selected from admitted clients with a mental health service that also had a substance abuse diagnosis on either axis1primary, axis1secondary or axis1tertiary.

State Notes

None

What populations are reported? All Clients Number of States Reporting All Clients: 44 Number of States Reporting Some Clients: 13

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
OK	Yes	Yes	-	-	At update (every 6 months), at level of care change.
US	36	25	3	7	25

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Oklahoma

URS Table Number	General Notes
6	The Average LOS of adults (in facility < 1 year) who were state hospital residents at the end of the year increased in SFY 2020 because of changes in a jail diversion program, the physical medical condition of several patients and COVID-19. (1) Oklahoma has two state inpatient hospitals. At both facilities there were changes related to jail diversion. One state hospital did more evaluations at jails and/or other facilities leading to fewer short-term stays at the hospital. At the other state hospital there were more jail evaluations but the patients stayed longer because of placement issues related to legal status. (2) At one state hospital there were several patients that had other medical conditions leading to longer stays. (3) At the other state hospital COVID-19 slowed down the discharges because the programs that patients are normally sent to after discharge were not accepting new patients.
7	The increase in Mental Health Block Grant expenditures in SFY2020 reflects a change in budgeting that resulted in better usage of the Block Grant funds. The amount of Other Federal Funds decreased in SFY2020 because of the expiration of several grants. The EBP for Early Serious Mental Illness spending increased in SFY2020 due to increases in services at the CMHC's and through Medicaid. Other 24 Hour Care (Residential Care) expenditures increased in SFY2020 because of a rule change that allowed the use of Mental Health Block Grant funds for Residential Care.
14A	SMI means an individual 18 years of age or older who meets the following criteria: A. Currently or at any time during the past year have had a diagnosable mental, behavioral or emotional disorder of sufficient duration to meet criteria specified within DSM-IV with the exception of "V" codes, substance use disorders, and developmental disorders, unless they co-occur with another diagnosable serious mental illness; And B. Has at least (a) moderate impairment in at least four, (b) severe impairment in two or (c) extreme impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a person's life. Marked change in mood. Depression and/or anxiety incapacitates person. Emotional responses are inappropriate to the situation. 2. Thinking: Severe impairment in concentration, persistence, and pace. Frequent or consistent interference with daily life due to impaired thinking. Presence of delusions and/or hallucinations. Frequent substitution of fantasy for reality. 3. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. 4. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. 5. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Unable to obtain or maintain employment and/or conduct daily living chores such as care of immediate living environment. 6. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Disregard for safety of others. Destructive to property. Involvement with law enforcement. 7. Self Care/Basic Needs: Disruption in the ability to provide for his/her own needs such as food, clothing, shelter, and transportation. Assistance required in obtaining housing, food and/or clothing. Unable to maintain hygiene, diet, clothing, and prepare food. Or C. Has a duration of illness of at least one year and (a) at least moderate impairment in two, or (b) severe impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a person's life. Marked change in mood. Depression and/or anxiety incapacitates person. Emotional responses are inappropriate to the situation. 2. Thinking: Severe impairment in concentration, persistence and pace. Frequent or consistent interference with daily life due to impaired thinking. Presence of delusions and/or hallucinations. Frequent substitution of fantasy for reality. 3. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. 4. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. 5. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Unable to obtain or maintain employment and/or conduct daily living chores such as, care of immediate living environment. 6. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Disregard for safety of others. Destructive to property. Involvement with law enforcement. 7. Self Care/Basic Needs: Disruption in the ability to provide for his/her own needs such as food, clothing, shelter and transportation. Assistance required in obtaining housing, food and/or clothing. Unable to maintain hygiene, diet, clothing, and prepare food. Note: Individuals with a primary diagnosis of substance abuse or developmental disorder are excluded from this definition. Individuals may show less impairment if they are on medications or receiving other treatment services that reduce the symptoms of the illness, but moderate to severe impairment in functioning would result with discontinuation of the medications.

URS Table Number	General Notes
14A	<p>SED: Individuals from birth to seventeen years of age who meet the following criteria comprise the target population: A. A child who possesses a diagnosable, serious disorder under DSM-IV such as pervasive developmental disorder, childhood schizophrenia, schizophrenia of adult-type manifesting in adolescence, conduct disorder, affective disorder, other disruptive behaviors, or other disorders with serious medical implications such as eating disorders, or persistent involvement with alcohol or drugs; And B. Who has a functioning level which includes: (a) a moderate impairment in at least four, (b) severe impairment in two or (c) extreme impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a child's life. Frustration, anger, loneliness and boredom persist beyond the precipitating situation. Symptoms of distress are pervasive and do not respond to encouragement or reassurance. 2. Thinking: Disruption of daily life due to impaired thoughts and thinking process. Inability to distinguish between fantasy and reality. Unusual thoughts or attachments to objects. 3. Substance Use: Frequent difficulties due to substance use. Repeated use of substances causing difficulty at home or in school. 4. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. Lacks family support. Abused or neglected. 5. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. Lacks age appropriate social skills. 6. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Persistent behavior problems. Failure, suspension or expelled from school. 7. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules, and strong mores. Shows little concern for consequences of actions. Delinquent acts and/or frequent contact with law enforcement. 8. Self Care/Basic Needs: The ability to care for self is considerably below expectation. 9. Caregiver Resources: Caregiver has difficulties providing for the child's basic needs or developmental needs such that there is a negative impact on the child's level of functioning. Or C. Who has a duration of illness for at least one year and has (a) functioning level of moderate impairment in at least two, or (b) severe impairment in one of the following areas: 1. Feeling, Mood, and Affect: Uncontrolled emotion is clearly disruptive in its effects on other aspects of a child's life. Frustration, anger, loneliness, and boredom persist beyond the precipitating situation. Symptoms of distress are pervasive and do not respond to encouragement or reassurance. 2. Thinking: Disruption of daily life due to impaired thoughts and thinking process. Inability to distinguish between fantasy and reality. Unusual thoughts or attachments to objects. 3. Substance Use: Frequent difficulties due to substance use. Repeated use of substances causing difficulty at home or in school. 4. Family: Disruption of family relationships. Family does not function as a unit and experiences frequent turbulence. Relationships that exist are psychologically devastating. Lacks family support. Abused or neglected. 5. Interpersonal: Severe inability to establish or maintain a personal social support system. Lacks close friends or group affiliations. Socially isolated. Lacks age appropriate social skills. 6. Role Performance: Frequent disruption of role performance and individual is unable to meet usual expectations. Persistent behavior problems. Failure, suspension or expelled from school. 7. Socio-legal: Inability to maintain conduct within the limits prescribed by law, rules and strong mores. Shows little concern for consequences of actions. Delinquent acts and/or frequent contact with law enforcement. 8. Self Care/Basic Needs: The ability to care for self is considerably below expectation. 9. Caregiver Resources: Caregiver has difficulties in providing for the child's basic needs or developmental needs such that there is a negative impact on the child's level of functioning. Note: Children with a primary diagnosis of developmental disorders are excluded from this definition. Individuals may show less impairment if they are on medications or involved in other treatment services that reduce the symptoms of the illness but moderate to severe impairment in functioning would result with discontinuation of the medications or current treatment.</p>
16	<p>The reason for the significant increase in people served in through Supported Employment is that ODMHSAS has adopted the Individual Placement and Support (IPS) model of supported employment (an Evidence-based Practice) and have been widely implementing across our providers. We have seen great success with outcomes and project that the numbers served in Supported Employment will continue to grow.</p>
16A	<p>One of the Navigate sites had to rehire their entire team this year in the midst of the pandemic. This is the reason the admission and service numbers have decreased this year.</p>
