Note:
Are Client Counts Unduplicated?

Unduplicated

Number of States with Unduplicated Counts 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2019

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table 3 and 6.

Texas

URS Table Number	General Notes
6	Total Admissions to Residential Treatment Centers During the Year: COVID starting in March had a significant impact on our number of admissions. We noticed nearly a 50% decrease starting in April and continuing through the end of the fiscal year. Average LOS of adults (in facility < 1 year) who were state hospital residents at the end of the year: We did see an increase in LOS overall partially due to difficulties in discharging patients during the COVID pandemic, but more attributable to the increase in treating forensic patients. The ICW has had a number of individuals in a PPB waiting for a SH hospital bed; many of these individuals have longer LOS than is typical.
7	Total MHBG Expenditures: Total Texas award for MHBG increased by approximately \$13M starting with 2018 award; annual expenditures have been ramping up since and would likely have been higher if not for COVID-19 related impacts, which were only partially mitigated by temporarily expanded telephone/telehealth services allowances. Total MHBG expenditures by year will likely increase further for 2021. Total Medicaid Expenditures: Expenditures related to Home and Community Based Services (HCBS) for Adult Mental Health have increased significantly during this period. Total Other Expenditures: Primary source of increase (\$1,938,893) was related to a FEMA DR-4485 Crisis Counseling - Immediate Services Program Grant, CFDA 97.032. Total EBP for ESMI Expenditures: Texas began investing additional funds in Coordinated Specialty Care services starting in 2019, and expenditures began to catch up starting in 2020; will likely increase further in 2021.
7A	Total CSC-Evidence-Based Practices for First Episode Psychosis Expenditures: Texas began investing additional funds in Coordinated Specialty Care services starting in 2019, and expenditures began to catch up starting in 2020; will likely increase further in 2021.
8	Total MHBG Expenditures for Non-Direct Service Activities: Increased investment in Mental Health First Aid training, the Suicide Care Initiative program, training and guidance for COVID-19 related temporarily expanded telephone/telehealth services, and MH Workforce development and training.
12	Clients with substance abuse diagnosis are flagged in the database. Diagnosis not calculated for all people or programs.
