When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
KS	Yes	-	Yes	-	-
US	36	25	3	7	25

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Forensics included in "non forensic" data? No

Note:

US totals are based on states reporting.

This table uses data from URS Tables 20a and 20b.

State Notes:

Due to COVID, the allotted beds were restricted at one of the state hospitals from 90 to 70 beds to allow for single room occupancy. This can be seen in the data as the discharge numbers were decreased from the previous year.

Kansas

URS Table Number	General Notes
4	Employment status is collected for all Kansas adult mental health consumers at admission. Monthly updates to employment status are collected for adults with SPMI while the adult is receiving specialized services. The total numbers reported represent the employment status of consumers admitted or updated during the report period.
6	During SFY 2020, Kansas experienced a statewide public health emergency that resulted in decreased admissions to the Community Mental Health Centers (CMHCs).
7	The decrease in total MHBG expenditures from 2019 to 2020 is primarily related to one time payment adjustments to the State's CMHC network for Block Grant services provided during 2019.
7	The decrease in other federal funds from 2019 to 2020 is primarily due to the closing of two federal grants (ESEK and CABHI) in the prior year.
7	The increase in total other 24-hour care expenditures from 2019 to 2020 is primarily attributed to an adjustment in cost allocation as part of the Kansas Medicaid Managed Care program adjusted to account for increase in PRTF utilization and rates as well as an adjustment in the Medicaid cost allocation methodology related to PRTFs.
12	During SFY 2020, Kansas experienced a statewide public health emergency that resulted in decreased admissions to the Community Mental Health Centers (CMHCs).
15	Living situation is collected for all Kansas mental health consumers at admission. Monthly updates to living situation are collected only for adults with SPMI and children with SED while they are receiving specialized services. The total column represents the living situation of consumers admitted or updated during the report period.
