**Note:**
**Are Client Counts Unduplicated?**

Unduplicated

**Number of States with Unduplicated Counts** 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2019

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**
**Table 2a**

Age	None
Gender	None
Race	Notice an increase in the number of Race Not Available; will try to identify the cause and improve reporting for next year.
Overall	URS 2020 Not Available increased; unsure of reason but will continue to monitor. May be impacted by CMHCs reduction of face-to-face contacts and more telehealth during COVID19 pandemic; intake process may be more brief.

**Table 2b**

Age	None
Gender	In 2021, SMHA plans to add to MMIS System additional values for answer options for Gender at Birth, add a new Gender Identify field, and add a new Sexual Orientation field.
Race	Notice an increase in the number of Ethnicity Not Available; will try to identify the cause and improve reporting for next year.
Overall	URS 2020 Not Available increased; will continue to monitor. May be impacted by CMHCs reduction of face-to-face contacts and more telehealth during COVID19 pandemic; intake process may be more brief.

**Note:**

This table uses data from URS Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2019

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**
**Table 14a**

**Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2020**

**Kentucky**

**Reporting Period: 7/1/2019 To: 6/30/2020**

<b>Adults and Children who meet the Federal Definition of SMI/SED</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who meet the Federal definition for SMI	-	71.6%	77.0%	55
Percent of Children served through the SMHA who meet the Federal definition for SED	-	71.1%	75.0%	55

<b>Co-occurring MH and Substance Abuse Consumers</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	17.0%	28.0%	25.0%	56
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	1.0%	8.1%	3.0%	55
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	7.5%	27.4%	24.5%	54
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	1.0%	9.6%	3.0%	54

**Note**

This table uses data from URS Table 12.

**How are the number of clients with co-occurring disorders counted and calculated?**

Percentages of children/adolescents and adults who also have a co-occurring substance use disorder are from AMART—client counts with both MH and SA record markers = true divided by total children and adults served. Percentages of children/adolescent with SMI and adults with SED whose also have co-occurring substance use disorder is calculated by dividing the total number of children/adolescents with SED and adults with SMI with both a MH and SA record by the total number of children/adolescents with SED and total number of adults with SMI.

**State Notes**

None

**Note:**

This table uses data from URS tables 5a and 5b.

**Type of Medicaid Data Reported**

People Served by Both includes people with any Medicaid

**State Notes**

5a Race None

5a Gender None

5a Overall URS 2020 Not Available increased; unsure of reason but will continue to monitor. May be impacted by CMHCs reduction of face-to-face contacts and more telehealth during COVID19 pandemic; intake process may be more brief.

5b Overall URS 2020 Not Available increased; possible indirect result from limited binary-only gender choices; SMHA to add choices in 2021.

**APPROPRIATENESS DOMAIN: NUMBER OF ADMISSIONS DURING THE YEAR TO STATE HOSPITAL INPATIENT AND COMMUNITY-BASED PROGRAMS, FY 2020**

## Note:

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

## State Notes:

BHID does not fund Child's State Psychiatric Hospitals. Gender Not Available more than in 2019. The SMHA to add more gender values in 2021. We'll continue to monitor.

## Appropriateness Domain: Evidence-Based Practices Reported by SMHAs, FY 2020

Kentucky

Reporting Period: 7/1/2019 To: 6/30/2020

**What populations are reported?** All Clients Number of States Reporting All Clients: 44 Number of States Reporting Some Clients: 13

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
KY	-	-	-	-	-
US	36	25	3	7	25

**Note:**

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

**State Notes:**

Age None

Gender Notice an increase in the number of Gender Not Available; will try to identify the cause and improve reporting for next year.

Overall URS 2020 Not Available increased; possible indirect result from limited binary-only gender choices; SMHA to add choices in 2021.

**Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2020**

**Kentucky**

**Reporting Period: 7/1/2019 To: 6/30/2020**

Forensics included in "non forensic" data? No

**Note:**

US totals are based on states reporting.

This table uses data from URS Tables 20a and 20b.

**State Notes:**

KCPC serves adults only and is the only state supported forensic psychiatric facility in Kentucky. Notice 2020 fewer 180-day readmission; low n. Also, we'll study to identify other causes.

## Kentucky

URS Table Number	General Notes
5A	Decrease in the number of clients served with both Medicaid and non-Medicaid funding: while the number reported in 2020 was lower than 2019, it was actually closer to our normal trend over the past 4 years. The number reported in 2019 appears as an outlier; higher than normal. URS 2020 was 25,622, URS 2019 was 31,452 (this represents an increase of 16% (n=5,138) from 2018). The percentage seems high because the 2018 base (26,314) is a relatively low number compared to the number of persons served in the category of "Medicaid Only" (78,805). URS 2018 was 26,314, URS 2017 was 24,285. In summary, the 2020 number in the both Medicaid and non-Medicaid funding category was a return to the normal trend. The 2019 number for this category was high compared to adjacent years. Also in 2019, the number of persons with "Medicaid Only" increased; yet, the number in "non-Medicaid" category decreased in 2019. We are unaware of why the number with "Medicaid Only" increased in 2019 which affected the both Medicaid and non-Medicaid funding category. Further during 2020, the number with "Medicaid only" decreased in 2020 by 5,479 which is only 6.6% change because the "Medicaid Only" base (82,413) is a relatively high number. Also during 2020, the number of "Non-Medicaid" increased slightly and the number in "Medicaid Status Not Available" also decreased.
6, 7, 20A, 21	Increase in the average LOS of clients served in state psychiatric hospitals: prior to URS 2020, four hospitals were included in the "State Hospital" category. During 2020, one of these four hospitals was removed from the "State Hospital" category and instead was reported as "Other Psychiatric Inpatient". This shift occurred because the category "Other Psychiatric Inpatient" was added to Table 7 for the first time in 2020. We were advised to include this one hospital in the "Other Psychiatric Inpatient" category thus removing it from inclusion in the "State Hospitals" across all 2020 URS tables. The shift of the one hospital accounts for the changes in average LOS. This shift in reporting for one specific hospital also impacted tables 7, 20a and 21.
7	The decrease in other expenditure funding is a reflection of a reduced role change for the Department in a particular program. In 2019, the program and funds were distributed across several Departments in our Cabinet and this changed in 2020. The decrease in administration expenditures is the result of applying a modified, Departmental calculation that is used to calculate facility administration expenses. This modification was first applied during SFY20.
8	"Partnerships, community outreach, and needs assessment" - during 2020, we increased our partnerships and contracted activities to support community work during COVID. "Training and Education" - during 2020, we primarily used new Training and Technical Assistance Funds that were awarded after the initial MHBG was award. "Planning Council Activities" - during 2020, the costs for face-to-face meetings and meeting support lessened since meeting formats were virtual during the COVID-19 Pandemic.
14A	SMI Definition: As defined in KRS 210.005, "chronic" (mental illness) means that clinically significant symptoms of mental illness have persisted in the individual for a continuous period of at least two (2) years, or that the individual is presently and significantly impaired in his ability to function socially or occupationally or both; and 2. Have a diagnosis of a major mental disorder (other than substance abuse or mental retardation as the sole diagnosis) as included in the DSMIIIR classification under Schizophrenic Disorder, Psychotic Disorders, Mood Disorder, Organic Mental Disorders or Delusional (paranoid) Disorders. Personality disorders shall be considered only when information and history depict that the individual exhibit persistent disability and significant impairment in major areas of community living.
14A	SED Definition: A child who is under age 18 or under age 21 and was receiving mental health services prior to age 18 and the services must be continued for therapeutic benefit; and 2. Has a clinically significant disorder of thought, mood, perception, orientation, memory, or behavior that is listed in the current edition of the American Psychiatric Association's Diagnostic and Statistical Manual of Mental Disorders; and presents substantial limitations which have persisted for at least one year, or are judged by a mental health professional to be at high risk of continuing for one year without professional intervention in at least two of these five areas: Self Care, Interpersonal Relationships, Family Life, Self-Direction, Education or is a Kentucky resident and is receiving residential treatment for an emotional disability through the interstate compact; or has been removed from the home by the Department for Community Based Services (Kentucky's child welfare agency) and has been unable to maintained in a stable setting due to a behavioral or emotional disability.
16A	All iHOPE Programs serve ESMI/clinical high risk and FEP.
20A & 21	Hispanic is reported as race by Facilities. "Asian" and "Pacific Islander" are reported as same category by Facilities; "Hawaiian" is not collected by facilities. Change in 180-readmission rate for "American Indian" & "Asian" due to low n.
