	Age NA	40	-	176	26,764	22,850	5,727	0.23	4.67	16

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table 3 and 6.

Table 3 State Notes:

Age See General Notes
 Overall See General Notes. Individuals served in Other Psychiatric Inpatient and Youth in Residential Treatment Centers are also included in the Community Mental Health total.
 Gender None

Table 6 State Notes:

Hospital Data includes inpatient hospital stays in State hospital Adult Mental Health and Secure/Forensic programs. No C&A programs exist in the state hospitals.
 Other Inpatient Due to inconsistent and inaccurate discharge data, discharges and Length of Stay calculations could not be provided.
 Residential Due to inconsistent and inaccurate discharge data, discharges and Length of Stay calculations could not be provided.
 Community Because data is based off of service authorizations it is difficult to determine individuals at beginning of year vs. admission into community services.
 Overall Individual's age is reported as of the beginning of the report period (BOP = 7/1/2019).

Setting	Demographic	State								US							
		Length of Stay (Days)								Length of Stay (Days)

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
GA	-	-	-	-	-
US	36	25	3	7	25

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Age See General Notes

Gender None

Overall Data for community consumers only (does not include State Hospital individuals). This table includes 176 clients served in community settings whose age are not available. Also, see General Notes

Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2020

Georgia

Reporting Period: 7/1/2019 To: 6/30/2020

Diagnosis	State				Employed as a % of Labor Force		Employed as % of Known Employment Status		% of Consumers with Dx		States Reporting

Georgia

URS Table Number	General Notes
All	State Hospital Inpatients are only included where identified and not calculated into overall totals. State hospital inpatient includes stays in Adult Mental Health and Secure (Forensics) programs. Data for hospital outpatients and non-admits (including 23-hour observation) is not included; however, hospital-operated community services are included with other community services. Community Mental Health data includes individuals authorized for residential stays in Psychiatric Residential Treatment Facilities (PRTFs) and state contracted inpatient beds. Authorizations for community services for consumers having at least one authorization with Type of Service of MH or MH/SA Co-Occurring.
All	Age: Unless otherwise specified Individuals age was calculated as of the beginning of the report period (BOP = 7/1/2019). Race: "More Than One Race Reported" includes Multi-Racial. "Race Not Available" includes Other Single Race, Unknown, and not reported. Hispanic/Latino Origin: "Not Available" includes "Unknown" and not reported.
4	Table 4 reports data for community consumers only. Employment Status reported in Table 4 is the latest available for the SFY. Employment Status is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. "Employed" includes Competitive Employment and Community Based Non-Competitive Employment. "Unemployed" includes Unemployed But Available for Work = Yes. "Not in Labor Force" includes Facility Based Non-Competitive Employment and Unemployed But Available for Work = No. "Not Available" includes Not Available and Not Reported.
5A, 5B	"Medicaid (only Medicaid)" includes any consumer in Table 2A for whom a Medicaid MRO/PRTF claim was paid, but no State service encounter was reported. "Non-Medicaid Sources (only)" includes any consumer in Table 2A for whom no Medicaid claim was paid, but a State service encounter was reported. "People Served by Both Medicaid and Non-Medicaid" includes any consumer in Table 2A for whom both a Medicaid claim was paid and a State service encounter was reported. "Medicaid Status Not Available" includes all the remaining consumers in Table 2A. Individuals served in state hospitals are considered non-Medicaid (State Funded).
6	We believe the decrease in admissions to community programs is related to the COVID-19 pandemic.
7	The decrease in the MHBG expenditures reflects the reduced need to support crisis services after receiving additional state appropriations in FY20. The increase in primary prevention expenditures reflects additional activity with the Suicide Prevention Action Network of GA and the full implementation of additional suicide prevention funds appropriated in FY19. The decrease in other funds expenditures relates to lower capital expenses (bond funds) used by the hospital system for facility maintenance and upkeep.
9, 11, 19A, 19B	Due to the COVID pandemic, Georgia was not able to conduct the Child or Adult Consumer Surveys this year.
12, 14A, 14B, 16	DBHDD Collects provider reported SPMI/SED information at the time of authorization for community services because of a Federal DOJ settlement. This yields reported counts and percentages of SMI which may be artificially low because SPMI is reported.
14A	The table is correct as reported. There was previously a data reporting error that is resolving itself where a number of individuals was reported as Asian incorrectly.
15	Table 15 reports data for community consumers only. Living Situation reported in Table 15 is the latest available for the SFY. Living Situation is collected at admission, at discharge, at re-authorization of services, and at addition of new services to an existing authorization. Table 15's category "Residential Care" includes living situations "Residential Care" and "PRTF" where the consumer's age was ≥ 18 . Table 15's category "Children's Residential Treatment" includes living situations "Residential Care" and "PRTF" where the consumer's age was <18 . "Crisis Residence" is not included among the response options for living situation in Georgia's information system. "NA" includes living situation Not Reported.
16	"Total unduplicated N - Adults with SMI served" includes only community consumers. "Total unduplicated N - Children with SED" includes only community consumers.
17	Report of Illness Self Management was expanded this year to include Individual & Group modalities of Peer Supports for Adults and includes Peer Support Whole Health & Wellness.
20A	Data: This table presents duplicated counts of consumers discharged from a state hospital adult mental health inpatient programs between 1/1/2019 - 12/31/2019, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."

URS Table Number	General Notes
20B	Data: This table presents duplicated counts of consumers discharged from a State hospital Forensice/Secure inpatient programs between 1/1/2019 - 12/31/2019, and those consumers' subsequent readmissions within 30/180 days of discharge. Calendar year was used for this table instead of State Fiscal Year because 180 days from the end of the State Fiscal Year would not have passed by the due date of this report. Age: Data is based on the consumer's age at discharge. Race: "Race Not Available" includes "Other Single Race."
20B	Forensics individuals placed on Conditional Release are discharged. These individuals are monitored and if for any reason they are returned to the hospital, it is counted as a readmission.
