General Notes FY 2020**Iowa**

URS Table Number	General Notes
3, 21	The system that previously provided State Psychiatric Hospital persons served data is not available for SFY2019 - 2020. As a result, a proxy data source replaced state hospital data. These issues will be resolved for SFY2021.
4	Service utilization, in particular Supported Employment, and in general unemployment rates were affected by the pandemic.
5A	There was an overall decrease in persons served across Medicaid and Non-Medicaid funded services likely due to the pandemic. The increase in Non-Medicaid Funded only is likely a result of identifying unique individuals in 2020 that were previously linked to an incorrect identifier in the process of unduplicating individuals across multiple data sources.
7	Variance in expenditures is the result of continued work on the methodology that will continue to yield more complete data.
7, 8	Increase in total MHBG dollars is due to new expenditures in FY20 of \$402,000 to support the statewide mental health crisis line.
14A, 15	Variance in persons served is the result of continued work on the methodology that will continue to yield more complete data.
