

Nevada 2020 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,013,396	5.32	24.58	58
Community Utilization per 1,000 population	7,801,366	4.98	23.93	58
State Hospital Utilization per 1,000 population	125,305	0.79	0.38	53
Other Psychiatric Inpatient Utilization per 1,000 population	408,959	-	1.47	40

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	776,983	41.0%	47.1%	57
Employed (percent with Employment Data)**	776,983	22.4%	23.6%	57

Adult Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	74.3%	79.6%	49

Child/Family Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	100.0%	74.6%	45

Readmission Rates:(Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	7,008	9.9%	9.2%	48
State Hospital Readmissions: 180 Days	15,085	20.6%	19.9%	49
State Hospital Readmissions: 30 Days: Adults	6,499	9.0%	9.4%	48
State Hospital Readmissions: 180 Days: Adults	13,916	19.4%	20.2%	49
State Hospital Readmissions: 30 Days: Children	509	44.0%	7.3%	16
State Hospital Readmissions: 180 Days: Children	1,169	70.0%	16.7%	19

Living Situation	U.S.	State	U.S. Rate	States
Private Residence	4,199,185	70.3%	84.7%	57
Homeless/Shelter	216,731	14.3%	4.4%	52
Jail/Correctional Facility	72,275	4.4%	1.5%	51

Adult EBP Services	U.S.	State	U.S. Rate	States
Supported Housing	70,648	-	2.3%	30
Supported Employment	66,662	-	1.9%	41
Assertive Community Treatment	66,159	-	1.8%	42
Family Psychoeducation	37,853	-	3.1%	16
Dual Diagnosis Treatment	199,597	-	9.5%	24
Illness Self Management	308,378	-	19.1%	22
Medications Management	545,051	-	31.3%	21

Child/Adolescent EBP Services	U.S.	State	U.S. Rate	States
Therapeutic Foster Care	13,178	-	1.7%	21
Multisystemic Therapy	31,303	-	4.1%	20
Functional Family Therapy	31,817	-	5.8%	15

Change in Social Connectedness	State	U.S. Rate	States
Adult Improved Social Connectedness	76.3%	79.2%	46
Child/Family Improved Social Connectedness	91.9%	88.4%	42

*Denominator is the sum of consumers employed and unemployed.

**Denominator is the sum of consumers employed, unemployed, and not in labor force.

Note: This table use data from URS Table 7a.

* Other Funds include Medicaid, Other Federal funds, local funds, and other funds from table 7a.

State Notes:

Coordinated Specialty Care (CSC) is a team-based, multi-element approach to treating. Component interventions include assertive case management, individual or group psychotherapy, supported employment and education services, family education and support, and low doses of select antipsychotic agents. Due to COVID, telehealth had to be utilized, with a delayed implementation. Travel was restricted in the state and therefore lower costs were billed to this area.

Nevada

URS Table Number	General Notes
3	The decrease in the total number of consumers served in community settings from 2019 to 2020 is a result of the impact of the pandemic.
4	Staff has been more diligent in asking about employment status reducing those assigned as not in labor force including gig work. Part of this change can be seen in the increase of those employed.
5A	Our overall caseload has probably gone down this year, so It's not surprising that the raw numbers are showing a decrease. Benefits staff, at least at SNAMHS, tries to review each client and determine if they are eligible for any type of insurance and then help the client apply for it. We have had some challenges this year, like short staffing and telemedicine (meaning we never actually see some clients which makes it hard to help them apply for insurance). Our Benefits staff have increased their efforts to find other clients insurances outside of Medicaid which many may qualify for resulting in an increase in the number of consumers receiving both Medicaid and non-Medicaid funded services.
6	This increase in the number of clients served in community MH programs was prior to the pandemic and reflects the community outreach to serve more clients.
7	We had a revenue increase for both Medicaid and "Other" funds. The funds were then allocated to our expenditures by activity based on the percentage of the revenue. For FY20, we allocated the expenditures based on the activity and funding received as were to prior years it was based on category and not activity codes.
7A	Coordinated Specialty Care (CSC) is a team-based, multi-element approach to treating. Component interventions include assertive case management, individual or group psychotherapy, supported employment and education services, family education and support, and low doses of select antipsychotic agents. Due to COVID, telehealth had to be utilized, with a delayed implementation. Travel was restricted in the state and therefore lower costs were billed to this area.
8	Due to the COVID pandemic, there was additional training offered to staff and an client outreach campaign.
14A/B	NAC 433.040 "Adult with a serious mental illness" and "child with a serious emotional disturbance" defined for counting purposes. (NRS 433.324). Each division facility shall use the following definitions to count the number of persons in this state who are adults with a serious mental illness or children with a serious emotional disturbance: 1. "Adult with a serious mental illness" means a person who is at least 18 years old and has been diagnosed within the immediately preceding 12 months as having a mental, behavioral or emotional disorder as defined in the "Diagnostic and Statistical Manual of Mental Disorders," as adopted by reference in NAC 433.050, other than an addictive disorder, mental retardation, irreversible dementia or a disorder caused by an abuse of alcohol or drugs, which interferes with or limits one or more major life activities of the adult. 2. "Child with a serious emotional disturbance" means a person who is less than 18 years old and has been diagnosed within the immediately preceding 12 months as having a mental, behavioral or emotional disorder as defined in the "Diagnostic and Statistical Manual of Mental Disorders," as adopted by reference in NAC 433.050, other than a mental disorder designated as a Code V disorder in the Manual, a developmental disorder or a disorder caused by an abuse of alcohol or drugs, which substantially interferes with or limits the child from developing social, behavioral, cognitive, communicative or adaptive skills or his activities relating to family, school or community. The term does not include a child with a disorder which is temporary or is an expected response to stressful events. (Added to NAC by Common on Men. Health & Men. Retardation, eff. 8-24-88; A 11-19-90; R128-97, 11-14-97).
14A/B	NRS 433B.045 "Child with an emotional disturbance" defined: "Child with an emotional disturbance" means a child whose progressive development of personality is interfered with or arrested by mental disorder so that he shows impairment in the capacity expected of him for his age and endowment for: 1. A reasonably accurate perception of the world around him; 2. Control of his impulses; 3. Satisfying and satisfactory relationships with others; 4. Learning; or 5. Any combination of these factors. (Added to NRS by 1993, 2708)— (Substituted in revision for NRS 433B.080).

URS Table Number	General Notes
14A/B	<p>402.36 Severe Emotional Disturbance (SED): 1. Persons from birth through 48 months who currently or at any time during the past year (continuous 12-month period) have a: a). DC:0-3 Axis I diagnostic category in place of a DSM Axis I diagnostic category; or b). DC:0-3 Axis II PIR-GAS score of 40 or less (the label for a PIR-GAS score of 40 is "Disturbed"); or 2. Persons from 4 to age 18 who currently or at any time during the past year (continuous 12-month period) have a: a). Diagnosable mental or behavioral disorder or diagnostic criteria that meets the coding and definition criteria specified in the DSM (excluding substance abuse or addictive disorders, irreversible dementias, mental retardation, developmental disorders, and V codes, unless they co-occur with a serious mental disorder that meets DSM criteria); and have a: b). Functional impairment which substantially interferes with or limits the child from achieving or maintaining one or more developmentally appropriate social, behavioral, cognitive, communicative or adaptive skill. Functional impairments of episodic, recurrent, and persistent features are included, however may vary in term of severity and disabling effects unless they are temporary and an expected response to stressful events in the environment. Children who would have met functional impairment criteria during the referenced year without the benefit of treatment or other support services are included in this definition.3. SED determinations are made by a Qualified Mental Health Professional (QMHP) within the scope of their practice under state law and expertise. Regarding the increase in clients with co-occurring MH and SUD: Better screening and documentation of individuals with co-occurring disorders.</p>
15	<p>DPBH makes up the vast majority of the data being reported, and we have made a concerted effort to reduce the number of "unknowns" being entered into the system. This accounts for the increase in private residence entries that are reflected in 2020.</p>
20A	<p>The reason for the decrease in the number of 180-day readmissions might be due to the fact that SNAMHS held admissions at the height of the pandemic last year, we also had decreased number of discharges which limited the number of opened beds. Patients on waitlist from the ER might have been diverted to other hospitals or discharged due to no bed availability.</p>
