

## 2021 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2021 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2021: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2021, 8,195,517 clients received SMHA services from 59 states. This is an increase from 8,013,396 SMHA clients in 2020. There were 5,789,234 adults (or 17.3 per 1,000), 2,175,848 children (or 29.9 per 1,000) served. About 9,311 (0.1 percent) clients were missing age data.
- Among SMHA clients, there were 4,342,545 (53.0 percent) females served while there were 3,806,666 (46.4 percent) males served. In 21 states and U.S. territories, more SMHA males were served than females. While in 38 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 32.9 percent, followed by ages 45-64 with 23.6 percent, children ages 0-12 with 14.8 percent, and children ages 13-17 with 12.1 percent.
- The highest percentage of SMHA clients that were served was among the White population with 58.1 percent, followed by Black or African Americans with 17.9 percent, and only 15.7 percent for Hispanics.

## Alabama 2021 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,195,517	19.28	24.59	59
Community Utilization per 1,000 population	7,974,393	19.20	23.93	59
State Hospital Utilization per 1,000 population	114,987	0.15	0.36	53
Other Psychiatric Inpatient Utilization per 1,000 population	454,356	0.21	1.52	45

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	809,009	42.2%	48.2%	59
Employed (percent with Employment Data)**	809,009	18.9%	24.6%	59

Adult Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	70.0%	77.1%	51

Child/Family Consumer Survey Measures	State	U.S. Rate	States
Positive About Outcome	73.1%	72.2%	47

Readmission Rates:(Civil "non-Forensic" clients)	U.S.	State	U.S. Rate	States
State Hospital Readmissions: 30 Days	5,504	1.5%	7.6%	43
State Hospital Readmissions: 180 Days	12,996	7.2%	17.8%	47
State Hospital Readmissions: 30 Days: Adults	5,098	1.5%	7.6%	43
State Hospital Readmissions: 180 Days: Adults	12,003	7.2%	17.9%	47
State Hospital Readmissions: 30 Days: Children	405	0.0%	7.1%	17
State Hospital Readmissions: 180 Days: Children	992	0.0%	17.4%	19

Living Situation	U.S.	State	U.S. Rate	States

**Appropriateness Domain: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/AOD Disorders, FY 2021**

**Alabama**

**Reporting Period:** 10/1/2020 To: 9/30/2021

<b>Adults and Children who meet the Federal Definition of SMI/SED</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who meet the Federal definition for SMI	89.9%	71.4%	74.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	96.9%	71.8%	75.0%	57

<b>Co-occurring MH and Substance Abuse Consumers</b>	<b>State</b>	<b>US Average</b>	<b>US Median</b>	<b>States Reporting</b>
Percent of Adults served through the SMHA who had a co-occurring MH and AOD disorder	19.9%	28.8%	26.0%	57
Percent of Children served through the SMHA who had a co-occurring MH and AOD disorder	1.5%	6.1%	2.0%	57
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance abuse diagnosis	21.0%	29.8%	27.0%	56
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance abuse diagnosis	1.4%	10.3%	3.0%	56

**Note**

This table uses data from URS Table 12.

**How are the number of clients with co-occurring disorders counted and calculated?**

Primary ICD 10 Diagnosis and Primary ICD 10 Substance Abuse Diagnosis are captured in the DMH Central Data Repository for each client served. If the client has a diagnosis in both of these fields, the client is counted as having a co-occurring disorder.

## Alabama

URS Table Number	General Notes
2A/B, 3, 4, 4A, 5A/B, 14A/B, 15, 15A, 20A/B	This is Alabama's ninth year of reporting Client Level Data.
14A/B	SMI Definition: Person who meets the diagnosis and disability criteria or who meet the criteria for high risk. Disability Criteria (must meet at least 2 criteria plus diagnosis criteria). (1) Is unemployed, is employed in a sheltered setting or has markedly limited skills and a poor work history. (2) Shows severe inability to establish or maintain personal social support systems. (3) Shows deficits in basic living skills. (4) Exhibits inappropriate social behavior. High Risk (must meet one of the criteria). (1) History of DMH/MR supported inpatient or public residential treatment as a result of an Axis I Mental Illness diagnosis. (2) Person would become at imminent risk of needing inpatient hospitalization without outpatient intervention.
14A/B	SED Definition: Person must meet the diagnosis criteria and Separation from Family or meet diagnosis criteria and Functional Impairments/Symptoms/Risk of Separation Criteria.
16A	New Programs added this year. In years past, it was only JBS NOVA
4	Covid 19 was still an issue
6	Total Admissions to State Hospital During the Year – increase due to suppression of admissions during FY20 due to covid. Total Admissions to Residential Treatment Centers During the Year – Due to Covid 19, several children residential programs admissions slowed down due to residents contracting Covid and unable to admit once beds were available. Average LOS of children discharged from State Hospitals – We had several chronic mentally ill clients that impacted the average LOS.
7	Total MHBG Expenditures in FY20 to FY21 – we got additional funding and we spent more carryover funds. Total State Fund Expenditures – Covid made us spend less in FY20 in hospitals due to reduced census and covid reimbursement from other sources. In FY21 DMH added funds for 3 Crisis Residential Units (22.5 million) and 8 million for inflationary expense (this however might be 1 time funding). The 31 million additional spend in residential in FY21 and the reduction in state hospitals of 18 million in state hospital funding in FY20 combines to make the FY21 increase around 49 million. Total State Hospital Expenditures – Covid made us spend less in FY20 in hospitals due to reduced census and covid reimbursement from other sources. Expenses went back to normal in FY21. Total Other 24-hour Care Expenditures – In FY21 DMH added funds for 3 Crisis Residential Units (22.5 million) and 8 million for inflationary expense (this however might be 1 time funding).
8	Total MHBG Expenditures for Non- Direct Activities was impacted by reduced spending in FY20 and a return to normal in FY21.
15	The reason for the decrease is that The Alabama Department of Mental Health has implemented crisis services to include crisis centers and mobile crisis teams which focus on diverting from jails.
16	The decrease is due to workforce issues. Our providers experienced several vacancies with the employment programs.

## **Errata Sheet to 2021 URS Output Tables**

This page includes clarifications and corrections to 2021 URS Output Tables.

### **APPROPRIATENESS DOMAIN: Living Situation of Consumers Service by State Mental Health Agency Systems, FY2021**

The table counts and percentages have been updated due to a processing error in the “Not Available” category.

### **APPROPRIATENESS DOMAIN: Adults with SMI and Children with SED Receiving Evidence-Based Services for First Episode Psychosis (FEP), 2021**

The table counts and percentages have been updated in “CSC-FEP Fidelity and Training State” and “Clients Served by Programs With and Without CSC-FEP Fidelity” due to a processing error in counting several fidelity programs.
