

## 2021 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2021 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2021: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2021, 8,195,517 clients received SMHA services from 59 states. This is an increase from 8,013,396 SMHA clients in 2020. There were 5,789,234 adults (or 17.3 per 1,000), 2,175,848 children (or 29.9 per 1,000) served. About 9,311 (0.1 percent) clients were missing age data.
- Among SMHA clients, there were 4,342,545 (53.0 percent) females served while there were 3,806,666 (46.4 percent) males served. In 21 states and U.S. territories, more SMHA males were served than females. While in 38 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 32.9 percent, followed by ages 45-64 with 23.6 percent, children ages 0-12 with 14.8 percent, and children ages 13-17 with 12.1 percent.
- The highest percentage of SMHA clients that were served was among the White population with 58.1 percent, followed by Black or African Americans with 17.9 percent, and only 15.7 percent for Hispanics.

# District of Columbia 2021 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States

**Note:**

Are Client Counts Unduplicated? Unduplicated Number of States with Unduplicated Counts 43

This table uses data from URS Table 2a, Table 2b and from the US Census Bureau. All denominators use US Census data from 2020

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

**Table 2a**

Age None  
Gender None  
Race None  
Overall DBH expanded the universe of consumers to include those with DC's free standing mental health clinics. Some of those consumers were already in the previous data set (mental health rehabilitative services), but some were unique.

**Table 2b**

Age None  
Gender None  
Race One of DBH's data sources classified Hispanic as a race. When the race was documented as Hispanic, DBH classified their ethnicity as Hispanic and their race as Not Available.  
Overall DBH expanded the universe of consumers to include those with DC's free standing mental health clinics. Some of those consumers were already in the previous data set (mental health rehabilitative services), but some were unique.

Ethnicity Not Available	9,999	51.9%	530,987	9.7%	-	-	-	46

**Note:**  
This table uses data from URS Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2020

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:**

Table 14a

Age None

Gender None

Race None

Overall The people in the expanded universe who were added to the data this year were less likely to have an SMI/SED diagnosis, as they were served in the free standing clinics.

Table 14b

Age None

Gender None

Race None

Overall The people in the expanded universe who were added to the data this year were less likely to have an SMI/SED diagnosis, as they were served in the free standing clinics.

**Access Domain: Adults with SMI and Children with SED Served in Community Mental Health Programs by Age and Gender, FY 2021**

**Note:**

US totals are based on states reporting.

This table uses data from URS Table 15.

US totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

**State Notes:**

DBH did not have living situation data for the new population included in reporting this year, which led to higher Not Available numbers.

What populations are reported? All Clients Number of States Reporting All Clients: 35 Number of States Reporting Some Clients: 15

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
DC	-	-	-	Yes	-
US	37	23	4	9	20

## Note:

\*In Labor Force is the sum of consumers employed and unemployed.

\*\*With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

## State Notes:

Age None

Gender None

Overall DBH did not have employment data for the new population included in reporting this year, which led to higher Not Available numbers.

# Outcomes Domain: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2021

District of Columbia

District of Columbia did not report any data to populate the table

## District of Columbia

URS Table Number	General Notes
12	DBH expanded its process for identifying people with co-occurring disorders, so the percentage increased
10	DC did not have providers/agencies that directly received MGBH funds in FY20
3	Due to the public health emergency, there were fewer court-ordered admissions to the state psychiatric hospital
4	Data quality improvement
6	Total Admissions to State Hospital During the Year-Due to the public health emergency, there were fewer court-ordered admissions to the state psychiatric hospital Total Number of Consumers Served in Community Programs at the beginning of the year- DC had an steady increase in MH consumers from FY20 into FY21 Total Number of Consumers Served in Other Psychiatric Inpatient Settings at the beginning of the year- Data quality improvement Average LOS of adults discharged from State Hospitals- Many people with a long length of stay were discharged in FY20 due to the public health emergency, so the average LOS in FY21 was lower
7	Absence of Federal grants that ended in FY20
8	The difference will be made up in Year 2 of the MHBG
12	DC changed back to using a MH consumer's entire SUD history to determine whether or not they had a co-occurring SUD, rather than just looking for an SUD service during the same FY
14A	Total number of American Indian/Alaska Native consumers with SMI/SED- Change was for a low n Total number of Asian consumers with SMI/SED- Change was for a low n Total number of White consumers with SMI/SED- Total consumers increased, so the number who are white also increased
15	Total number of consumers living in Private Residence- Data quality improvement efforts allowed a more accurate count of people living in private residences. Total number of consumers in Jail/Correctional Facility- DBH receives self-report living situation data from providers, and we continue to work with them on using the template correctly Total number of consumers Homeless/Shelter- DBH receives self-report living situation data from providers, and we continue to work with them on using the template correctly
16	Total number of consumers receiving Supported Employment services- Supported Employment was expanded as part of DC's 1115 Waiver, and as a result, utilization increased- Total number of consumers receiving Family Functional Therapy services- Very low n Total number of Children with SED- DBH continues to work on improving the quality of our diagnosis data

## **Errata Sheet to 2021 URS Output Tables**

This page includes clarifications and corrections to 2021 URS Output Tables.

### **APPROPRIATENESS DOMAIN: Living Situation of Consumers Service by State Mental Health Agency Systems, FY2021**

The table counts and percentages have been updated due to a processing error in the “Not Available” category.

### **APPROPRIATENESS DOMAIN: Adults with SMI and Children with SED Receiving Evidence-Based Services for First Episode Psychosis (FEP), 2021**

The table counts and percentages have been updated in “CSC-FEP Fidelity and Training State” and “Clients Served by Programs With and Without CSC-FEP Fidelity” due to a processing error in counting several fidelity programs.
