

2021 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2021 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2021: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2021, 8,195,517 clients received SMHA services from 59 states. This is an increase from 8,013,396 SMHA clients in 2020. There were 5,789,234 adults (or 17.3 per 1,000), 2,175,848 children (or 29.9 per 1,000) served. About 9,311 (0.1 percent) clients were missing age data.
- Among SMHA clients, there were 4,342,545 (53.0 percent) females served while there were 3,806,666 (46.4 percent) males served. In 21 states and U.S. territories, more SMHA males were served than females. While in 38 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 32.9 percent, followed by ages 45-64 with 23.6 percent, children ages 0-12 with 14.8 percent, and children ages 13-17 with 12.1 percent.
- The highest percentage of SMHA clients that were served was among the White population with 58.1 percent, followed by Black or African Americans with 17.9 percent, and only 15.7 percent for Hispanics.

Rhode Island 2021 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States

Family Functional Therapy	-	-	28,506	1,313,733	-	5.1%	-	7	14

Note:

US totals are based on states reporting.

This table uses data from URS Tables 16 and 17.

US averages are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Table 16: DCYF is the state authority for children's mental health. Currently, they do not collect data on children with SED. This is something they are working on tracking in the future.

Table 17: None

Appropriateness Domain: Adults with SMI and Children with SED Receiving Evidence-Based Services for First Episode Psychosis (FEP), 2021

Rhode Island

Reporting Period: 7/1/2020 To: 6/30/2021

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
RI	Yes	-	-	-	semi-annual
US	37	23	4	9	20

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Rhode Island

URS Table Number	General Notes
5A	This is due to the fact that fewer providers reported multiple insurance types. When combining the Medicaid only and People Served in both Medicaid and Non-Medicaid, the categories are comparable across the two years. We are not aware of anything else driving this change, and expect the overall Medicaid number to remain consistent.
6	Small number of discharges overall, and comparing mean and median, mean is driven upward by very large outliers (i.e. an individual being discharged after 20 years) Small number of discharges, only one month difference in average LOS. No other notable reason for this decrease.
7	I believe this is an issue with the total formula. We did report \$22.4m for state hospital in SFY21. Increase due to changes in fiscal department had some invoices from previous fiscal year post to current year. This is related to the hospital billing pause in FY20. The hospital resumed billing for the entirety of FY21. This increase is also less drastic once the SFY20 hospital issue is corrected to be \$15,490,793.87 (rather than \$8,893,945.40) Decrease this year due to one time funding from previous year. Change in state's cost allocation plan reduced amount of administrative funds charged to general revenue. Issues around contracting resulted in deceased expenditures. GPO has been notified. As noted in general comments: Need to resubmit State Hospital Medicaid FY20 data. There is still a major drop between FY19 and FY20 due to billing pause for a period, but some claims were submitted extremely late. The corrected number for State Hospital Medicaid dollars for SFY20 is \$15,490,793.87 since the hospital resumed billing. Increase in total expenditure is due to combined effects of changes in state's cost allocation plan, disruptions in hospital billing, one time funding in previous years, and contracting issues.
7A	Increase due to adjustment in funding in matrix in FY21.
8	Increases in funding direction for research and evaluation and training programs in FY21.
16	COVID-19 is the most likely reason for this decrease.
20A	Small n, one readmission compared to 0.

Errata Sheet to 2021 URS Output Tables

This page includes clarifications and corrections to 2021 URS Output Tables.

APPROPRIATENESS DOMAIN: Living Situation of Consumers Service by State Mental Health Agency Systems, FY2021

The table counts and percentages have been updated due to a processing error in the “Not Available” category.

APPROPRIATENESS DOMAIN: Adults with SMI and Children with SED Receiving Evidence-Based Services for First Episode Psychosis (FEP), 2021

The table counts and percentages have been updated in “CSC-FEP Fidelity and Training State” and “Clients Served by Programs With and Without CSC-FEP Fidelity” due to a processing error in counting several fidelity programs.
