

2021 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2021 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2021: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2021, 8,195,517 clients received SMHA services from 59 states. This is an increase from 8,013,396 SMHA clients in 2020. There were 5,789,234 adults (or 17.3 per 1,000), 2,175,848 children (or 29.9 per 1,000) served. About 9,311 (0.1 percent) clients were missing age data.
- Among SMHA clients, there were 4,342,545 (53.0 percent) females served while there were 3,806,666 (46.4 percent) males served. In 21 states and U.S. territories, more SMHA males were served than females. While in 38 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 32.9 percent, followed by ages 45-64 with 23.6 percent, children ages 0-12 with 14.8 percent, and children ages 13-17 with 12.1 percent.
- The highest percentage of SMHA clients that were served was among the White population with 58.1 percent, followed by Black or African Americans with 17.9 percent, and only 15.7 percent for Hispanics.

North Carolina 2021 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,195,517	9.46	24.59	59
Community Utilization per 1,000 population	7,974,393	7.97	23.93	59

Note:

This table uses data from URS Table 14a, Table 14b and from the US Census Bureau. All denominators use US Census data from 2020

US totals are calculated uniquely for each data element based on only those states who reported clients served.

Regional groupings are based on SAMHSA's Block Grant Regions.

Note:

Admission Rate= number of admissions divided by total served during the year

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Table 3 and 6.

What populations are reported? All Clients Number of States Reporting All Clients: 35 Number of States Reporting Some Clients: 15

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
NC	Yes	Yes	-	-	-
US	37	23	4	9	20

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumer employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

North Carolina

URS Table Number	General Notes
5A	<p>In Regards to comparing Table 5A to 2A - The unduplicated count for our first submission in December was 100,320. After we submitted more data, we received an updated unduplicated file from NRI. It totaled 101,155. It appears that you are comparing 5A to the previous submission values. We could resubmit Table 5A with what we submitted in December, and that should remove these questions. However, we feel that NRI should have recreated Table 2A and 2B based on the latest data that was submitted to them.</p> <p>In Regards to the Total number of consumers with both Medicaid and Non-Medicaid Funding decreasing 54% compared to FY2020 - There has been a concerted effort to properly categorize clients by most appropriate funding source. The hierarchy is Medicaid first, State funded category next. Clients not categorized as either priority Medicaid or priority State Funded would fall into this smallest categorization. This decrease is due to this payor categorization hierarchy.</p>
6	<p>In Regards to the Total Number of Consumers Served in Other Psychiatric Inpatient Settings at the beginning of the year increasing by 18% when compared to FY2020 - There is an effort to treat more inpatient clients in a setting other than the State Psychiatric Hospitals. There is additional funding and contracts to serve clients who need inpatient services but can be served in a 'Other Psychiatric Inpatient Setting'. The total number of consumers served in Other Psychiatric Inpatients Settings reflects this policy and service funding increase.</p>
7	<p>The total expenditures are inclusive of various activities from different sources. The State Hospital data was reported incorrectly due to an error identified in the formula. See revised table attached. Justification for total Administration Expenditures – these expenditures are cost allocated. Cost is based on staffing status changes.</p>
7A	<p>In Regards to the Total CSC-Evidence-Based Practices for First Episode Psychosis Expenditures increasing 56% when compared to FY2020 - Total CSC-Evidence-Based Practices for First Episode Psychosis - percentage change is due to increase in additional Federal and State Funding allocated to support MH services.</p> <p>In Regards to Total CSC-Evidence-Based Practices for First Episode Psychosis Expenditures increasing 56% when compared to FY2020 - Intentional implementation and fidelity monitoring of Evidence-Based Community-based services and supports.</p>
14A	<p>In Regards to the Total number of Native Hawaiian/Other Pacific Islander consumers with SMI/SED increasing 18% when compared to FY2020 - Very small n impacted the percent change.</p> <p>In Regards to the Total number of multi-racial consumers with SMI/SED decreasing 23% when compared to FY2020 - This is a self-report category, and they may be some reluctance to use this category. Additionally, this racial group may have been impacted more during the Covid pandemic by access to services via Telehealth.</p>
16	<p>Therapeutic Foster Treatment – NC's child welfare system is working in collaboration with state and community partners and providers to implement evidence based services and supports, including the need to increase TFC homes/access. DSS is seeking to expand TFC in response to the Family First Prevention Services Act which limits funding for children in congregate care. Challenges include provider capacity (recruitment, training, support, sustain) and service rates, services via telehealth, slowed court processes and access to DSS staff support to TFC families/children and youth and systems partners related to impact of COVID-19 pandemic. DHHS is establishing a child welfare priority population under Medicaid Transformation managed care benefit plans. TFC policy modifications and practice models may be considered to better serve children with SED in need. DHHS is focused on increased intentional cross-agency address of barriers and challenges and implementation of rapid response team to facilitate children involved in DSS improved access to appropriate timely treatment services.</p> <p>In Regards to the Total number of consumers receiving MST services increasing 21% compared to FY2020 - Intentional implementation and fidelity monitoring of Evidence-Based Community-based services and supports.</p> <p>In Regards to the Total number of Children with SED decreasing by 20% when compared to FY2020 - Reflects challenges that include provider capacity and service rates pre-Covid to present, access to services via telehealth, and impact of the COVID-19 pandemic.</p>

Errata Sheet to 2021 URS Output Tables

This page includes clarifications and corrections to 2021 URS Output Tables.

APPROPRIATENESS DOMAIN: Living Situation of Consumers Service by State Mental Health Agency Systems, FY2021

The table counts and percentages have been updated due to a processing error in the “Not Available” category.

APPROPRIATENESS DOMAIN: Adults with SMI and Children with SED Receiving Evidence-Based Services for First Episode Psychosis (FEP), 2021

The table counts and percentages have been updated in “CSC-FEP Fidelity and Training State” and “Clients Served by Programs With and Without CSC-FEP Fidelity” due to a processing error in counting several fidelity programs.
