2022 N-SUMHSS State Profiles Executive Summary

For more than two decades, the Substance Abuse and Mental Health Services Administration (SAMHSA) has been collecting data on the substance use and mental health services offered by treatment facilities across the United States using two surveys, the National Survey of Substance Abuse Treatment Services (N-SSATS) and the National Mental Health Services Survey (N-MHSS). In 2021, the N-SSATS and N-MHSS were combined into one survey, the National Substance Use and Mental Health Services Survey (N-SUMHSS). The N-SUMHSS collects data on the location, characteristics, service provision and utilization of substance use and mental health treatment facilities in the United States. The N-SUMHSS State Profiles present findings from the 2022 N-SUMHSS annual report that is publicly available at

<https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

Each state profile provides facility, service, and client information for substance use and mental health services, including facility operation, service settings, clients in treatment and characteristics, facility capacity and utilization rate, type of care, facility type, facility licensing, certification, or accreditation, facility funding, payment options, services offered, treatment approaches, language support services, specifically tailored programs or groups, and a geographic representation of facility locations in the state and jurisdictions. State-level highlights are below.

Substance Use Services:

- Five states with the largest number of substance use treatment facilities are California (N=1,525), New York (N=826), Florida (N=681), Ohio (N=649), and Illinois (N=628). California accounted for 10 percent of all substance use treatment facilities in the United States, followed by New York at 6 percent. New York and California served a combined 13 percent of all clients in the United States.
- Missouri and Hawaii had the highest percentage of substance use treatment facilities operated by private non-profit organizations (more than 80 percent).
- Over 90 percent of substance use treatment facilities in Idaho, Connecticut, Nebraska, Nevada, Wyoming, Delaware, Alaska, Utah, West Virginia, Iowa, Montana, and Mississippi provided screening for mental health disorders.
- More than 80 percent of substance use treatment facilities in Wyoming, New Hampshire, Montana, Vermont, West Virginia, the District of Columbia, Ohio, Maine, Oregon, and Idaho provided telemedicine/telehealth therapy for opioid use disorder. More than 85 percent of facilities in Wyoming, U.S. Territories, and Idaho provided telemedicine/telehealth therapy for other substance use disorders.
- The District of Columbia had the highest percentage of substance use treatment facilities offering a specifically tailored program for lesbian, gay, bisexual, transgender, or queer/questioning (LGBTQ) clients at 61 percent, compared to the national average of 33 percent.
- Approximately 54 percent of substance use treatment facilities provided services in any language other than English at the national level. Less than 40 percent of substance use treatment facilities in Montana, Minnesota, North Dakota, Idaho, U.S. Territories, Louisiana, and Maryland provided services in non-English language.
- Medication-assisted treatment (MAT) for opioid use disorder was provided at 2,072 substance use treatment facilities with opioid treatment programs (OTPs). California and New York reported the highest percentage of facilities with OTPs providing three forms of MAT (methadone, buprenorphine, and naltrexone) (9 and 8 percent, respectively).
- Of all clients receiving MAT at facilities with OTPs, New York had the highest percentage of clients receiving methadone, Ohio had the highest percentage of clients receiving buprenorphine and naltrexone had the highest percentage of clients receiving for opioid treatment.

Mental Health Services:

- California (N=817) and New York (N=596) had the largest numbers of mental health treatment facilities, followed by Ohio (N=536) and Pennsylvania (N=429). These four states accounted for 25 percent of all mental health treatment facilities that responded to the survey in 2022.
- Fifteen states (Indiana, Arkansas, Colorado, Nebraska, Montana, Missouri, Louisiana, Pennsylvania, California, New Jersey, New York, Utah, Wisconsin, Alabama, and Kentucky) and Puerto Rico had an inpatient bed utilization rate greater than 100 percent, indicating the number of clients receiving mental health treatment services is more than the number of designated beds available in inpatient settings.
- Eight five or more percent of the mental health treatment facilities in 12 states (Idaho, Hawaii, Oklahoma, Missouri, Montana, Ohio, New Mexico, South Carolina, Wyoming, Alaska, Georgia, and Nevada) and the District of Columbia provided telemedicine/telehealth therapy, compared to the national average of 78 percent.
- Less than 20 percent of mental health treatment facilities in 10 states (California, North Carolina, Hawaii, New York, New Jersey, Georgia, Rhode Island, Connecticut, Louisiana, and Maryland), the District of Columbia, and Puerto Rico accepted clients of all ages, compared to the national average of 26 percent.
- More than 75 percent of mental health treatment facilities offered treatment services in sign language for the deaf and hard-of-hearing in 6 states (South Carolina, Hawaii, Michigan, Indiana, Alabama, and New Mexico), compared to the national average of 61 percent.
- Medicaid was accepted by 95 percent or more of mental health treatment facilities in 14 states (North Dakota, Wyoming, Maine, South Carolina, New Mexico, Montana, Kansas, Nebraska, West Virginia, New York, Oklahoma, Oregon, and Arkansas). The national percentage of facilities that accepted Medicaid was 88 percent.

2022 Substance Use Treatment Services State Profile—United States

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS report included 14,854 substance use treatment facilities and reported a total of 1,623,647 clients in substance use treatment on March 31, 2022. The survey response rate was 86.8 percent overall.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	6,311	42.5	699,345	43.1	23,627	23.8
Private non-profit organization	7,170	48.3	770,253	47.4	66,050	66.5
State government	297	2.0	26,132	1.6	1,505	1.5
Local, county, or community government	598	4.0	64,343	4.0	7,177	7.2
Tribal government	210	1.4	11,254	0.7	818	0.8
Federal government	252	1.7	51,316	3.2	75	0.1
Total	14,854	100.0	1,623,647	100.0	99,254	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	9,037	82.6	529,909	33.4	159	492,360	33.1	189
Only alcohol	7,757	70.9	237,406	15.0	71	217,361	14.6	83
Only substances other than alcohol	9,047	82.7	820,334	51.7	246	778,552	52.3	298
Total	10,798		1,587,649	100.0	476	1,488,273	100.0	571

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	2,721	732
Number of clients ²	78,835	28,483
Number of designated beds	88,383	22,700
Utilization rate ³	89.2	125.5
Average number of designated beds per facility	32	31

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Type of Care

	Clients in treatment on March 31, 2022							
	Facilities		All Clients				Clients under the age of 18 years	
			Median number of clients ¹					
	N	%	N	%	OTP facility ²	Non-OTP facility	N	%
Outpatient	12,308	82.9	1,509,934	93.0	230	36	95,479	96.2
Detoxification	1,700	11.4	10,570	0.7	—	—

Day treatment or partial hospitalization	2,092	14.1	26,228	1.6	—	—		
Intensive	6,508	43.8	106,315	6.5	—	—		
Regular	11,434	77.0	748,996	46.1	—	18		
Residential (non-hospital)	3,587	24.1	81,239	5.0	18	14	3,003	3.0
Detoxification	1,306	8.8	7,645	0.5	—	—		
Short term (≤ 30 days)	2,346	15.8	32,723	2.0	7	—		
Long term (> 30 days)	2,700	18.2	40,871	2.5	—	6		
Hospital inpatient	1,111	7.5	32,474	2.0	13	10	772	0.8
Detoxification	707	4.8	11,987	0.7	5	—		
Treatment	760	5.1	20,487	1.3	3	6		
Total	14,854		1,623,647	100.0	210	33	99,254	100.0

Note: Facilities may provide more than one type of care.

¹Median number of clients was calculated using the unrolled client counts for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

²OTP=Federally certified Opioid Treatment Program.

Facility Licensing, Certification, or Accreditation

	N	%
Any listed agency/organization	14,063	94.7
State substance use treatment agency	10,881	73.3
State mental health department	5,555	37.4
State department of health	7,041	47.4
Hospital licensing authority	534	3.6
The Joint Commission	3,587	24.1
Commission on Accreditation of Rehabilitation Facilities (CARF)	4,875	32.8
National Committee for Quality Assurance (NCQA)	310	2.1
Council on Accreditation (COA)	581	3.9
Healthcare Facilities Accreditation Program (HFAP)	116	0.8
SAMHSA certification for Opioid Treatment Program (OTP)	1,977	13.3
Drug Enforcement Agency (DEA)	2,072	13.9
Other national organization or federal, state, or local agency	1,288	8.7
Not licensed, certified, or accredited	519	3.5

Note: Facilities may be licensed, certified, or accredited by more than one agency/organization.

Facility Funding

	Facilities	
	N	%
Receives any funding or grants from the Federal Government, or state, county, or local governments, to support its substance use programs	7,346	49.5

Facility Payment Options

	N	%
No payment accepted (free treatment for all clients)	286	1.9
Cash or self-payment	13,338	89.8
Medicare	6,857	46.2
Medicaid	11,021	74.2
State-financed health insurance plan other than Medicaid	7,358	49.5
Federal military insurance (such as TRICARE)	5,986	40.3
Private health insurance	11,150	75.1
SAMHSA funding/block grants	3,509	23.6
IHS/Tribal/Urban (ITU) funds	1,749	11.8
Other	973	6.6
Sliding fee scale	8,752	58.9
Treatment at no charge or minimal payment for clients who cannot pay	6,832	46.0

Note: Facilities may accept more than one type of payment.

Types of Services Offered		
	Facilities	
	N	%
Assessment and pre-treatment services		
Screening for substance use	14,402	97.0
Screening for mental disorders	12,125	81.6
Comprehensive substance use assessment or diagnosis	14,067	94.7
Comprehensive mental health assessment or diagnosis	8,942	60.2
Complete medical history and physical exam performed by a healthcare practitioner	5,913	39.8
Screening for tobacco use	11,858	79.8
Outreach to persons in the community who may need treatment	10,194	68.6
Interim services for clients when immediate admission is not possible	7,521	50.6
Professional interventionist/educational consultant	4,183	28.2
None of the assessment and pre-treatment services above are offered	51	0.3
Testing		
Drug and alcohol oral fluid testing	5,942	40.0
Breathalyzer or other blood alcohol testing	9,210	62.0
Drug or alcohol urine screening	13,024	87.7
Testing for hepatitis B (HBV)	4,307	29.0
Testing for hepatitis C (HCV)	4,911	33.1
HIV testing	5,016	33.8
STD testing	4,225	28.4
TB screening	6,676	44.9
Testing for metabolic syndrome	3,226	21.7
None of these testing services above are offered	951	6.4
Medical services		
Hepatitis A (HAV) vaccination	1,724	11.6
Hepatitis B (HBV) vaccination	1,744	11.7
None of the medical services above are offered	10,542	71.0
Transitional services		
Discharge planning	14,026	94.4
Aftercare/continuing care	12,844	86.5
Naloxone and overdose education	10,701	72.0
Outcome follow-up after discharge	10,687	71.9
None of the transitional services above are offered	165	1.1
Recovery support services		
Mentoring/peer support	9,883	66.5
Self-help groups (for example, AA, NA, SMART Recovery)	7,024	47.3
Assistance in locating housing for clients	10,013	67.4
Employment counseling or training for clients	6,859	46.2
Assistance with obtaining social services (for example, Medicaid, WIC, SSI, SSDI)	10,834	72.9
Recovery coach	5,128	34.5
None of the recovery support services above are offered	1,143	7.7
Education and counseling services		
HIV or AIDS education, counseling, or support	9,196	61.9
Hepatitis education, counseling, or support	8,499	57.2
Health education other than HIV/AIDS or hepatitis	9,080	61.1
Substance use disorder education	14,364	96.7
Smoking/ tobacco cessation counseling	10,007	67.4
Individual counseling	14,179	95.5

2022 Mental Health Services State Profile—United States

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS report included 9,586 mental health treatment facilities and reported a total of 1,798,357 clients in mental health treatment on March 31, 2022. The survey response rate was 72.1 percent overall.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	1,834	19.1
Private non-profit organization	5,966	62.2
State government	605	6.3
Local, county, or community government	721	7.5
Tribal government	27	0.3
Federal government	418	4.4
Total	9,586	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	1,305	13.6	93,887	5.2
24-hour residential	1,713	17.9	29,133	1.6
Partial hospitalization/day treatment	1,395	14.6	9,653	0.5
Outpatient	7,785	81.2	1,675,337	93.2
Total			1,798,357	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	1,139	1,055
Number of clients ²	27,736	93,156
Number of designated beds	33,660	61,346
Utilization rate ³	82.4	151.9
Average number of designated beds per facility	30	58

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%
Psychiatric hospital	448	4.7
Separate inpatient psychiatric unit of a general hospital	618	6.4
State hospital	33	0.3
Residential treatment center for children	448	4.7
Residential treatment center for adults	699	7.3
Other type of residential treatment facility	75	0.8
Veterans Affairs Medical Center (VAMC) or other VA healthcare facility	393	4.1
Community Mental Health Center (CMHC)	1,835	19.1
Certified Community Behavioral Health Clinic (CCBHC)	481	5.0
Partial hospitalization/day treatment facility	334	3.5
Outpatient mental health facility	3,516	36.7
Multi-setting mental health facility	298	3.1
Other	393	4.1
Total	9,586	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Facility Licensing, Certification, or Accreditation		
	N	%
Any listed agency/organization	9,409	98.2

State substance use treatment agency	3,102	32.4
State department of health	4,619	48.2
State or local Department of Family and Children's Services	1,696	17.7
Hospital licensing authority	1,082	11.3
The Joint Commission	3,441	35.9
Commission on Accreditation of Rehabilitation Facilities (CARF)	2,438	25.4
Council on Accreditation (COA)	962	10.0
Centers for Medicare and Medicaid Services (CMS)	4,411	46.0
Other national organization or federal, state, or local agency	864	9.0
No licensing, certification, or accreditation	101	1.1

Note: Facilities may be licensed by more than one agency/organization.

Facility Payment Options

	N	%
Cash or self-payment	7,950	82.9
Private health insurance	7,710	80.4
Medicare	6,450	67.3
Medicaid	8,426	87.9
State-financed health insurance plan other than Medicaid	5,335	55.7
State mental health agency (or equivalent) funds	4,725	49.3
State welfare or child and family services agency funds	3,414	35.6
State corrections or juvenile justice agency funds	2,357	24.6
State education agency funds	1,350	14.1
Other state government funds	3,121	32.6
County or local government funds	3,980	41.5
Community Service Block Grants	1,905	19.9
Community Mental Health Block Grants	3,015	31.5
Federal grants	490	5.1
Federal military insurance	4,425	46.2
U.S. Department of Veterans Affairs funds	2,022	21.1
IHS/Tribal/Urban (ITU) funds	802	8.4
Private or community foundation funds	622	6.5
Other	276	2.9

Note: Facilities may accept more than one type of payment.

Treatment Approaches

	Facilities	
	N	%
Individual psychotherapy	8,800	91.8
Couples/family therapy	6,939	72.4
Group therapy	8,200	85.5
Cognitive behavioral therapy	8,623	90.0
Dialectical behavior therapy	5,791	60.4
Cognitive remediation therapy	364	3.8
Integrated mental and substance use disorder treatment	5,935	61.9
Activity therapy	4,524	47.2
Electroconvulsive therapy	302	3.2
Transcranial Magnetic Stimulation (TMS)	154	1.6
Ketamine Infusion Therapy (KIT)	84	0.9
Eye movement desensitization and reprocessing (EMDR) therapy	1,660	17.3
Telemedicine/telehealth therapy	7,447	77.7
Abnormal Involuntary Movement Scale (AIMS) Test	2,732	28.5
Other	1,007	10.5
None of these mental health treatment approaches are offered	111	1.2

Note: Facilities may be licensed by more than one type of treatment approach.

Crisis Intervention Team

	N	%
Within facility and/or offsite	4,394	45.8
No crisis intervention team	5,158	53.8

Note: Percentages may not sum to 100 percent due to the facilities not responding to the question.

Services in Sign Language for the Deaf and Hard-of-Hearing and in Languages Other than English

	N	%
Sign language	5,864	61.2
Any language other than English	6,981	72.8

Languages provided by staff counselor¹

Spanish	2,664	27.8
American Indian/Alaska Native languages	35	0.4
All other languages	817	8.5

¹Numbers and percentages are based on facilities that provide language services through a staff counselor, either exclusively or in conjunction with on-call interpreters.

Supportive Services and Practices

	N	%
Assertive community treatment (ACT)	1,498	15.6

2022 Substance Use Treatment Services State Profile—Alabama

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Alabama included 143 substance use treatment facilities and reported 19,628 clients in substance use treatment on March 31, 2022. The survey response rate in Alabama was 87.7 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	57	39.9	10,672	54.4	178	7.7
Private non-profit organization	77	53.8	5,074	25.9	905	39.3

2022 Mental Health Services State Profile—Alabama

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Alabama included 130 mental health treatment facilities and reported 9,383 clients in mental health treatment on March 31, 2022. The survey response rate in Alabama was 72.1 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	17	13.1
Private non-profit organization	100	76.9
State government	3	2.3
Local, county, or community government	5	3.8
Tribal government	—	—
Federal government	5	3.8
Total	130	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	28	21.5	873	9.3
24-hour residential	32	24.6	501	5.3
Partial hospitalization/day treatment	31	23.8	32	0.3
Outpatient	93	71.5	8,009	85.4
Total			9,383	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	22	22
Number of clients ²	481	873
Number of designated beds	542	649
Utilization rate ³	88.7	134.5
Average number of designated beds per facility	25	30

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Alaska

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Alaska included 83 substance use treatment facilities and reported 3,477 clients in substance use treatment on March 31, 2022. The survey response rate in Alaska was 82.2 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	8	9.6	652	18.8	—	—
Private non-profit organization	60	72.3	2,549	73.3	167	94.9
State government	—	—	—	—	—	—
Local, county, or community government	4	4.8	50	1.4	3	1.7
Tribal government	10	12.0	196	5.6	6	3.4
Federal government	1	1.2	30	0.9	—	—
Total	83	100.0	3,477	100.0	176	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	49	72.1	1,124	36.2	153	1,076	36.8	193
Only alcohol	47	69.1	574	18.5	78	518	17.7	93
Only substances other than alcohol	45	66.2	1,405	45.3	192	1,329	45.5	239
Total	60		3,103	100.0	423	2,923	100.0	525

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	18	4
Number of clients ²	212	27
Number of designated beds	332	56
Utilization rate ³	63.9	48.2
Average number of designated beds per facility	18	14

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Alaska

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Alaska included 80 mental health treatment facilities and reported 4,020 clients in mental health treatment on March 31, 2022. The survey response rate in Alaska was 78.4 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	4	5.0
Private non-profit organization	59	73.8
State government	1	1.3
Local, county, or community government	5	6.3
Tribal government	9	11.3
Federal government	2	2.5
Total	80	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	5	6.3	131	3.3
24-hour residential	21	26.3	224	5.6
Partial hospitalization/day treatment	5	6.3	20	0.5
Outpatient	58	72.5	3,665	91.2
Total			4,020	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	16	4
Number of clients ²	185	131
Number of designated beds	293	172
Utilization rate ³	63.1	76.2
Average number of designated beds per facility	18	43

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%

2022 Substance Use Treatment Services State Profile—Arizona

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Arizona included 441 substance use treatment facilities and reported 81,297 clients in substance use treatment on March 31, 2022. The survey response rate in Arizona was 87.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	222	50.3	29,217	35.9	2,879	21.6

Total	317		80,946	100.0	1,100	67,894	100.0	1,177

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	79	21
Number of clients ²	2,148	808
Number of designated beds	2,283	978
Utilization rate ³	94.1	82.6
Average number of designated beds per facility	29	47

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Type of Care

	Clients in treatment on March 31, 2022							
	Facilities		All Clients				Clients under the age of 18 years	
			Median number of clients ¹

2022 Mental Health Services State Profile—Arizona

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Arizona included 349 mental health treatment facilities and reported 60,820 clients in mental health treatment on March 31, 2022. The survey response rate in Arizona was 76.6 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	104	29.8
Private non-profit organization	234	67.0
State government	3	0.9
Local, county, or community government	3	0.9
Tribal government	1	0.3
Federal government	4	1.1
Total	349	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	35	10.0	1,408	2.3
24-hour residential	81	23.2	944	1.6
Partial hospitalization/day treatment	24	6.9	62	0.1
Outpatient	263	75.4	58,468	96.1
Total			60,820	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	49	26
Number of clients ²	845	1,379
Number of designated beds	910	1,591
Utilization rate ³	92.9	86.7
Average number of designated beds per facility	19	61

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Arkansas

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Arkansas included 138 substance use treatment facilities and reported 12,159 clients in substance use treatment on March 31, 2022. The survey response rate in Arkansas was 81.8 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	54	39.1	6,823	56.1	551	62.8
Private non-profit organization	82	59.4	5,134	42.2	326	37.2
State government	2	1.4	202	1.7	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	—	—	—	—	—	—
Federal government	—	—	—	—	—	—
Total	138	100.0	12,159	100.0	877	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	52	74.3	3,426	30.9	112	3,239	30.2	138
Only alcohol	42	60.0	985	8.9	32	917	8.6	39
Only substances other than alcohol	63	90.0	6,661	60.2	219	6,553	61.2	279
Total	70		11,072	100.0	364	10,709	100.0	456

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	14	5
Number of clients ²	595	555
Number of designated beds	397	125
Utilization rate ³	149.9	444.0
Average number of designated beds per facility	28	25

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Type of Care

	Clients in treatment on March 31, 2022							
	Facilities		All Clients				Clients under the age of 18 years	
			Median number of clients ¹					
	N	%	N	%	OTP facility ²	Non-OTP facility	N	%

2022 Mental Health Services State Profile—Arkansas

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Arkansas included 140 mental health treatment facilities and reported 27,916 clients in mental health treatment on March 31, 2022. The survey response rate in Arkansas was 72.3 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	43	30.7
Private non-profit organization	89	63.6
State government	2	1.4
Local, county, or community government	2	1.4
Tribal government	—	—
Federal government	4	2.9
Total	140	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	26	18.6	5,319	19.1
24-hour residential	28	20.0	770	2.8
Partial hospitalization/day treatment	40	28.6	171	0.6
Outpatient	121	86.4	21,827	78.2
Total			27,916	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	24	23
Number of clients ²	770	5,319
Number of designated beds	841	1,121
Utilization rate ³	91.6	474.5
Average number of designated beds per facility	35	49

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—California

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, California included 1,525 substance use treatment facilities and reported 90,992 clients in substance use treatment on March 31, 2022. The survey response rate in California was 85.8 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	671	44.0	44,259	48.6	619	23.7
Private non-profit organization	678	44.5	34,160	37.5	1,372	52.6
State government	8	0.5	304	0.3	162	6.2
Local, county, or community government	118	7.7	7,843	8.6	426	16.3
Tribal government	24	1.6	482	0.5	20	0.8
Federal government	26	1.7	3,944	4.3	11	0.4
Total	1,525	100.0	90,992	100.0	2,610	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	935	83.7	24,901	29.1	64	23,850	28.7	78
Only alcohol	775	69.4	13,695	16.0	35	13,307	16.0	44
Only substances other than alcohol	898	80.4	46,868	54.8	120	45,915	55.3	150
Total	1,111		85,464	100.0	219	83,072	100.0	272

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	500	96
Number of clients ²	9,778	1,604
Number of designated beds	11,312	1,668
Utilization rate ³	86.4	96.2
Average number of designated beds per facility	23	17

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—California

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, California included 817 mental health treatment facilities and reported 121,725 clients in mental health treatment on March 31, 2022. The survey response rate in California was 70.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	216	26.4
Private non-profit organization	412	50.4
State government	9	1.1
Local, county, or community government	150	18.4
Tribal government	4	0.5
Federal government	26	3.2
Total	817	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	85	10.4	10,209	8.4
24-hour residential	211	25.8	2,825	2.3
Partial hospitalization/day treatment	130	15.9	589	0.5
Outpatient	636	77.8	108,691	89.3
Total			121,725	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	132	70
Number of clients ²	2,794	10,207
Number of designated beds	3,759	5,703
Utilization rate ³	74.3	179.0
Average number of designated beds per facility	28	81

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Colorado

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Colorado included 323 substance use treatment facilities and reported 31,302 clients in substance use treatment on March 31, 2022. The survey response rate in Colorado was 84.3 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	175	54.2	20,346	65.0	377	34.0
Private non-profit organization	130	40.2	9,845	31.5	693	62.4
State government	7	2.2	791	2.5	40	3.6
Local, county, or community government	2	0.6	63	0.2	—	—
Tribal government	—	—	—	—	—	—
Federal government	4	1.2	257	0.8	—	—
Total	323	100.0	31,302	100.0	1,110	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	197	87.9	11,154	36.5	191	10,889	36.8	235
Only alcohol	177	79.0	8,026	26.3	137	7,612	25.7	165
Only substances other than alcohol	185	82.6	11,386	37.3	195	11,061	37.4	239
Total	223		30,566	100.0	523	29,562	100.0	639

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	43	12
Number of clients ²	984	300
Number of designated beds	1,276	402
Utilization rate ³	77.1	74.6
Average number of designated beds per facility	30	34

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Colorado

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Colorado included 150 mental health treatment facilities and reported 22,185 clients in mental health treatment on March 31, 2022. The survey response rate in Colorado was 69.3 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	12	8.0
Private non-profit organization	126	84.0
State government	2	1.3
Local, county, or community government	1	0.7
Tribal government	—	—
Federal government	4	2.7
Total	150	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	14	9.3	4,732	21.3
24-hour residential	29	19.3	328	1.5
Partial hospitalization/day treatment	15	10.0	72	0.3
Outpatient	113	75.3	17,125	77.2
Total			22,185	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	15	12
Number of clients ²	315	4,732
Number of designated beds	348	1,156
Utilization rate ³	90.5	409.3
Average number of designated beds per facility	23	96

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%
Psychiatric hospital	6	4.0
Separate inpatient psychiatric unit of a general hospital	5	3.3

2022 Substance Use Treatment Services State Profile—Connecticut

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Connecticut included 174 substance use treatment facilities and reported 33,411 clients in substance use treatment on March 31, 2022. The survey response rate in Connecticut was 87.1 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	23	13.2	3,908	11.7	1	0.2
Private non-profit organization	139	79.9	27,451	82.2	457	99.6
State government	6	3.4	499	1.5	—	—
Local, county, or community government	1	0.6	18	0.1	—	—
Tribal government	2	1.1	33	0.1	—	—
Federal government	3	1.7	1,502	4.5	1	0.2
Total	174	100.0	33,411	100.0	459	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	128	88.3	12,799	38.3	353	12,512	38.0	432
Only alcohol	113	77.9	2,888	8.7	80	2,832	8.6	98
Only substances other than alcohol	134	92.4	17,693	53.0	488	17,578	53.4	607
Total	145		33,380	100.0	921	32,922	100.0	1,137

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	26	11
Number of clients ²	815	218
Number of designated beds	939	277
Utilization rate ³	86.8	78.7
Average number of designated beds per facility	36	25

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Connecticut

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Connecticut included 173 mental health treatment facilities and reported 32,059 clients in mental health treatment on March 31, 2022. The survey response rate in Connecticut was 73.7 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	21	12.1
Private non-profit organization	135	78.0
State government	14	8.1
Local, county, or community government	1	0.6
Tribal government	—	—
Federal government	2	1.2
Total	173	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	19	11.0	803	2.5
24-hour residential	38	22.0	437	1.4
Partial hospitalization/day treatment	32	18.5	50	0.2
Outpatient	148	85.5	30,819	96.1
Total			32,059	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	23	17
Number of clients ²	424	803
Number of designated beds	483	891
Utilization rate ³	87.8	90.1
Average number of designated beds per facility	21	52

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Delaware

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Delaware included 51 substance use treatment facilities and reported 7,547 clients in substance use treatment on March 31, 2022. The survey response rate in Delaware was 91.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%

2022 Mental Health Services State Profile—Delaware

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Delaware included 34 mental health treatment facilities and reported 5,956 clients in mental health treatment on March 31, 2022. The survey response rate in Delaware was 73.7 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	9	26.5
Private non-profit organization	20	58.8
State government	3	8.8
Local, county, or community government	—	—
Tribal government	—	—
Federal government	2	5.9
Total	34	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	5	14.7	218	3.7
24-hour residential	3	8.8	7	0.1
Partial hospitalization/day treatment	3	8.8	—	—
Outpatient	30	88.2	5,731	96.2
Total			5,956	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	1	3
Number of clients ²	7	218
Number of designated beds	16	252
Utilization rate ³	43.8	86.5
Average number of designated beds per facility	16	84

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—District of Columbia National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, District of Columbia included 28 substance use treatment facilities and reported 3,095 clients in substance use treatment on March 31, 2022. The survey response rate in District of Columbia was 82.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%

2022 Mental Health Services State Profile—District of Columbia

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, District of Columbia included 19 mental health treatment facilities and reported 5,487 clients in mental health treatment on March 31, 2022. The survey response rate in District of Columbia was 54.5 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	—	—
Private non-profit organization	16	84.2
State government	1	5.3
Local, county, or community government	1	5.3
Tribal government	—	—
Federal government	1	5.3
Total	19	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	3	15.8	220	4.0
24-hour residential	—	—	—	—
Partial hospitalization/day treatment	1	5.3	25	0.5
Outpatient	18	94.7	5,267	96.0
Total			5,487	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	—	2
Number of clients ²	—	220
Number of designated beds	—	314
Utilization rate ³	—	70.1
Average number of designated beds per facility	—	157

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Florida

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Florida included 681 substance use treatment facilities and reported 60,358 clients in substance use treatment on March 31, 2022. The survey response rate in Florida was 85.9 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	407	59.8	33,240	55.1	1,911	45.8
Private non-profit organization	249	36.6	22,325	37.0	2,258	54.1
State government	1	0.1	177	0.3	—	—
Local, county, or community government	12	1.8	895	1.5	1	*
Tribal government	—	—	—	—	—	—
Federal government	12	1.8	3,721	6.2	—	—
Total	681	100.0	60,358	100.0	4,170	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	424	85.3	22,052	36.1	99	19,662	34.6	110
Only alcohol	372	74.8	7,917	13.0	36	7,428	13.1	41
Only substances other than alcohol	412	82.9	31,067	50.9	140	29,709	52.3	166
Total	496		61,036	100.0	274	56,799	100.0	316

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	162	66
Number of clients ²	4,766	1,759
Number of designated beds	5,727	2,032
Utilization rate ³	83.2	86.6
Average number of designated beds per facility	35	31

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Florida

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Florida included 370 mental health treatment facilities and reported 60,782 clients in mental health treatment on March 31, 2022. The survey response rate in Florida was 63.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	95	25.7
Private non-profit organization	235	63.5
State government	4	1.1
Local, county, or community government	5	1.4
Tribal government	—	—
Federal government	31	8.4
Total	370	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	75	20.3	4,326	7.1
24-hour residential	83	22.4	2,364	3.9
Partial hospitalization/day treatment	60	16.2	182	0.3
Outpatient	291	78.6	54,092	89.0
Total			60,782	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	57	67
Number of clients ²	2,327	4,321
Number of designated beds	2,335	4,325
Utilization rate ³	99.7	99.9
Average number of designated beds per facility	41	65

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Georgia

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Georgia included 309 substance use treatment facilities and reported 36,539 clients in substance use treatment on March 31, 2022. The survey response rate in Georgia was 85.5 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	155	50.2	19,156	52.4	394	25.7
Private non-profit organization	94	30.4	4,296	11.8	94	6.1
State government	40	12.9	2,068	5.7	60	3.9
Local, county, or community government	13	4.2	3,790	10.4	988	64.3
Tribal government	—	—	—	—	—	—
Federal government	7	2.3	7,229	19.8	—	—
Total	309	100.0	36,539	100.0	1,536	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	172	73.2	11,552	32.2	106	11,010	32.1	131
Only alcohol	128	54.5	6,596	18.4	60	6,319	18.4	75
Only substances other than alcohol	185	78.7	17,681	49.3	162	16,995	49.5	202
Total	235		35,829	100.0	328	34,324	100.0	408

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	56	11
Number of clients ²	1,626	460
Number of designated beds	1,896	226
Utilization rate ³	85.8	203.5
Average number of designated beds per facility	34	21

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Georgia

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Georgia included 180 mental health treatment facilities and reported 35,698 clients in mental health treatment on March 31, 2022. The survey response rate in Georgia was 68.3 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	35	19.4
Private non-profit organization	44	24.4
State government	61	33.9
Local, county, or community government	20	11.1
Tribal government	—	—
Federal government	20	11.1
Total	180	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	28	15.6	942	2.6
24-hour residential	33	18.3	456	1.3
Partial hospitalization/day treatment	29	16.1	368	1.0
Outpatient	158	87.8	34,300	96.1
Total			35,698	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	11	19
Number of clients ²	440	867
Number of designated beds	461	1,140
Utilization rate ³	95.4	76.1
Average number of designated beds per facility	42	60

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Hawaii

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Hawaii included 124 substance use treatment facilities and reported 2,145 clients in substance use treatment on March 31, 2022. The survey response rate in Hawaii was 93.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	18	14.5	378	17.6	—	—
Private non-profit organization	100	80.6	1,597	74.5	203	100.0
State government	3	2.4	15	0.7	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	—	—	—	—	—	—
Federal government	3	2.4	155	7.2	—	—
Total	124	100.0	2,145	100.0	203	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	48	80.0	1,340	61.8	93	1,237	62.9	108
Only alcohol	28	46.7	164	7.6	11	157	8.0	14
Only substances other than alcohol	40	66.7	665	30.7	46	573	29.1	50
Total	60		2,169	100.0	151	1,967	100.0	172

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	9	1
Number of clients ²	193	12
Number of designated beds	128	16
Utilization rate ³	150.8	75.0
Average number of designated beds per facility	14	16

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Hawaii

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Hawaii included 16 mental health treatment facilities and reported 1,002 clients in mental health treatment on March 31, 2022. The survey response rate in Hawaii was 44.1 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	—	—
Private non-profit organization	5	31.3
State government	8	50.0
Local, county, or community government	—	—
Tribal government	—	—
Federal government	2	12.5
Total	16	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	7	43.8	418	41.7
24-hour residential	2	12.5	67	6.7
Partial hospitalization/day treatment	3	18.8	—	—
Outpatient	11	68.8	517	51.6
Total			1,002	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	1	6
Number of clients ²	67	418
Number of designated beds	67	484
Utilization rate ³	100.0	86.4
Average number of designated beds per facility	67	81

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Idaho

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Idaho included 97 substance use treatment facilities and reported 5,999 clients in substance use treatment on March 31, 2022. The survey response rate in Idaho was 75.2 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	73	75.3	4,088	68.1	289	64.7
Private non-profit organization	12	12.4	897	15.0	51	11.4
State government	—	—	—	—	—	—
Local, county, or community government	7	7.2	839	14.0	104	23.3
Tribal government	4	4.1	130	2.2	3	0.7
Federal government	1	1.0	45	0.8	—	—
Total	97	100.0	5,999	100.0	447	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	75	97.4	2,700	44.9	139	2,482	44.6	168
Only alcohol	61	79.2	871	14.5	45	780	14.0	53
Only substances other than alcohol	64	83.1	2,438	40.6	126	2,297	41.3	156
Total	77		6,009	100.0	310	5,559	100.0	377

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	7	2
Number of clients ²	131	34
Number of designated beds	175	46
Utilization rate ³	74.9	73.9
Average number of designated beds per facility	25	23

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Idaho

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Idaho included 60 mental health treatment facilities and reported 3,687 clients in mental health treatment on March 31, 2022. The survey response rate in Idaho was 58.1 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	32	53.3
Private non-profit organization	13	21.7
State government	10	16.7
Local, county, or community government	—	—
Tribal government	—	—
Federal government	5	8.3
Total	60	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	8	13.3	276	7.5
24-hour residential	4	6.7	—	—
Partial hospitalization/day treatment	2	3.3	—	—
Outpatient	54	90.0	3,411	92.5
Total			3,687	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	—	6
Number of clients ²	—	276
Number of designated beds	—	362
Utilization rate ³	—	76.2
Average number of designated beds per facility	—	60

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Illinois

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Illinois included 628 substance use treatment facilities and reported 45,101 clients in substance use treatment on March 31, 2022. The survey response rate in Illinois was 85.3 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	222	35.4	15,617	34.6	322	35.0
Private non-profit organization	375	59.7	25,981	57.6	583	63.4
State government	6	1.0	1,198	2.7	—	—
Local, county, or community government	19	3.0	993	2.2	14	1.5
Tribal government	—	—	—	—	—	—
Federal government	6	1.0	1,312	2.9	—	—
Total	628	100.0	45,101	100.0	919	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	348	76.0	13,332	31.4	106	13,026	31.3	132
Only alcohol	308	67.2	6,684	15.7	53	6,492	15.6	66
Only substances other than alcohol	356	77.7	22,473	52.9	179	22,077	53.1	224
Total	436		42,489	100.0	338	41,595	100.0	422

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	74	7
Number of clients ²	1,807	514
Number of designated beds	2,168	122
Utilization rate ³	83.3	421.3
Average number of designated beds per facility	29	17

¹Excludes facilities not reporting number of beds.²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.**Type of Care**

2022 Mental Health Services State Profile—Illinois

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Illinois included 298 mental health treatment facilities and reported 48,064 clients in mental health treatment on March 31, 2022. The survey response rate in Illinois was 71.8 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	23	7.7
Private non-profit organization	229	76.8
State government	7	2.3
Local, county, or community government	27	9.1
Tribal government	—	—
Federal government	12	4.0
Total	298	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	50	16.8	2,237	4.7
24-hour residential	60	20.1	706	1.5
Partial hospitalization/day treatment	51	17.1	86	0.2
Outpatient	238	79.9	45,121	93.9
Total			48,064	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	41	39
Number of clients ²	550	2,237
Number of designated beds	734	2,676
Utilization rate ³	74.9	83.6
Average number of designated beds per facility	18	69

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type		
	Facilities

2022 Substance Use Treatment Services State Profile—Indiana

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Indiana included 421 substance use treatment facilities and reported 71,694 clients in substance use treatment on March 31, 2022. The survey response rate in Indiana was 90.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	177	42.0	28,635	39.9	508	6.0
Private non-profit organization	234	55.6	41,267	57.6	7,990	94.0
State government	1	0.2	30	*	—	—
Local, county, or community government	4	1.0	1,133	1.6	—	—
Tribal government	—	—	—	—	—	—
Federal government	5	1.2	629	0.9	—	—
Total	421	100.0	71,694	100.0	8,498	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	216	71.8	19,507	30.4	285	14,984	26.9	285
Only alcohol	198	65.8	7,745	12.1	113	6,484	11.6	123
Only substances other than alcohol	261	86.7	36,907	57.5	540	34,196	61.4	650
Total	281		64,159	100.0	939	55,664	100.0	1,058

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	46	17
Number of clients ²	1,310	1,412
Number of designated beds	1,419	625
Utilization rate ³	92.3	225.9
Average number of designated beds per facility	31	37

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Indiana

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Indiana included 269 mental health treatment facilities and reported 68,044 clients in mental health treatment on March 31, 2022. The survey response rate in Indiana was 88.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	17	6.3
Private non-profit organization	224	83.3
State government	6	2.2
Local, county, or community government	6	2.2
Tribal government	—	—
Federal government	16	5.9
Total	269	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	49	18.2	9,171	13.5
24-hour residential	55	20.4	836	1.2
Partial hospitalization/day treatment	15	5.6	340	0.5
Outpatient	213	79.2	58,037	85.3
Total			68,044	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	44	43
Number of clients ²	809	9,140
Number of designated beds	1,046	1,730
Utilization rate ³	77.3	528.3
Average number of designated beds per facility	24	40

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Iowa

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Iowa included 166 substance use treatment facilities and reported 28,444 clients in substance use treatment on March 31, 2022. The survey response rate in Iowa was 89.2 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	28	16.9	1,446	5.1	55	2.2

2022 Mental Health Services State Profile—Iowa

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Iowa included 115 mental health treatment facilities and reported 14,179 clients in mental health treatment on March 31, 2022. The survey response rate in Iowa was 77.4 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	7	6.1
Private non-profit organization	93	80.9
State government	3	2.6
Local, county, or community government	4	3.5
Tribal government	—	—
Federal government	8	7.0
Total	115	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	19	16.5	277	2.0
24-hour residential	18	15.7	579	4.1
Partial hospitalization/day treatment	9	7.8	18	0.1
Outpatient	95	82.6	13,323	94.0
Total			14,179	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	18	15
Number of clients ²	579	277
Number of designated beds	683	340
Utilization rate ³	84.8	81.5
Average number of designated beds per facility	38	23

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Kansas

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Kansas included 153 substance use treatment facilities and reported 8,226 clients in substance use treatment on March 31, 2022. The survey response rate in Kansas was 91.7 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	48	31.4	3,333	40.5	433	47.0
Private non-profit organization	85	55.6	4,261	51.8	465	50.4
State government	2	1.3	—	—	—	—
Local, county, or community government	14	9.2	372	4.5	9	1.0
Tribal government	—	—	—	—	—	—
Federal government	4	2.6	260	3.2	15	1.6
Total	153	100.0	8,226	100.0	922	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	97	86.6	2,946	36.2	100	2,495	34.5	111
Only alcohol	85	75.9	1,579	19.4	54	1,216	16.8	54
Only substances other than alcohol	88	78.6	3,616	44.4	123	3,516	48.7	157
Total	109		8,141	100.0	277	7,227	100.0	322

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

2022 Mental Health Services State Profile—Kansas

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Kansas included 92 mental health treatment facilities and reported 28,148 clients in mental health treatment on March 31, 2022. The survey response rate in Kansas was 64.9 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	4	4.3
Private non-profit organization	64	69.6
State government	6	6.5
Local, county, or community government	18	19.6
Tribal government	—	—
Federal government	—	—
Total	92	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	12	13.0	636	2.3
24-hour residential	17	18.5	767	2.7
Partial hospitalization/day treatment	3	3.3	—	—
Outpatient	77	83.7	26,745	95.0
Total			28,148	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	9	10
Number of clients ²	703	636
Number of designated beds	402	890
Utilization rate ³	174.9	71.5
Average number of designated beds per facility	45	89

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Kentucky

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Kentucky included 486 substance use treatment facilities and reported 46,785 clients in substance use treatment on March 31, 2022. The survey response rate in Kentucky was 92.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%

2022 Mental Health Services State Profile—Kentucky

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Kentucky included 199 mental health treatment facilities and reported 46,308 clients in mental health treatment on March 31, 2022. The survey response rate in Kentucky was 86.5 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	17	8.5
Private non-profit organization	163	81.9
State government	4	2.0
Local, county, or community government	1	0.5
Tribal government	—	—
Federal government	13	6.5
Total	199	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	24	12.1	1,278	2.8
24-hour residential	24	12.1	506	1.1
Partial hospitalization/day treatment	24	12.1	92	0.2
Outpatient	168	84.4	44,524	96.1
Total			46,308	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	19	20
Number of clients ²	484	1,278
Number of designated beds	710	1,268
Utilization rate ³	68.2	100.8
Average number of designated beds per facility	37	63

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%

2022 Substance Use Treatment Services State Profile—Louisiana

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Louisiana included 193 substance use treatment facilities and reported 13,750 clients in substance use treatment on March 31, 2022. The survey response rate in Louisiana was 89.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	102	52.8	8,575	62.4	226	51.8
Private non-profit organization	41	21.2	1,507	11.0	130	29.8
State government	24	12.4	2,372	17.3	23	5.3
Local, county, or community government	19	9.8	974	7.1	57	13.1
Tribal government	2	1.0	—	—	—	—
Federal government	5	2.6	322	2.3	—	—
Total	193	100.0	13,750	100.0	436	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	111	83.5	5,476	39.8	119	5,259	39.5	149
Only alcohol	92	69.2	2,011	14.6	44	1,950	14.7	55
Only substances other than alcohol	103	77.4	6,260	45.5	136	6,101	45.8	173
Total	125		13,747	100.0	299	13,310	100.0	377

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	34	15
Number of clients ²	1,409	560
Number of designated beds	1,605	503
Utilization rate ³	87.8	111.3
Average number of designated beds per facility	47	34

¹Excludes facilities not reporting number of beds.²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.**Type of Care**

2022 Mental Health Services State Profile—Louisiana

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Louisiana included 133 mental health treatment facilities and reported 11,193 clients in mental health treatment on March 31, 2022. The survey response rate in Louisiana was 55.6 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	54	40.6
Private non-profit organization	31	23.3
State government	26	19.5
Local, county, or community government	12	9.0
Tribal government	—	—
Federal government	10	7.5
Total	133	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	40	30.1	1,851	16.5
24-hour residential	3	2.3	30	0.3
Partial hospitalization/day treatment	13	9.8	77	0.7
Outpatient	108	81.2	9,312	83.2
Total			11,193	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	3	31
Number of clients ²	30	1,851
Number of designated beds	725	822
Utilization rate ³	4.1	225.2
Average number of designated beds per facility	242	27

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Maine National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Maine included 148 substance use treatment facilities and reported 17,215 clients in substance use treatment on March 31, 2022. The survey response rate in Maine was 80.1 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	86	58.1	7,842	45.6	66	2.0
Private non-profit organization	56	37.8	9,169	53.3	3,238	98.0
State government	1	0.7	45	0.3	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	2	1.4	88	0.5	—	—
Federal government	1	0.7	18	0.1	—	—
Total	148	100.0	17,215	100.0	3,304	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	78	72.9	4,045	23.7	292	3,064	22.3	269
Only alcohol	67	62.6	1,093	6.4	79	852	6.2	75
Only substances other than alcohol	85	79.4	11,927	69.9	861	9,844	71.5	865
Total	106		17,065	100.0	1,232	13,760	100.0	1,210

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	14	4
Number of clients ²	201	44
Number of designated beds	264	61
Utilization rate ³	76.1	72.1
Average number of designated beds per facility	19	15

¹Excludes facilities not reporting number of beds.²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.**Type of Care**

2022 Mental Health Services State Profile—Maine

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Maine included 123 mental health treatment facilities and reported 17,106 clients in mental health treatment on March 31, 2022. The survey response rate in Maine was 72.0 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	23	18.7
Private non-profit organization	97	78.9
State government	3	2.4
Local, county, or community government	—	—
Tribal government	—	—
Federal government	—	—
Total	123	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	8	6.5	246	1.4
24-hour residential	43	35.0	293	1.7
Partial hospitalization/day treatment	4	3.3	43	0.3
Outpatient	84	68.3	16,567	96.8
Total			17,106	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	32	8
Number of clients ²	293	246
Number of designated beds	336	314
Utilization rate ³	87.2	78.3
Average number of designated beds per facility	11	39

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Maryland

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Maryland included 392 substance use treatment facilities and reported 47,695 clients in substance use treatment on March 31, 2022. The survey response rate in Maryland was 82.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	252	64.3	34,062	71.4	274	56.7
Private non-profit organization	111	28.3	10,310	21.6	80	16.6
State government	17	4.3	2,566	5.4	129	26.7
Local, county, or community government	4	1.0	563	1.2	—	—
Tribal government	—	—	—	—	—	—
Federal government	8	2.0	194	0.4	—	—
Total	392	100.0	47,695	100.0	483	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	244	82.2	13,176	28.5	214	12,999	28.5	270
Only alcohol	215	72.4	4,739	10.3	77	4,597	10.1	95
Only substances other than alcohol	247	83.2	28,241	61.2	458	28,080	61.5	583
Total	297		46,156	100.0	749	45,676	100.0	948

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	68	23
Number of clients ²	4,627	1,167
Number of designated beds	2,737	618
Utilization rate ³	169.1	188.8
Average number of designated beds per facility	40	27

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Maryland

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Maryland included 218 mental health treatment facilities and reported 38,957 clients in mental health treatment on March 31, 2022. The survey response rate in Maryland was 66.3 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	62	28.4
Private non-profit organization	132	60.6
State government	13	6.0
Local, county, or community government	3	1.4
Tribal government	—	—
Federal government	8	3.7
Total	218	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	16	7.3	335	0.9
24-hour residential	53	24.3	653	1.7
Partial hospitalization/day treatment	38	17.4	111	0.3
Outpatient	182	83.5	37,969	97.5
Total			38,957	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	23	12
Number of clients ²	644	335
Number of designated beds	801	397
Utilization rate ³	80.4	84.4
Average number of designated beds per facility	35	33

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Massachusetts National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Massachusetts included 420 substance use treatment facilities and reported 67,090 clients in substance use treatment on March 31, 2022. The survey response rate in Massachusetts was 82.5 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	152	36.2	31,320	46.7	205	17.2
Private non-profit organization	260	61.9	34,783	51.8	986	82.6
State government	3	0.7	220	0.3	—	—
Local, county, or community government	1	0.2	19	*	—	—
Tribal government	—	—	—	—	—	—
Federal government	2	0.5	428	0.6	—	—
Total	420	100.0	67,090	100.0	1,193	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	263	81.2	23,363	36.6	335	22,753	36.4	403
Only alcohol	235	72.5	8,520	13.4	122	8,257	13.2	146
Only substances other than alcohol	247	76.2	31,901	50.0	457	31,564	50.4	559
Total	305		63,784	100.0	914	62,574	100.0	1,109

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

2022 Mental Health Services State Profile—Massachusetts

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Massachusetts included 235 mental health treatment facilities and reported 33,207 clients in mental health treatment on March 31, 2022. The survey response rate in Massachusetts was 65.4 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	51	21.7
Private non-profit organization	165	70.2
State government	10	4.3
Local, county, or community government	—	—
Tribal government	—	—
Federal government	8	3.4
Total	235	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	32	13.6	760	2.3
24-hour residential	37	15.7	382	1.2
Partial hospitalization/day treatment	35	14.9	410	1.2
Outpatient	193	82.1	32,065	96.6
Total			33,207	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	22	23
Number of clients ²	375	724
Number of designated beds	475	884
Utilization rate ³	78.9	81.9
Average number of designated beds per facility	22	38

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%
Psychiatric hospital	10	4.3
Separate inpatient psychiatric unit of a general hospital	17	7.2
State hospital	—	—

2022 Substance Use Treatment Services State Profile—Michigan

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Michigan included 405 substance use treatment facilities and reported 74,406 clients in substance use treatment on March 31, 2022. The survey response rate in Michigan was 90.7 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	139	34.3	17,607	23.7	389	7.0
Private non-profit organization	219	54.1	51,979	69.9	4,600	83.0
State government	6	1.5	250	0.3	5	0.1
Local, county, or community government	21	5.2	2,430	3.3	399	7.2
Tribal government	15	3.7	698	0.9	147	2.7
Federal government	4	1.0	892	1.2	—	—
Total	405	100.0	74,406	100.0	5,540	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	218	82.0	27,511	37.2	274	24,972	36.5	315
Only alcohol	213	80.1	18,358	24.9	183	16,693	24.4	211
Only substances other than alcohol	228	85.7	28,000	37.9	279	26,678	39.0	337
Total	265		73,869	100.0	736	68,343	100.0	862

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

2022 Mental Health Services State Profile—Michigan

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Michigan included 292 mental health treatment facilities and reported 68,086 clients in mental health treatment on March 31, 2022. The survey response rate in Michigan was 79.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	41	14.0
Private non-profit organization	137	46.9
State government	11	3.8
Local, county, or community government	77	26.4
Tribal government	—	—
Federal government	26	8.9
Total	292	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	35	12.0	1,608	2.4
24-hour residential	16	5.5	257	0.4
Partial hospitalization/day treatment	20	6.8	50	0.1
Outpatient	258	88.4	66,221	97.3
Total			68,086	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	9	29
Number of clients ²	257	1,608
Number of designated beds	312	1,945
Utilization rate ³	82.4	82.7
Average number of designated beds per facility	35	67

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Minnesota

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Minnesota included 378 substance use treatment facilities and reported 22,332 clients in substance use treatment on March 31, 2022. The survey response rate in Minnesota was 88.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years

2022 Mental Health Services State Profile—Minnesota

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Minnesota included 216 mental health treatment facilities and reported 26,047 clients in mental health treatment on March 31, 2022. The survey response rate in Minnesota was 78.8 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	55	25.5
Private non-profit organization	137	63.4
State government	5	2.3
Local, county, or community government	5	2.3
Tribal government	—	—
Federal government	14	6.5
Total	216	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	14	6.5	200	0.8
24-hour residential	49	22.7	1,262	4.8
Partial hospitalization/day treatment	39	18.1	111	0.4
Outpatient	165	76.4	24,585	94.4
Total			26,047	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	37	11
Number of clients ²	1,177	192
Number of designated beds	1,374	243
Utilization rate ³	85.7	79.0
Average number of designated beds per facility	37	22

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%

2022 Substance Use Treatment Services State Profile—Mississippi National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Mississippi included 101 substance use treatment facilities and reported 6,435 clients in substance use treatment on March 31, 2022. The survey response rate in Mississippi was 89.5 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years

2022 Mental Health Services State Profile—Mississippi

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Mississippi included 130 mental health treatment facilities and reported 13,138 clients in mental health treatment on March 31, 2022. The survey response rate in Mississippi was 60.8 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	24	18.5
Private non-profit organization	73	56.2
State government	13	10.0
Local, county, or community government	16	12.3
Tribal government	1	0.8
Federal government	2	1.5
Total	130	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	20	15.4	680	5.2
24-hour residential	13	10.0	190	1.4
Partial hospitalization/day treatment	37	28.5	140	1.1
Outpatient	108	83.1	12,268	93.4
Total			13,138	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	8	18
Number of clients ²	190	680
Number of designated beds	204	1,032
Utilization rate ³	93.1	65.9
Average number of designated beds per facility	26	57

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Missouri

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Missouri included 261 substance use treatment facilities and reported 20,228 clients in substance use treatment on March 31, 2022. The survey response rate in Missouri was 87.4 percent.

2022 Mental Health Services State Profile—Missouri

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Missouri included 176 mental health treatment facilities and reported 32,281 clients in mental health treatment on March 31, 2022. The survey response rate in Missouri was 85.9 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	15	8.5
Private non-profit organization	144	81.8
State government	5	2.8
Local, county, or community government	2	1.1
Tribal government	—	—
Federal government	10	5.7
Total	176	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	34	19.3	5,974	18.5
24-hour residential	26	14.8	605	1.9
Partial hospitalization/day treatment	7	4.0	215	0.7
Outpatient	139	79.0	25,702	79.6
Total			32,281	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	18	29
Number of clients ²	580	5,974
Number of designated beds	661	1,797
Utilization rate ³	87.7	332.4
Average number of designated beds per facility	37	62

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Montana

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Montana included 107 substance use treatment facilities and reported 6,381 clients in substance use treatment on March 31, 2022. The survey response rate in Montana was 84.3 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	42	39.3	2,979	46.7	74	37.8
Private non-profit organization	52	48.6	2,730	42.8	114	58.2
State government	1	0.9	44	0.7	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	5	4.7	355	5.6	8	4.1
Federal government	6	5.6	269	4.2	—	—
Total	107	100.0	6,381	100.0	196	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	66	84.6	2,446	40.0	218	2,325	39.2	261
Only alcohol	62	79.5	1,178	19.3	105	1,160	19.6	130
Only substances other than alcohol	66	84.6	2,490	40.7	222	2,445	41.2	275
Total	78		6,114	100.0	544	5,930	100.0	667

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	13	1
Number of clients ²	177	22
Number of designated beds	233	48
Utilization rate ³	76.0	45.8
Average number of designated beds per facility	18	48

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Type of Care

	Clients in treatment on March 31, 2022

2022 Mental Health Services State Profile—Montana

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Montana included 66 mental health treatment facilities and reported 9,670 clients in mental health treatment on March 31, 2022. The survey response rate in Montana was 74.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	6	9.1
Private non-profit organization	55	83.3
State government	4	6.1
Local, county, or community government	—	—
Tribal government	—	—
Federal government	1	1.5
Total	66	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	7	10.6	1,384	14.3
24-hour residential	26	39.4	284	2.9
Partial hospitalization/day treatment	9	13.6	8	0.1
Outpatient	51	77.3	8,002	82.8
Total			9,670	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	18	5
Number of clients ²	281	1,384
Number of designated beds	326	386
Utilization rate ³	86.2	358.5
Average number of designated beds per facility	18	77

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Nebraska

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Nebraska included 116 substance use treatment facilities and reported 5,156 clients in substance use treatment on March 31, 2022. The survey response rate in Nebraska was 90.0 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	25	21.6	1,226	23.8	179	38.1
Private non-profit organization	71	61.2	3,473	67.4	261	55.5
State government	—	—	—	—	—	—
Local, county, or community government	7	6.0	203	3.9	5	1.1
Tribal government	6	5.2	106	2.1	25	5.3
Federal government	6	5.2	147	2.9	—	—
Total	116	100.0	5,156	100.0	470	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	70	90.9	2,103	41.0	107	1,921	41.0	129
Only alcohol	68	88.3	1,614	31.5	82	1,509	32.2	101
Only substances other than alcohol	65	84.4	1,407	27.5	71	1,251	26.7	84
Total	77		5,124	100.0	260	4,681	100.0	314

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	31	2
Number of clients ²	480	51
Number of designated beds	683	53
Utilization rate ³	70.3	96.2
Average number of designated beds per facility	22	27

¹Excludes facilities not reporting number of beds.²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.**Type of Care**

2022 Mental Health Services State Profile—Nebraska

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Nebraska included 110 mental health treatment facilities and reported 18,125 clients in mental health treatment on March 31, 2022. The survey response rate in Nebraska was 79.4 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	8	7.3
Private non-profit organization	80	72.7
State government	5	4.5
Local, county, or community government	7	6.4
Tribal government	2	1.8
Federal government	8	7.3
Total	110	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	11	10.0	1,507	8.3
24-hour residential	22	20.0	337	1.9
Partial hospitalization/day treatment	10	9.1	40	0.2
Outpatient	87	79.1	16,281	89.8
Total			18,125	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	10	8
Number of clients ²	211	1,503
Number of designated beds	291	386
Utilization rate ³	72.5	389.4
Average number of designated beds per facility	29	48

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Nevada

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Nevada included 112 substance use treatment facilities and reported 8,359 clients in substance use treatment on March 31, 2022. The survey response rate in Nevada was 81.9 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	47	42.0	3,120	37.3	160	19.0
Private non-profit organization	55	49.1	4,969	59.4	679	80.8
State government	3	2.7	120	1.4	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	5	4.5	146	1.7	1	0.1
Federal government	2	1.8	4	*	—	—
Total	112	100.0	8,359	100.0	840	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	70	83.3	3,100	35.9	98	2,712	35.0	109
Only alcohol	67	79.8	1,052	12.2	33	877	11.3	35
Only substances other than alcohol	72	87.0	4,486	51.9	141	4,170	53.7	168
Total	84		8,638	100.0	272	7,759	100.0	312

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	16	9
Number of clients ²	512	213
Number of designated beds	623	352
Utilization rate ³	82.2	60.5
Average number of designated beds per facility	39	39

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Nevada

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Nevada included 60 mental health treatment facilities and reported 3,022 clients in mental health treatment on March 31, 2022. The survey response rate in Nevada was 73.0 percent.

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	14	23.3	414	13.7
24-hour residential	12	20.0	132	4.4
Partial hospitalization/day treatment	10	16.7	8	0.3
Outpatient	50	83.3	2,476	81.9
Total			3,022	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	6	8
Number of clients ²	132	414
Number of designated beds	230	499
Utilization rate ³	57.4	83.0
Average number of designated beds per facility	38	62

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—New Hampshire National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New Hampshire included 105 substance use treatment facilities and reported 15,408 clients in substance use treatment on March 31, 2022. The survey response rate in New Hampshire was 89.0 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%

2022 Mental Health Services State Profile—New Hampshire

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New Hampshire included 58 mental health treatment facilities and reported 15,084 clients in mental health treatment on March 31, 2022. The survey response rate in New Hampshire was 70.9 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	7	12.1
Private non-profit organization	43	74.1
State government	1	1.7
Local, county, or community government	—	—
Tribal government	—	—
Federal government	7	12.1
Total	58	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	5	8.6	231	1.5
24-hour residential	13	22.4	105	0.7
Partial hospitalization/day treatment	12	20.7	89	0.6
Outpatient	50	86.2	14,748	97.8
Total			15,084	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	11	4
Number of clients ²	101	219
Number of designated beds	124	230
Utilization rate ³	81.5	95.2
Average number of designated beds per facility	11	58

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%
Psychiatric hospital	—	—
Separate inpatient psychiatric unit of a general hospital	3	5.2

2022 Substance Use Treatment Services State Profile—New Jersey

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New Jersey included 388 substance use treatment facilities and reported 35,227 clients in substance use treatment on March 31, 2022. The survey response rate in New Jersey was 86.5 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	207	53.4	17,724	50.3	841	46.5
Private non-profit organization	169	43.6	16,794	47.7	930	51.4
State government	—	—	—	—	—	—
Local, county, or community government	9	2.3	587	1.7	39	2.2
Tribal government	—	—	—	—	—	—
Federal government	2	0.5	111	0.3	—	—
Total	388	100.0	35,227	100.0	1,810	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	273	85.6	11,481	33.9	124	10,871	33.9	150
Only alcohol	228	71.5	3,870	11.4	42	3,434	10.7	47
Only substances other than alcohol	258	74.5	18,539	54.7	200	17,753	55.4	244
Total	318		33,890	100.0	366	32,058	100.0	441

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	46	15
Number of clients ²	2,488	689
Number of designated beds	2,516	1,006
Utilization rate ³	98.9	68.5
Average number of designated beds per facility	55	67

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—New Jersey

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New Jersey included 243 mental health treatment facilities and reported 45,798 clients in mental health treatment on March 31, 2022. The survey response rate in New Jersey was 80.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	41	16.9
Private non-profit organization	185	76.1
State government	9	3.7
Local, county, or community government	4	1.6
Tribal government	—	—
Federal government	4	1.6
Total	243	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	29	11.9	3,487	7.6
24-hour residential	36	14.8	1,068	2.3
Partial hospitalization/day treatment	72	29.6	418	0.9
Outpatient	197	81.1	41,243	90.1
Total			45,798	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	27	21
Number of clients ²	761	3,486
Number of designated beds	847	2,091
Utilization rate ³	89.8	166.7
Average number of designated beds per facility	31	100

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—New Mexico

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New Mexico included 142 substance use treatment facilities and reported 16,413 clients in substance use treatment on March 31, 2022. The survey response rate in New Mexico was 86.7 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years

2022 Mental Health Services State Profile—New Mexico

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New Mexico included 69 mental health treatment facilities and reported 4,892 clients in mental health treatment on March 31, 2022. The survey response rate in New Mexico was 61.8 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	4	5.8
Private non-profit organization	39	56.5
State government	24	34.8
Local, county, or community government	1	1.4
Tribal government	—	—
Federal government	1	1.4
Total	69	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	9	13.0	166	3.4
24-hour residential	6	8.7	74	1.5
Partial hospitalization/day treatment	3	4.3	—	—
Outpatient	61	88.4	4,652	95.1
Total			4,892	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	4	7
Number of clients ²	69	166
Number of designated beds	92	202
Utilization rate ³	75.0	82.2
Average number of designated beds per facility	23	29

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—New York

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New York included 826 substance use treatment facilities and reported 117,931 clients in substance use treatment on March 31, 2022. The survey response rate in New York was 90.8 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%

2022 Mental Health Services State Profile—New York

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, New York included 596 mental health treatment facilities and reported 126,999 clients in mental health treatment on March 31, 2022. The survey response rate in New York was 77.3 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	13	2.2
Private non-profit organization	406	68.1
State government	94	15.8
Local, county, or community government	62	10.4
Tribal government	—	—
Federal government	21	3.5
Total	596	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	86	14.4	3,979	3.1
24-hour residential	62	10.4	788	0.6
Partial hospitalization/day treatment	69	11.6	20	*
Outpatient	502	84.2	122,232	96.2
Total			126,999	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	34	59
Number of clients ²	788	3,884
Number of designated beds	1,247	2,527
Utilization rate ³	63.2	153.7
Average number of designated beds per facility	37	43

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%
Psychiatric hospital	17	2.9
Separate inpatient psychiatric unit of a general hospital	54	9.1
State hospital	1	0.2

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	359	80.0	27,902	33.6	261	26,069	34.2	310
Only alcohol	286	63.7	10,709	12.9	100	9,536	12.5	113
Only substances other than alcohol	357	78.7	44,476	53.5	416	40,620	53.3	483
Total	443		83,087	100.0	777	76,225	100.0	907

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	58	22
Number of clients ²	1,672	1,105
Number of designated beds	2,206	672
Utilization rate ³	75.8	164.4
Average number of designated beds per facility	38	31

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—North Carolina

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, North Carolina included 234 mental health treatment facilities and reported 23,918 clients in mental health treatment on March 31, 2022. The survey response rate in North Carolina was 66.6 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	118	50.4
Private non-profit organization	101	43.2
State government	8	3.4
Local, county, or community government	3	1.3
Tribal government	—	—
Federal government	3	1.3
Total	234	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	44	18.8	1,625	6.8
24-hour residential	61	26.1	495	2.1
Partial hospitalization/day treatment	28	12.0	479	2.0
Outpatient	155	66.2	21,798	91.1
Total			23,918	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	44	31
Number of clients ²	476	1,286
Number of designated beds	598	1,746
Utilization rate ³	79.6	73.7
Average number of designated beds per facility	14	56

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Young children (0–5)	45	19.2
Children (6–12)	124	53.0
Adolescents (13–17)	150	64.1
Young adults (18–25)	179	76.5
Adults (26–64)	169	72.2
Older Adults (65 or older)	165	70.5

Note: Percentages sum to more than 100 percent, because a facility may accept clients from more than one age group.

¹This constructed variable includes facilities that accept all of the following: young children (5 years or younger), children (6–12 years), adolescents (13–17 years), young adults (18–25 years), adults (26–64 years), and older adults (65 years or older).**Client Characteristics**

	N	%
Diagnosed co-occurring mental and substance use disorders ¹	4,864	20.3
Military veterans ²	3,633	15.2

¹Estimated number and percent of mental health treatment clients on March 31, 2022.²Estimated number and percent of mental health treatment admissions from April 1, 2021, to March 31, 2022, who were military veterans.

Data in this profile are from mental health treatment facilities that reported to the N-SUMHSS and are based on the survey's reference date, March 31, 2022. All material in this profile is in the public domain and may be reproduced without permission from SAMHSA. Citation of the source is appreciated.

2022 Substance Use Treatment Services State Profile—North Dakota

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, North Dakota included 64 substance use treatment facilities and reported 6,295 clients in substance use treatment on March 31, 2022. The survey response rate in North Dakota was 79.0 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	28	43.8	1,111	17.6	20	3.7
Private non-profit organization	23	35.9	1,119	17.8	13	2.4
State government	8	12.5	3,548	56.4	507	93.9
Local, county, or community government	1	1.6	12	0.2	—	—
Tribal government	3	4.7	238	3.8	—	—
Federal government	1	1.6	267	4.2	—	—
Total	64	100.0	6,295	100.0	540	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	43	91.5	2,740	43.8	352	2,499	43.7	419
Only alcohol	37	78.7	1,171	18.7	150	1,073	18.7	180
Only substances other than alcohol	35	86.4	2,346	37.5	301	2,153	37.6	361
Total	46		6,257	100.0	803	5,725	100.0	960

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	9	4
Number of clients ²	210	29
Number of designated beds	153	40
Utilization rate ³	137.3	72.5
Average number of designated beds per facility	17	10

¹Excludes facilities not reporting number of beds.²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.**Type of Care**

2022 Mental Health Services State Profile—North Dakota

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, North Dakota included 26 mental health treatment facilities and reported 7,464 clients in mental health treatment on March 31, 2022. The survey response rate in North Dakota was 75.8 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	—	—
Private non-profit organization	14	53.8
State government	11	42.3
Local, county, or community government	—	—
Tribal government	—	—
Federal government	1	3.8
Total	26	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	2	7.7	85	1.1
24-hour residential	11	42.3	69	0.9
Partial hospitalization/day treatment	4	15.4	56	0.8
Outpatient	17	65.4	7,310	97.9
Total			7,464	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	7	2
Number of clients ²	69	85
Number of designated beds	124	128
Utilization rate ³	55.6	66.4
Average number of designated beds per facility	18	64

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Ohio

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Ohio included 649 substance use treatment facilities and reported 100,172 clients in substance use treatment on March 31, 2022. The survey response rate in Ohio was 86.1 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	273	42.1	39,463	39.4	2,101	22.7
Private non-profit organization	343	52.9	57,852	57.8	7,156	77.3
State government	4	0.6	200	0.2	—	—
Local, county, or community government	11	1.7	659	0.7	—	—
Tribal government	—	—	—	—	—	—
Federal government	18	2.8	1,998	2.0	—	—
Total	649	100.0	100,172	100.0	9,257	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	393	85.6	32,011	31.9	272	30,159	33.1	328
Only alcohol	346	75.4	11,418	11.4	97	10,572	11.6	115
Only substances other than alcohol	413	62.0	57,012	56.8	485	50,404	55.3	548
Total	454		100,441	100.0	854	91,135	100.0	991

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	108	38
Number of clients ²	3,724	3,621
Number of designated beds	3,671	1,396
Utilization rate ³	101.4	259.4
Average number of designated beds per facility	34	37

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Ohio

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Ohio included 536 mental health treatment facilities and reported 163,693 clients in mental health treatment on March 31, 2022. The survey response rate in Ohio was 80.1 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	102	19.0
Private non-profit organization	381	71.1
State government	4	0.7
Local, county, or community government	24	4.5
Tribal government	—	—
Federal government	24	4.5
Total	536	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	49	9.1	1,502	0.9
24-hour residential	64	11.9	1,357	0.8
Partial hospitalization/day treatment	120	22.4	3,934	2.4
Outpatient	483	90.1	160,834	98.3
Total			163,693	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	50	45
Number of clients ²	1,338	1,502
Number of designated beds	1,272	1,950
Utilization rate ³	105.2	77.0
Average number of designated beds per facility	25	43

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Oklahoma

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Oklahoma included 180 substance use treatment facilities and reported 14,200 clients in substance use treatment on March 31, 2022. The survey response rate in Oklahoma was 89.7 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	27	15.0	4,672	32.9	786	52.7
Private non-profit organization	108	60.0	7,042	49.6	567	38.0
State government	15	8.3	305	2.1	8	0.5
Local, county, or community government	2	1.1	17	0.1	3	0.2
Tribal government	24	13.3	1,608	11.3	128	8.6
Federal government	4	2.2	556	3.9	—	—
Total	180	100.0	14,200	100.0	1,492	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	106	82.8	4,209	29.7	105	3,870	30.5	126
Only alcohol	94	73.4	2,698	19.0	67	2,434	19.2	79
Only substances other than alcohol	104	87.5	7,275	51.3	181	6,395	50.4	209
Total	128		14,182	100.0	353	12,699	100.0	414

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	31	5
Number of clients ²	517	127
Number of designated beds	927	183
Utilization rate ³	55.8	69.4
Average number of designated beds per facility	30	37

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Oklahoma

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Oklahoma included 125 mental health treatment facilities and reported 36,830 clients in mental health treatment on March 31, 2022. The survey response rate in Oklahoma was 71.6 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	16	12.8
Private non-profit organization	73	58.4
State government	24	19.2
Local, county, or community government	2	1.6
Tribal government	4	3.2
Federal government	6	4.8
Total	125	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	22	17.6	604	1.6
24-hour residential	10	8.0	273	0.7
Partial hospitalization/day treatment	11	8.8	88	0.2
Outpatient	107	85.6	35,953	97.6
Total			36,830	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	9	21
Number of clients ²	273	604
Number of designated beds	331	774
Utilization rate ³	82.5	78.0
Average number of designated beds per facility	37	37

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type	Facilities	
	N	%
Psychiatric hospital	8	6.4
Separate inpatient psychiatric unit of a general hospital	9	7.2
State hospital	1	0.8
Residential treatment center for children	4	3.2

2022 Substance Use Treatment Services State Profile—Oregon

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Oregon included 220 substance use treatment facilities and reported 28,003 clients in substance use treatment on March 31, 2022. The survey response rate in Oregon was 87.0 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	67	30.5	16,082	57.4	246	36.5
Private non-profit organization	129	58.6	9,358	33.4	315	46.7
State government	—	—	—	—	—	—
Local, county, or community government	14	6.4	1,846	6.6	106	15.7
Tribal government	6	2.7	316	1.1	7	1.0
Federal government	4	1.8	401	1.4	—	—
Total	220	100.0	28,003	100.0	674	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	136	87.7	12,882	52.5	304	12,549	52.4	369
Only alcohol	108	69.7	3,292	13.4	78	3,184	13.3	94
Only substances other than alcohol	122	91.0	8,373	34.1	197	8,209	34.3	241
Total	151		24,547	100.0	579	23,942	100.0	704

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	29	10
Number of clients ²	764	169
Number of designated beds	1,054	264
Utilization rate ³	72.5	64.0
Average number of designated beds per facility	36	26

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Oregon

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Oregon included 143 mental health treatment facilities and reported 13,664 clients in mental health treatment on March 31, 2022. The survey response rate in Oregon was 62.4 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	13	9.1
Private non-profit organization	100	69.9
State government	3	2.1
Local, county, or community government	20	14.0
Tribal government	1	0.7
Federal government	6	4.2
Total	143	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	10	7.0	729	5.3
24-hour residential	61	42.7	586	4.3
Partial hospitalization/day treatment	14	9.8	16	0.1
Outpatient	85	59.4	12,349	90.4
Total			13,664	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	52	6
Number of clients ²	486	729
Number of designated beds	590	783
Utilization rate ³	82.4	93.1
Average number of designated beds per facility	11	131

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Pennsylvania

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Pennsylvania included 522 substance use treatment facilities and reported 62,942 clients in substance use treatment on March 31, 2022. The survey response rate in Pennsylvania was 85.2 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	245	46.9	35,582	56.5	604	17.5

2022 Mental Health Services State Profile—Pennsylvania

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Pennsylvania included 429 mental health treatment facilities and reported 105,530 clients in mental health treatment on March 31, 2022. The survey response rate in Pennsylvania was 73.0 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	70	16.3
Private non-profit organization	324	75.5
State government	8	1.9
Local, county, or community government	7	1.6
Tribal government	—	—
Federal government	20	4.7
Total	429	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	66	15.4	8,015	7.6
24-hour residential	63	14.7	1,302	1.2
Partial hospitalization/day treatment	87	20.3	245	0.2
Outpatient	342	79.7	96,213	91.2
Total			105,530	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	45	60
Number of clients ²	1,302	8,035
Number of designated beds	1,535	3,765
Utilization rate ³	84.8	213.4
Average number of designated beds per facility	34	63

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Puerto Rico

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Puerto Rico included 72 substance use treatment facilities and reported 7,515 clients in substance use treatment on March 31, 2022. The survey response rate in Puerto Rico was 88.9 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%

2022 Mental Health Services State Profile—Puerto Rico

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Puerto Rico included 40 mental health treatment facilities and reported 17,930 clients in mental health treatment on March 31, 2022. The survey response rate in Puerto Rico was 39.1 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	21	52.5
Private non-profit organization	11	27.5
State government	6	15.0
Local, county, or community government	1	2.5
Tribal government	—	—
Federal government	1	2.5
Total	40	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	10	25.0	3,466	19.3
24-hour residential	10	25.0	167	0.9
Partial hospitalization/day treatment	14	35.0	—	—
Outpatient	25	62.5	14,297	79.7
Total			17,930	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	8	6
Number of clients ²	167	3,466
Number of designated beds	185	361
Utilization rate ³	90.3	960.1
Average number of designated beds per facility	23	60

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Rhode Island

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Rhode Island included 59 substance use treatment facilities and reported 7,606 clients in substance use treatment on March 31, 2022. The survey response rate in Rhode Island was 84.3 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	21	35.6	3,379	44.4	—	—

2022 Mental Health Services State Profile—Rhode Island

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Rhode Island included 34 mental health treatment facilities and reported 10,234 clients in mental health treatment on March 31, 2022. The survey response rate in Rhode Island was 69.1 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	1	2.9
Private non-profit organization	31	91.2
State government	1	2.9
Local, county, or community government	—	—
Tribal government	—	—
Federal government	1	2.9
Total	34	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	3	8.8	142	1.4
24-hour residential	9	26.5	114	1.1
Partial hospitalization/day treatment	6	17.6	—	—
Outpatient	26	76.5	9,978	97.5
Total			10,234	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	7	2
Number of clients ²	114	142
Number of designated beds	120	145
Utilization rate ³	95.0	97.9
Average number of designated beds per facility	17	73

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—South Carolina National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, South Carolina included 107 substance use treatment facilities and reported 19,869 clients in substance use treatment on March 31, 2022. The survey response rate in South Carolina was 90.8 percent.

2022 Mental Health Services State Profile—South Carolina

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, South Carolina included 89 mental health treatment facilities and reported 39,390 clients in mental health treatment on March 31, 2022. The survey response rate in South Carolina was 81.8 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	10	11.2
Private non-profit organization	6	6.7
State government	70	78.7
Local, county, or community government	1	1.1
Tribal government	—	—
Federal government	2	2.2
Total	89	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	17	19.1	798	2.0
24-hour residential	6	6.7	128	0.3
Partial hospitalization/day treatment	7	7.9	—	—
Outpatient	76	85.4	38,464	97.6
Total			39,390	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	3	14
Number of clients ²	128	798
Number of designated beds	147	1,100
Utilization rate ³	87.1	72.5
Average number of designated beds per facility	49	79

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—South Dakota National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, South Dakota included 51 substance use treatment facilities and reported 2,580 clients in substance use treatment on March 31, 2022. The survey response rate in South Dakota was 85.0 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	8	15.7	250	9.7	6	3.9
Private non-profit organization	26	51.0	1,842	71.4	131	85.6
State government	3	5.9	65	2.5	—	—
Local, county, or community government	1	2.0	97	3.8	—	—
Tribal government	7	13.7	274	10.6	2	1.3
Federal government	6	11.8	52	2.0	14	9.2
Total	51	100.0	2,580	100.0	153	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	38	92.7	1,614	68.7	177	1,505	68.4	218
Only alcohol	26	63.4	372	15.8	41	350	15.9	51
Only substances other than alcohol	25	93.5	364	15.5	40	345	15.7	50
Total	41		2,350	100.0	258	2,200	100.0	319

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	14	6
Number of clients ²	423	56
Number of designated beds	528	88
Utilization rate ³	80.1	63.6
Average number of designated beds per facility	38	15

¹Excludes facilities not reporting number of beds.²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.**Type of Care**

2022 Mental Health Services State Profile—South Dakota

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, South Dakota included 39 mental health treatment facilities and reported 3,832 clients in mental health treatment on March 31, 2022. The survey response rate in South Dakota was 76.7 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	—	—
Private non-profit organization	33	84.6
State government	1	2.6
Local, county, or community government	—	—
Tribal government	—	—
Federal government	5	12.8
Total	39	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	6	15.4	172	4.5
24-hour residential	8	20.5	188	4.9
Partial hospitalization/day treatment	2	5.1	10	0.3
Outpatient	32	82.1	3,472	90.6
Total			3,832	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	7	5
Number of clients ²	234	176
Number of designated beds	255	217
Utilization rate ³	91.8	81.1
Average number of designated beds per facility	36	43

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Tennessee

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Tennessee included 297 substance use treatment facilities and reported 36,676 clients in substance use treatment on March 31, 2022. The survey response rate in Tennessee was 90.7 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	109	36.7	16,980	46.3	739	29.2
Private non-profit organization	184	62.0	18,698	51.0	1,794	70.8
State government	—	—	—	—	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	—	—	—	—	—	—
Federal government	4	1.3	998	2.7	—	—
Total	297	100.0	36,676	100.0	2,533	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	189	80.4	10,516	29.4	149	9,500	28.6	172
Only alcohol	154	65.5	3,938	11.0	56	3,535	10.6	64
Only substances other than alcohol	195	91.7	21,333	59.6	303	20,214	60.8	367
Total	233		35,787	100.0	508	33,249	100.0	603

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	53	9
Number of clients ²	2,112	250
Number of designated beds	2,088	198
Utilization rate ³	101.1	126.3
Average number of designated beds per facility	39	22

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Tennessee

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Tennessee included 220 mental health treatment facilities and reported 73,599 clients in mental health treatment on March 31, 2022. The survey response rate in Tennessee was 78.3 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	56	25.5
Private non-profit organization	153	69.5
State government	5	2.3
Local, county, or community government	—	—
Tribal government	—	—
Federal government	5	2.3
Total	220	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	27	12.3	1,345	1.8
24-hour residential	29	13.2	842	1.1
Partial hospitalization/day treatment	17	7.7	45	0.1
Outpatient	189	85.9	71,412	97.0
Total			73,599	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	17	25
Number of clients ²	780	1,341
Number of designated beds	1,147	1,851

2022 Substance Use Treatment Services State Profile—Texas

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Texas included 522 substance use treatment facilities and reported 34,805 clients in substance use treatment on March 31, 2022. The survey response rate in Texas was 88.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	262	50.2	20,495	58.9	371	16.4
Private non-profit organization	170	32.6	8,838	25.4	627	27.8
State government	21	4.0	1,175	3.4	108	4.8
Local, county, or community government	48	9.2	2,507	7.2	1,152	51.0
Tribal government	1	0.2	25	0.1	—	—
Federal government	18	3.4	1,750	5.0	—	—
Total	522	100.0	34,805	100.0	2,258	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	272	74.1	8,461	25.1	28	7,912	25.2	35
Only alcohol	238	64.9	3,873	11.5	13	3,706	11.8	16
Only substances other than alcohol	317	76.6	21,407	63.4	71	19,841	63.1	88
Total	367		33,741	100.0	112	31,459	100.0	139

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	78	30
Number of clients ²	2,528	1,236
Number of designated beds	3,602	1,266
Utilization rate ³	70.2	97.6
Average number of designated beds per facility	46	42

¹Excludes facilities not reporting number of beds.²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.**Type of Care**

2022 Mental Health Services State Profile—Texas

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Texas included 321 mental health treatment facilities and reported 85,425 clients in mental health treatment on March 31, 2022. The survey response rate in Texas was 65.0 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	70	21.8
Private non-profit organization	126	39.3
State government	39	12.1
Local, county, or community government	58	18.1
Tribal government	—	—
Federal government	27	8.4
Total	321	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	62	19.3	3,672	4.3
24-hour residential	38	11.8	1,482	1.7
Partial hospitalization/day treatment	73	22.7	196	0.2
Outpatient	272	84.7	80,271	94.0
Total			85,425	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	26	50
Number of clients ²	1,472	3,657
Number of designated beds	1,747	4,387
Utilization rate ³	84.3	83.4
Average number of designated beds per facility	67	88

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Utah

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Utah included 296 substance use treatment facilities and reported 23,672 clients in substance use treatment on March 31, 2022. The survey response rate in Utah was 92.5 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	191	64.5	10,822	45.7	438	40.6
Private non-profit organization	77	26.0	9,366	39.6	451	41.8
State government	—	—	—	—	—	—
Local, county, or community government	25	8.4	3,413	14.4	190	17.6
Tribal government	3	1.0	71	0.3	—	—
Federal government	—	—	—	—	—	—
Total	296	100.0	23,672	100.0	1,079	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	206	90.7	9,228	39.8	273	8,710	39.4	356
Only alcohol	167	73.6	3,103	13.4	92	3,006	13.6	123
Only substances other than alcohol	182	95.1	10,838	46.8	321	10,363	46.9	423
Total	223		23,169	100.0	685	22,079	100.0	901

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

2022 Mental Health Services State Profile—Utah

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Utah included 196 mental health treatment facilities and reported 25,957 clients in mental health treatment on March 31, 2022. The survey response rate in Utah was 76.9 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	98	50.0
Private non-profit organization	66	33.7
State government	3	1.5
Local, county, or community government	28	14.3
Tribal government	1	0.5
Federal government	—	—
Total	196	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	17	8.7	1,070	4.1
24-hour residential	48	24.5	900	3.5
Partial hospitalization/day treatment	65	33.2	165	0.6
Outpatient	165	84.2	23,987	92.4
Total			25,957	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	30	14
Number of clients ²	910	1,070
Number of designated beds	1,223	713
Utilization rate ³	74.4	150.1
Average number of designated beds per facility	41	51

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Vermont

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Vermont included 45 substance use treatment facilities and reported 7,210 clients in substance use treatment on March 31, 2022. The survey response rate in Vermont was 86.5 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	14	31.1	2,894	40.1	18	34.0
Private non-profit organization	27	60.0	3,831	53.1	35	66.0
State government	2	4.4	164	2.3	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	—	—	—	—	—	—
Federal government	2	4.4	321	4.5	—	—
Total	45	100.0	7,210	100.0	53	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	26	83.9	1,535	24.1	237	1,517	24.1	285
Only alcohol	26	83.9	763	12.0	118	751	11.9	141
Only substances other than alcohol	29	88.0	4,063	63.9	628	4,038	64.0	759
Total	31		6,361	100.0	983	6,306	100.0	1,185

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient

2022 Mental Health Services State Profile—Vermont

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Vermont included 58 mental health treatment facilities and reported 6,274 clients in mental health treatment on March 31, 2022. The survey response rate in Vermont was 74.7 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	4	6.9
Private non-profit organization	46	79.3
State government	2	3.4
Local, county, or community government	1	1.7
Tribal government	—	—
Federal government	5	8.6
Total	58	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	4	6.9	105	1.7
24-hour residential	22	37.9	291	4.6
Partial hospitalization/day treatment	10	17.2	4	0.1
Outpatient	41	70.7	5,878	93.7
Total			6,274	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	17	4
Number of clients ²	291	105
Number of designated beds	217	117
Utilization rate ³	134.1	89.7
Average number of designated beds per facility	13	29

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Virginia

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Virginia included 309 substance use treatment facilities and reported 36,490 clients in substance use treatment on March 31, 2022. The survey response rate in Virginia was 92.1 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	165	53.4	20,995	57.5	299	14.2

2022 Mental Health Services State Profile—Virginia

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Virginia included 222 mental health treatment facilities and reported 28,650 clients in mental health treatment on March 31, 2022. The survey response rate in Virginia was 69.0 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	69	31.1
Private non-profit organization	56	25.2
State government	7	3.2
Local, county, or community government	81	36.5
Tribal government	—	—
Federal government	8	3.6
Total	222	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	39	17.6	1,534	5.4
24-hour residential	34	15.3	707	2.5
Partial hospitalization/day treatment	21	9.5	147	0.5
Outpatient	176	79.3	26,409	92.2
Total			28,650	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	21	31
Number of clients ²	706	1,520
Number of designated beds	912	1,722
Utilization rate ³	77.4	88.3
Average number of designated beds per facility	43	56

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Washington National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Washington included 385 substance use treatment facilities and reported 41,259 clients in substance use treatment on March 31, 2022. The survey response rate in Washington was 78.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	128	33.2	12,219	29.6	78	2.3
Private non-profit organization	203	52.7	22,396	54.3	2,792	82.6
State government	7	1.8	294	0.7	152	4.5
Local, county, or community government	17	4.4	2,365	5.7	30	0.9
Tribal government	24	6.2	2,490	6.0	307	9.1
Federal government	6	1.6	1,495	3.6	20	0.6
Total	385	100.0	41,259	100.0	3,379	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	245	89.4	13,563	32.3	174	11,965	31.0	195
Only alcohol	206	75.2	7,338	17.5	94	6,661	17.3	108
Only substances other than alcohol	210	66.7	21,053	50.2	270	19,954	51.7	325
Total	274		41,954	100.0	539	38,580	100.0	628

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

2022 Mental Health Services State Profile—Washington

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Washington included 259 mental health treatment facilities and reported 49,118 clients in mental health treatment on March 31, 2022. The survey response rate in Washington was 67.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	40	15.4
Private non-profit organization	196	75.7
State government	5	1.9
Local, county, or community government	13	5.0
Tribal government	—	—
Federal government	5	1.9
Total	259	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	28	10.8	861	1.8
24-hour residential	38	14.7	617	1.3
Partial hospitalization/day treatment	22	8.5	18	*
Outpatient	219	84.6	47,640	97.0
Total			49,118	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	26	24
Number of clients ²	617	853
Number of designated beds	723	1,109
Utilization rate ³	85.3	76.9
Average number of designated beds per facility	28	46

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Facility Type		
	Facilities	
	N	%
Psychiatric hospital	14	5.4
Separate inpatient psychiatric unit of a general hospital	10	3.9

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, West Virginia included 139 substance use treatment facilities and reported 21,427 clients in substance use treatment on March 31, 2022. The survey response rate in West Virginia was 94.0 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	39	28.1	7,821	36.5	76	8.5
Private non-profit organization	96	69.1	12,690	59.2	817	91.5
State government	1	0.7	40	0.2	—	—
Local, county, or community government	—	—	—	—	—	—
Tribal government	—	—	—	—	—	—
Federal government	3	2.2	876	4.1	—	—
Total	139	100.0	21,427	100.0	893	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	73	71.6	5,378	25.2	303	5,016	24.5	352
Only alcohol	70	68.6	2,428	11.4	137	2,191	10.7	154
Only substances other than alcohol	97	95.1	13,535	63.4	762	13,240	64.8	930
Total	101		21,341	100.0	1,202	20,447	100.0	1,437

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	25	6
Number of clients ²	438	96
Number of designated beds	534	169
Utilization rate ³	82.0	56.8
Average number of designated beds per facility	21	28

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

Type of Care

	Clients in treatment on March 31, 2022							
	Facilities		All Clients				Clients under the age of 18 years	
			Median number of clients ¹

2022 Mental Health Services State Profile—West Virginia

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, West Virginia included 109 mental health treatment facilities and reported 13,075 clients in mental health treatment on March 31, 2022. The survey response rate in West Virginia was 77.0 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	5	4.6
Private non-profit organization	100	91.7
State government	2	1.8
Local, county, or community government	—	—
Tribal government	—	—
Federal government	2	1.8
Total	109	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	13	11.9	542	4.1
24-hour residential	21	19.3	298	2.3
Partial hospitalization/day treatment	6	5.5	133	1.0
Outpatient	88	80.7	12,235	93.6
Total			13,075	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	12	11
Number of clients ²	180	529
Number of designated beds	207	609
Utilization rate ³	87.0	86.9
Average number of designated beds per facility	17	55

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Wisconsin National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Wisconsin included 247 substance use treatment facilities and reported 27,868 clients in substance use treatment on March 31, 2022. The survey response rate in Wisconsin was 87.4 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	115	46.6	12,301	44.1	396	50.7
Private non-profit organization	87	35.2	7,416	26.6	224	28.7
State government	1	0.4	5	*	2	0.3
Local, county, or community government	35	14.2	3,734	13.4	158	20.2
Tribal government	6	2.4	341	1.2	1	0.1
Federal government	3	1.2	4,071	14.6	—	—
Total	247	100.0	27,868	100.0	781	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	167	90.8	8,037	29.7	136	7,669	29.1	165
Only alcohol	148	80.4	5,873	21.7	100	5,681	21.6	122
Only substances other than alcohol	162	88.0	13,192	48.7	224	12,996	49.3	280
Total	184		27,102	100.0	460	26,346	100.0	567

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	31	11
Number of clients ²	1,001	1,215
Number of designated beds	663	244
Utilization rate ³	151.0	498.0
Average number of designated beds per facility	21	22

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated bed)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Mental Health Services State Profile—Wisconsin National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Wisconsin included 246 mental health treatment facilities and reported 29,982 clients in mental health treatment on March 31, 2022. The survey response rate in Wisconsin was 64.9 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	60	24.4
Private non-profit organization	124	50.4
State government	2	0.8
Local, county, or community government	39	15.9
Tribal government	4	1.6
Federal government	16	6.5
Total	246	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	27	11.0	1,139	3.8
24-hour residential	13	5.3	369	1.2
Partial hospitalization/day treatment	30	12.2	253	0.8
Outpatient	227	92.3	28,474	95.0
Total			29,982	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	10	21
Number of clients ²	369	1,075
Number of designated beds	536	743
Utilization rate ³	68.8	144.7
Average number of designated beds per facility	54	35

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—Wyoming

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Wyoming included 56 substance use treatment facilities and reported 3,820 clients in substance use treatment on March 31, 2022. The survey response rate in Wyoming was 91.9 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%
Private for-profit organization	12	21.4	297	7.8	100	30.2
Private non-profit organization	34	60.7	1,677	43.9	82	24.8
State government	—	—	—	—	—	—
Local, county, or community government	7	12.5	1,638	42.9	141	42.6
Tribal government	1	1.8	25	0.7	8	2.4
Federal government	2	3.6	183	4.8	—	—
Total	56	100.0	3,820	100.0	331	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Clients in Treatment for Substance Use Disorders

	Clients in treatment on March 31, 2022							
	Facilities ¹		All Clients ²			Clients aged 18 years and older		
	N	%	N	%	Clients per 100,000 population ³	N	%	Clients per 100,000 population aged 18 years and older ³
Both alcohol and substances other than alcohol	42	97.7	1,438	37.7	247	1,275	36.6	283
Only alcohol	34	79.1	885	23.2	152	837	24.0	185
Only substances other than alcohol	34	79.1	1,490	39.1	256	1,370	39.3	304
Total	42		3,813	100.0	656	3,482	100.0	772

¹Numbers of facilities may sum to more than the total, and percentages may sum to more than 100 percent, because facilities may be included in more than one category.

²States report substance use problem treated in terms of percentages of clients, from which the numbers of clients in this table are derived; their sum may not agree with the total due to rounding.

³Rate per 100,000 population and rate per 100,000 population aged 18 years and older were calculated using 2022 population estimates from the [U.S. Census Bureau](https://www.census.gov).

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	10	4
Number of clients ²	434	71

2022 Mental Health Services State Profile—Wyoming

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

In the 2022 N-SUMHSS, Wyoming included 34 mental health treatment facilities and reported 2,648 clients in mental health treatment on March 31, 2022. The survey response rate in Wyoming was 73.2 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	2	5.9
Private non-profit organization	26	76.5
State government	1	2.9
Local, county, or community government	3	8.8
Tribal government	—	—
Federal government	2	5.9
Total	34	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	5	14.7	168	6.3
24-hour residential	10	29.4	171	6.5
Partial hospitalization/day treatment	2	5.9	15	0.6
Outpatient	30	88.2	2,309	87.2
Total			2,648	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	4	5
Number of clients ²	155	168
Number of designated beds	116	275
Utilization rate ³	133.6	61.1
Average number of designated beds per facility	29	55

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

2022 Substance Use Treatment Services State Profile—U.S. Territories National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on substance use treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

The U.S. territories and other jurisdictions presented in this profile consist of data from Guam, the Commonwealth of the Northern Mariana Islands, Republic of Palau, and the U.S. Virgin Islands. This profile does not include data for the District of Columbia and Puerto Rico. In the 2022 N-SUMHSS, these U.S. territories and other jurisdictions included, 8 substance use treatment facilities and reported a total of 690 clients in substance use treatment on March 31, 2022. The survey response rate in these U.S. territories and other jurisdictions, combined was 100.0 percent.

Facility Operation

	Clients in treatment on March 31, 2022					
	Facilities		All clients		Clients under the age of 18 years	
	N	%	N	%	N	%

2022 Mental Health Services State Profile—U.S. Territories

National Substance Use and Mental Health Services Survey (N-SUMHSS)

The Substance Abuse and Mental Health Services Administration's (SAMHSA) National Substance Use and Mental Health Services Survey (N-SUMHSS) is a survey of substance use and mental health treatment facilities in the United States. In 2022, SAMHSA combined the National Survey of Substance Abuse Treatment Services (N-SSATS) and National Mental Health Services Survey (N-MHSS) into the N-SUMHSS to reduce the burden on facilities offering both substance use and mental health services, optimize government resources to collect data, and enhance the quality of data collected on the treatment facilities. This section of the state profile provides data on mental health treatment facilities' characteristics, services offered, client numbers and a mapping of treatment facility locations within the state. For more information on N-SUMHSS, please visit: <https://www.samhsa.gov/data/data-we-collect/n-sumhss-national-substance-use-and-mental-health-services-survey>

The U.S. territories and other jurisdictions presented in this profile consist of data from American Samoa, Guam, Northern Mariana Islands, and the U.S. Virgin Islands. This profile does not include data for the District of Columbia and Puerto Rico. In the 2022 N-SUMHSS, these U.S. territories and other jurisdictions included 10 mental health treatment facilities and reported a total of 2,076 clients in mental health treatment on March 31, 2022. The survey response rate in these U.S. territories and other jurisdictions, combined was 60.0 percent.

Facility Operation

	Facilities	
	N	%
Private for-profit organization	—	—
Private non-profit organization	1	10.0
State government	6	60.0
Local, county, or community government	2	20.0
Tribal government	—	—
Federal government	1	10.0
Total	10	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Service Setting

	Facilities		Clients in treatment on March 31, 2022	
	N	%	N	%
24-hour hospital inpatient	2	20.0	17	0.8
24-hour residential	1	10.0	—	—
Partial hospitalization/day treatment	1	10.0	2	0.1
Outpatient	10	100.0	2,059	99.2
Total			2,076	100.0

Note: The number of facilities sums to more than the total, and percentages of facilities sum to more than 100 percent, because a facility may offer mental health treatment in more than one service setting. Percentages of clients may not sum to 100 percent due to rounding.

Facility Capacity and Utilization Rate¹

	Residential	Hospital inpatient
Number of facilities	—	1
Number of clients ²	—	17
Number of designated beds	—	32
Utilization rate ³	—	53.1
Average number of designated beds per facility	—	32

¹Excludes facilities not reporting number of beds.

²Number of clients was calculated using the unrolled client counts on March 31, 2022 for accuracy. Please refer to the [2022 N-SUMHSS Annual Report](#) for details on unrolling client counts.

³Utilization rate=(Number of clients/number of designated beds)*100. Because clients may also occupy non-designated beds, utilization rate may exceed 100 percent.

For a symbol key, see the last page of this state mental health treatment services profile.

Facility Type	Facilities	
	N	%
Psychiatric hospital	—	—
Separate inpatient psychiatric unit of a general hospital	1	10.0
State hospital	—	—
Residential treatment center for children	—	—
Residential treatment center for adults	1	10.0
Other type of residential treatment facility	—	—
Veterans Affairs Medical Center (VAMC) or other VA healthcare facility	—	—
Community Mental Health Center (CMHC)	—	—
Certified Community Behavioral Health Clinic (CCBHC)	1	10.0
Partial hospitalization/day treatment facility	—	—
Outpatient mental health facility	4	40.0
Multi-setting mental health facility	—	—
Other	3	30.0
Total	10	100.0

Note: Percentages may not sum to 100 percent due to rounding.

Facility Licensing, Certification, or Accreditation		
	N	%
Any listed agency/organization	8	80.0
State mental health authority	5	50.0
State substance use treatment agency	4	40.0
State department of health	5	50.0
State or local Department of Family and Children's Services	—	—
Hospital licensing authority	—	—
The Joint Commission	2	20.0
Commission on Accreditation of Rehabilitation Facilities (CARF)	1	10.0
Council on Accreditation (COA)	—	—
Centers for Medicare and Medicaid Services (CMS)	2	20.0
Other national organization or federal, state, or local agency	2	20.0
No licensing, certification, or accreditation	1	10.0

Note: Facilities may be licensed by more than one agency/organization.

Facility Payment Options

	N	%
Cash or self-payment	6	60.0
Private health insurance	5	50.0
Medicare	4	40.0
Medicaid	6	60.0
State-financed health insurance plan other than Medicaid	—	—
State mental health agency (or equivalent) funds	2	20.0
State welfare or child and family services agency funds	—	—
State corrections or juvenile justice agency funds	1	10.0
State education agency funds	—	—
Other state government funds	—	—
County or local government funds	1	10.0

Community Mental Health Block Grants	3	30.0
Federal grants	1	10.0
Federal military insurance	—	—
U.S. Department of Veterans Affairs funds	1	10.0
IHS/Tribal/Urban (ITU) funds	—	—
Private or community foundation funds	—	—
Other	1	10.0

Note: Facilities may accept more than one type of payment.

Treatment Approaches

	Facilities	
	N	%
Individual psychotherapy	9	90.0
Couples/family therapy	8	80.0
Group therapy	10	100.0
Cognitive behavioral therapy	10	100.0
Dialectical behavior therapy	1	10.0
Cognitive remediation therapy	—	—
Integrated mental and substance use disorder treatment	7	70.0
Activity therapy	5	50.0
Electroconvulsive therapy	—	—
Transcranial Magnetic Stimulation (TMS)	—	—
Ketamine Infusion Therapy (KIT)	—	—
Eye movement desensitization and reprocessing (EMDR) therapy	—	—
Telemedicine/telehealth therapy	4	40.0
Abnormal Involuntary Movement Scale (AIMS) Test	2	20.0
Other	—	—
None of these mental health treatment approaches are offered	—	—

Note: Facilities may be licensed by more than one type of treatment approach.

Crisis Intervention Team

	N	%
Within facility and/or offsite	7	70.0
No crisis intervention team	3	30.0

Note: Percentages may not sum to 100 percent due to the facilities not responding to the question.

Services in Sign Language for the Deaf and Hard-of-Hearing and in Languages Other than English

	N	%
Sign language	1	10.0
Any language other than English	9	90.0

Languages provided by staff counselor¹

Spanish	3	30.0
American Indian/Alaska Native languages	—	—
All other languages	3	30.0

¹Numbers and percentages are based on facilities that provide language services through a staff counselor, either exclusively or in conjunction with on-call interpreters.

Supportive Services and Practices

	N	%
Assertive community treatment (ACT)	3	30.0
Intensive case management (ICM)	6	60.0
Case management (CM)	10	100.0
Court-ordered treatment	9	90.0
Assisted Outpatient Treatment (AOT)	1	10.0
Chronic disease/illness management (CDM)	5	50.0
Illness management and recovery (IMR)	7	70.0
Integrated primary care services	6	60.0
Diet and exercise counseling	3	30.0
Family psychoeducation	7	70.0
Education services	5	50.0
Housing services	5	50.0
Supported housing	5	50.0
Psychosocial rehabilitation services	8	80.0
Vocational rehabilitation services	1	10.0
Supported employment	4	40.0
Therapeutic foster care	—	—
Legal advocacy	2	20.0
Psychiatric emergency walk-in services	6	60.0
Suicide prevention services	10	100.0
Peer support services	3	30.0
Hepatitis B Testing (HBV)	2	20.0
Hepatitis C Testing (HCV)	1	10.0
Laboratory testing	3	30.0
Metabolic syndrome monitoring	4	40.0
HIV testing	2	20.0
STD testing	2	20.0
TB screening	2	20.0
Screening for tobacco use	7	70.0
Smoking/vaping/tobacco cessation counseling	2	20.0
Nicotine replacement therapy	1	10.0
Non-nicotine smoking/tobacco cessation medications (by prescription)	1	10.0
Other	—	—
None of these services and practices are offered	—	—

Note: Facilities may provide more than one supportive service or practice.

Dedicated or Exclusively Designed Programs or Groups

	N	%
Children/adolescents with serious emotional disturbance (SED)	6	60.0
Young adults	3	30.0
Persons 18 years and older with serious mental illness (SMI)	7	70.0
Older adults	3	30.0
Persons with Alzheimer's or dementia	—	—
Persons with co-occurring mental and substance use disorders	7	70.0
Persons with eating disorders	—	—
Persons experiencing first-episode psychosis	1	10.0
Persons who have experienced intimate partner violence, domestic violence	—	—
Persons with a diagnosis of post-traumatic stress disorder (PTSD)	5	50.0
Persons who have experienced trauma	6	60.0
Persons with traumatic brain injury (TBI)	1	10.0
Veterans	5	50.0
Active duty military	—	—
Members of military families	3	30.0
LGBTQ clients ¹	4	40.0
Forensic clients ²	5	50.0
Persons with HIV or AIDS	3	30.0
Other special program or group	1	10.0
No dedicated or exclusively designed programs or groups are offered	—	—

¹LGBTQ = Lesbian, gay, bisexual, transgender, or queer/questioning.²Referred from the court/judicial system.**Age Groups Served**

	N	%
All age categories ¹	3	30.0
Young children (0–5)	3	30.0
Children (6–12)	7	70.0
Adolescents (13–17)	8	80.0
Young adults (18–25)	10	100.0
Adults (26–64)	10	100.0
Older Adults (65 or older)	10	100.0

Note: Percentages sum to more than 100 percent, because a facility may accept clients from more than one age group.

¹This constructed variable includes facilities that accept all of the following: young children (5 years or younger), children (6–12 years), adolescents (13–17 years), young adults (18–25 years), adults (26–64 years), and older adults (65 years or older).**Client Characteristics**

	N	%
Diagnosed co-occurring mental and substance use disorders ¹	344	16.6
Military veterans ²	131	6.3

¹Estimated number and percent of mental health treatment clients on March 31, 2022.²Estimated number and percent of mental health treatment admissions from April 1, 2021, to March 31, 2022, who were military veterans.

Data in this profile are from mental health treatment facilities that reported to the N-SUMHSS and are based on the survey's reference date, March 31, 2022.
