

2022 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of their application package for SAMHSA's Community Mental Health Block Grant. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 21 tables that are developed by SAMHSA in consultation with SMHAs. The 2022 URS Output Tables present findings from 59 states and U.S. territories. Each output table provides summary information on the SMHA clients served in 2022: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, insurance status, living situation, employment status, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2022, 8,180,236 clients received SMHA services from 59 states and U.S. territories. This is a decrease from 8,195,517 SMHA clients in 2021. There were 5,965,872 adults (or 23.1 per 1,000), 2,197,002 children (or 29.9 per 1,000) served. About 17,362 (0.2 percent) clients were missing age data.
- Among SMHA clients, there were 4,394,191 (53.7 percent) females served while there were 3,730,939 (45.6 percent) males served. In 27 states and U.S. territories, more SMHA males were served than females, while in 32 states and U.S. territories, more SMHA females were served.
- The age distribution among SMHA clients was the largest among ages 25-44 with 33.0 percent, followed by ages 45-64 with 22.8 percent, children ages 0-12 with 14.2 percent, and children ages 13-17 with 12.7 percent.
- The highest percentage of SMHA clients that were served was among the White population with 57.9 percent, followed by Black or African Americans with 17.4 percent. SMHA clients served were 15.8 percent Hispanic and 74.5 percent non-Hispanic.

Oregon 2022 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 population	8,180,236	40.43	24.37	59
Community Utilization per 1,000 population	7,900,059	38.18	23.53	59

This table uses data from URS Table 2a, Table 2b and from the U.S. Census Bureau. All denominators for penetration rates use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Note:

This table uses data from URS Table 14a, Table 14b and from the U.S. Census Bureau. All denominators use the U.S. Census data from 2021.

U.S. totals are calculated uniquely for each data element based on only those states who reported clients served.

The penetration rates for 'Other' gender as well as Age, Gender, Race and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 14a

Age	Age computed as of the mid of the reporting period.
Gender	None
Race	Unknown races include those who reported their race as 'Other' and 'Hispanic'
Overall	We identify SMI/SED status using a set of ICD-10 diagnosis codes and the number of individuals reported with these statuses depends on the distribution of the codes which is random and can fluctuate unpredictably.

Table 14b

Age	Age computed as of the mid of the reporting period.
Gender	None
Race	None
Overall	None

ACCESS DOMAIN: Adults with SMI and Children with SED Served in Community Mental Health Programs by Age and Gender, FY 2022

	Age NA	-	-	-	37,411	11,454	3,577	-	10.46	17

Note:

Admission Rate= number of admissions divided by total served during the year.

U.S. Admissions During Year uses data from states reporting data only. States are only included in "U.S. Total Served" if they also reported data on admissions.

U.S. Total Served During Year is calculated using data in URS Table 3.

This table uses data from URS Tables 3 and 6.

State Notes:

Table 3

Age	None
Gender	None
Overall	State psychiatric patients are lower because civil commitments are no longer admitted to state hospital and residential clients are higher because youth residential clients are included this year.

Table 6

Hospitals	Admissions to state hospital increased due to increased forensic cases. Average LOS for those who stayed < a year decreased due to purposive moving those who stayed longer.
Other Inpatient	There are no patients who stayed for over a year.
Residential	There are no admission and discharge dates so we did not compute los and median.
Community	None
Overall	None

APPROPRIATENESS DOMAIN: Length of Stays in State Psychiatric Hospitals, Other Psychiatric Inpatient Settings, and Residential Treatment Centers, FY 2022

	Age NA	-	-	-	-	-	-	24	26	-	-	-	-	-

Note:

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

State Notes:

State Psychiatric Hospitals Admissions to state hospital increased due to increased forensic cases. Average LOS for those who stayed < a year decreased due to purposive moving those who stayed longer.

Other Psychiatric Inpatient There are no patients who stayed for over a year.

Residential Treatment Centers There are no admission and discharge dates so we did not compute los and median.

Overall None

APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition for SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring MH/SU Disorders, FY 2022

Oregon

Reporting Period: 1/1/2021 To: 12/31/2021

Adults and Children who meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	-	69.7%	74.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	-	69.0%	74.0%	57

Co-occurring MH and Substance Use Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring MH and SU disorder	30.0%	26.4%	22.5%	56
Percent of Children served through the SMHA who had a co-occurring MH and SU disorder	5.0%	5.7%	2.5%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	-	29.8%	24.0%	56
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	-	10.5%	3.0%	56

Note:

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

Individuals who received treatment for both MH and SUD within 90 days of each other. This definition does not match federal definition so no %s are provided in 3.b.1 and 3.b.2 above.

State Notes:

Note:

U.S. totals are based on states reporting.

This table uses data from URS Table 15.

U.S. totals are calculated uniquely for each data element based on only those states who reported numerator (clients served) data.

State Notes:

Housing data this year are pulled from MMIS, not from MOTS which was not as accessible. Private residence increased as we assume all those without specified residence are private and homeless indicators are fewer than they would be in MOTS.

What populations are reported? All Clients Number of States Reporting All Clients: 34 Number of States Reporting Some Clients: 12

When is Employment Status Measured?	At Admission	At Discharge	Monthly	Quarterly	Other
OR	Yes	-	-	-	-
US	35	19	3	8	19

Note:

*In Labor Force is the sum of consumers employed and unemployed.

**With Known Employment Status is the sum of consumers employed, unemployed and not in labor force.

Consumers employed as a % of those in labor force uses adults employed and unemployed as the denominator.

Consumers employed as a % of known employment status uses the sum of persons employed, unemployed and not in labor force as the denominator.

This table uses data from URS Table 4.

State Notes:

Age None
Gender None
Overall MOTS database- the primary source of employment data is in transition to a different platform and the number of records pulled from the new platform were much lower than expected affecting numbers of employed, unemployed, and not in the labor force.

OUTCOMES DOMAIN: Employment Status of Adult Mental Health Consumers Served in the Community by Diagnosis, FY 2022

Forensics included in "non forensic" data? No

Note:

U.S. totals are based on states reporting.

This table uses data from URS Tables 20a and 20b.

State Notes:

Civil patients now receive treatment in community setting to vacate beds for forensic ones.

General Notes FY 2022

Oregon

URS Table Number	General Notes
14A	We identify SMI/SED status using a set of ICD-10 diagnosis codes and the number of individuals reported with these statuses depends on the distribution of the codes which is random and can fluctuate unpredictably.
