

## 2024 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of SAMHSA's Community Mental Health Services Block Grant Report requirements. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 25 tables that are developed by SAMHSA in consultation with SMHAs. The 2024 URS Output Tables present findings from 59 states and U.S. territories.

Each output table provides summary information on the SMHA clients served in 2024: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, Medicaid funding status, living situation, employment status, crisis response services, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2024, 7,945,185 clients received SMHA services from 59 states and U.S. territories/jurisdictions. This is a reduction from 8,220,399 clients served by the SMHAs in 2023.\*
- There were 5,730,557 adults (or 21.9 per 1,000), 2,212,116 children (or 30.4 per 1,000) served. Age data was missing for 2,512 (<0.1 percent) clients served.
- Among SMHA clients, there were 4,165,971 (52.4 percent) females served while there were 3,684,256 (46.4 percent) males served. In most states (38), more females were served than males, and in the remaining states (21), more males were served than females.
- The age distribution of SMHA clients served was the largest among ages 25-44 with 33.2 percent, followed by ages 45-64 with 21.7 percent, children ages 13-17 with 12.9 percent, and children ages 6-12 with 12.2 percent.
- Over half of SMHA clients served were White, comprising the largest racial category at 56.0 percent; Black or African American clients comprised the next largest group with 17.6 percent. Race data was missing for 12.5 percent of clients served. When looking at ethnicity, the majority of SMHA clients served were non-Hispanic (67.8 percent), while 15.1 percent were Hispanic.

\* In 2024, some States indicated a range of issues leading to decreased reporting.

## Arizona 2024 Mental Health National Outcome Measures (NOMS): SAMHSA Uniform Reporting System

Utilization Rates/Number of Consumers Served	U.S.	State	U.S. Rate	States
Penetration Rate per 1,000 Population	7,945,185	70.08	23.46	59
Community Utilization per 1,000 Population	7,710,249	65.89	22.77	59
State Hospital Utilization per 1,000 Population	116,320	0.03	0.34	54
Other Psychiatric Inpatient Utilization per 1,000 Population	366,246	0.97	1.24	43

Adult Employment Status	U.S.	State	U.S. Rate	States
Employed (Percent in Labor Force)*	836,862	47.0%	53.6%	59

**Notes:**

Are Client Counts Unduplicated? Unduplicated Number of States with Unduplicated Counts 48

This table uses data from URS Table 2A, Table 2B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2023-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

The penetration rates for Some Other Race, as well as Age, Sex, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

**State Notes:****Table 2A**

Age Age is defined as the age at first service in the report period.  
 Sex None  
 Race None  
 Overall None

**Table 2B**

Age None  
 Sex None  
 Ethnicity AZ does not collect Hispanic as Ethnicity. It is collected under the same field as Race.  
 Overall None

**Notes:**

This table uses data from URS Table 14A, Table 14B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2023-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.  
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

The penetration rates for Some Other Race, as well as Age, Sex, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

State Notes:

Table 14A	
Age	Age is defined as the age at first service in the report period.
Sex	None
Race	None
Overall	Persons with SMI or SED were identified using ICD-10 diagnosis, based on a diagnosis list provided by our medical coding team and may not reflect other state reports that include persons with SMI or SED.
Table 14B	
Age	None
Sex	None
Ethnicity	AZ does not collect Hispanic as Ethnicity. It is collected under the same field as Race.
Overall	None

## Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 14C and from U.S. Census Bureau. All denominators for penetration rates use the SC-EST2023-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. penetration rates are calculated uniquely for each data element based on only those states that reported numerator (clients served) data.

The penetration rates for Age Not Available and Sex Not Available are not reported on this table because the U.S. Census data does not include these categories.

## State Notes:

Age	Age is defined as the age at first service in the report period.
Sex	None
Overall	Persons with SMI or SED were identified using ICD-10 diagnosis, based on a diagnosis list provided by our medical coding team and may not reflect other state reports that include persons with SMI or SED.

**Notes:**

This table uses data from URS Table 3 and 6.

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

**Table 3 State Notes:**

Age Age is defined as the age at first service in the report period.  
Sex None  
Overall None

**Table 6 State Notes:**

## **Notes:**

U.S. figures are based on states reporting.

This table uses data from URS Table 15.

U.S. totals are calculated uniquely for each data element based on only those states that reported numerator (clients served) data.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

## **State Notes:**

See General Comments.

## General Notes, FY 2024

### Arizona

URS Table Number	General Notes
2A	The diagnoses and services codes used for this report were updated, which resulted in an increase in populations and claims included in this report. This update created increased across various tables in this report, including our total number of consumers. Also Race is a self-reported field in our system, which tends to shift year to year.
2B, 5B, 14B	AHCCCS has created a workgroup to address the data requirements for the URS tables, with a focus on the data elements that the state does not currently report on in order to evaluate capacity of reporting these data elements in the future.
3, 5A	The diagnoses and services codes used for this report were updated, which resulted in an increase in the populations and claims included in this report. This update created increases across various tables in this report.
7A	AHCCCS cannot populate the expenditures by the requested "Activity" columns, but can provide the SFY2024 Behavioral Health Report. For COVID-19, ARP, and BSCA funds, AHCCCS cannot report the expenditures for Other 24-Hour Care (Residential Care) and Ambulatory/Community Non-24-Hour Care. The SFY2024 Behavioral Health report can be found on the AHCCCS website ( <a href="https://www.azahcccs.gov/shared/Downloads/Reporting/2025/AHCCCS_FY24_BH_ProgrammaticExpenditureReport.pdf">https://www.azahcccs.gov/shared/Downloads/Reporting/2025/AHCCCS_FY24_BH_ProgrammaticExpenditureReport.pdf</a> ).
7B	<p>Arizona is unable to report expenditures in the Table 7B Activity categories from the Statewide Accounting System; however, the total annual expenditures for First Episode Psychosis (FEP) in SFY 2024 was \$3,725,193, ARPA \$308,342, BSCA \$1,231 and CRRSAA \$1,289,678.</p> <p>AHCCCS has created a workgroup to address the data requirements for the URS tables, with a focus on the data elements that the state does not currently report on in order to evaluate capacity of reporting these data elements in the future.</p>
7C	<p>Arizona has historically reported that the state cannot break out reporting for URS Table 7C due to the state's braided funding model. AHCCCS has worked with contracted health plans, with Regional Behavioral Health agreements, and AHCCCS Complete Care contracts to collect expenditure data to meet the reporting structure requested by URS Table 7C for this reporting period.</p> <p>Crisis services were not reported by individual category in the financial statements for the ALTCS line of business or AZ Tribes; their totals were proportionally treated across the three crisis categories.</p> <p>MHBG funds for Call Centers: Includes RBHA reported funds for statewide call center from MHBG and direct MHBG contract to the call center for local crisis text and chat services.</p> <p>Other funds for Call Centers: Includes funding from 988 State and Territory cooperative agreement and 988 Supplemental funding expended during the reporting period.</p> <p>Total Mental Health Block Grant Funds: Funds are distributed on a cost reimbursement basis and will vary from year to year.</p> <p>Total Other Federal Funds: Increase was due to increased crisis utilization in the Substance Use Block Grant Program.</p> <p>Total State Funds: Increase was due to the allocation of new one-time State General Funds called Health Crisis Review and Wraparound Services Funding. This funding was used to provide support for mental health crisis relief centers that provide short-term supportive housing and peer support.</p> <p>Total Local Funds: Decrease was due to a decreased availability of funds.</p> <p>Total Other Funds: In 2023 the funds reported were from the state's 988 SAMHSA funded grants. The large increase from 2023 was due to Arizona receiving an additional 988 grant from SAMHSA.</p> <p>Total COVID-19 Relief Funds (MHBG): Funds are distributed on a cost reimbursement basis and will vary from year to year.</p> <p>Total ARP Funds (MHBG)/Total BSCA Funds (MHBG): Funds are distributed on a cost reimbursement basis and will vary from year to year.</p> <p>24/7 Mobile Crisis Teams: Funds are distributed on a cost reimbursement basis and will vary from year to year.</p> <p>Training and Technical Assistance: Funds are distributed on a cost reimbursement basis and will vary from year to year.</p> <p>Strategic Planning and Coordination: Funds are distributed on a cost reimbursement basis and will vary from year to year.</p>

URS Table Number	General Notes
8	Arizona does not track administrative expenditures in its Statewide Accounting System in the requested Activity categories. Arizona expended \$\$1,000,088 in MHBG administrative expenses, \$388,725 in MHBG COVID-19 administrative expenses, and \$82,405 in MHBG ARPA administrative expenses in SFY2024.
9, 11, 11A, 19A, 19B	Effective July 1, 2016, the Arizona Department of Health Services/Division of Behavioral Health Services (ADHS/DBHS) merged with the state Medicaid agency (Arizona Health Care Cost Containment System-AHCCCS) as a result of the state's administrative simplification. As part of this process, AHCCCS reviewed all ADHS/DBHS deliverables, including the Member Satisfaction Survey, to understand data methodologies and streamline data sources. AHCCCS continues to evaluate the best method to collect this data from members.
12, 14A, 14B, 16A, 16B, 17	Persons with SMI or SED were identified using ICD-10 diagnosis, based on a diagnosis list provided by our medical coding team and may not reflect other state reports that include persons with SMI or SED. The diagnoses and services codes used for this report were updated, which resulted in an increase in the populations and claims included in this report. This update created increases across various tables in this report.
14A	<a href="https://www.azahcccs.gov/shared/Downloads/MedicalPolicyManual/300/320P.pdf">https://www.azahcccs.gov/shared/Downloads/MedicalPolicyManual/300/320P.pdf</a>
14A	While the diagnoses and services codes used for this report were updated, Race is a self-reported field in our system, which tends to shift year to year. There is a similar change in this population in Table 2A.
15	Arizona does not currently collect this data. Arizona will review their process to initiate a change to capture this data in the future.
16A	AHCCCS requires Managed Care Organizations to develop Fidelity Monitoring programs for the Children's system of care. Additionally, to provide Therapeutic Foster Care, providers must receive training and licensure through the Department of Child Safety, which also includes ongoing annual fidelity monitoring of licensed providers. AHCCCS only permits billing of Multi-Systemic Therapy by providers who have complied with the training and implementation requirements, including ongoing adherence to treatment principles and program implementation review. AHCCCS has not specifically implemented EBP or fidelity monitoring for Family Functional Therapy or the SAMSHA EBP tool kit. AHCCCS is in the process of developing a new fidelity monitoring policy and the implementation date, and specific toolkits that will be required have yet to be determined.
16B	AHCCCS requires Managed Care Organizations to develop Monitoring programs for an integrated system of care but has not specifically implemented EBP fidelity monitoring or the SAMSHA EBP tool kit for Family Psychoeducation, Integrated Treatment for Co-occurring Disorders, Self-Management and Recovery, and Medication Management. AHCCCS is in the process of developing a new fidelity monitoring policy and the implementation date and specific toolkits that will be required have yet to be determined.
16C, 16D	In the current system, there is not a way to identify First Episode Psychosis (FEP) via claims.
20A, 20B, 21	The Arizona State Hospital serves individuals who are under a court order for inpatient psychiatric treatment. The average length of stay for patients currently being served at the Forensic Hospital is approximately six (6) years. The average length of stay for current Civil Hospital patients is approximately four (4) years. Readmission to the Arizona State Hospital is infrequent and would require additional legal proceedings, either through the civil commitment process or criminal court order.
