

2024 Uniform Reporting Summary Output Tables Executive Summary

State Mental Health Agencies (SMHAs) compile and report annual data as part of SAMHSA's Community Mental Health Services Block Grant Report requirements. These compiled data constitute the Uniform Reporting System (URS).

The URS is comprised of 25 tables that are developed by SAMHSA in consultation with SMHAs. The 2024 URS Output Tables present findings from 59 states and U.S. territories.

Each output table provides summary information on the SMHA clients served in 2024: sociodemographic characteristics of clients served, outcomes of care, use of selected evidence-based practices, client assessment of care, Medicaid funding status, living situation, employment status, crisis response services, and readmission to state psychiatric hospitals within 30 and 180 days. Key data highlights are listed below:

- In 2024, 7,945,185 clients received SMHA services from 59 states and U.S. territories/jurisdictions. This is a reduction from 8,220,399 clients served by the SMHAs in 2023.*
- There were 5,730,557 adults (or 21.9 per 1,000), 2,212,116 children (or 30.4 per 1,000) served. Age data was missing for 2,512 (<0.1 percent) clients served.
- Among SMHA clients, there were 4,165,971 (52.4 percent) females served while there were 3,684,256 (46.4 percent) males served. In most states (38), more females were served than males, and in the remaining states (21), more males were served than females.
- The age distribution of SMHA clients served was the largest among ages 25-44 with 33.2 percent, followed by ages 45-64 with 21.7 percent, children ages 13-17 with 12.9 percent, and children ages 6-12 with 12.2 percent.
- Over half of SMHA clients served were White, comprising the largest racial category at 56.0 percent; Black or African American clients comprised the next largest group with 17.6 percent. Race data was missing for 12.5 percent of clients served. When looking at ethnicity, the majority of SMHA clients served were non-Hispanic (67.8 percent), while 15.1 percent were Hispanic.

* In 2024, some States indicated a range of issues leading to decreased reporting.

Notes:

Are Client Counts Unduplicated?UnduplicatedNumber of States with Unduplicated Counts48

This table uses data from URS Table 2A, Table 2B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2023-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

The penetration rates for Some Other Race, as well as Age, Sex, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Notes:

U.S. figures are based on states reporting.

This table uses data from URS tables 5A and 5B.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

Type of Medicaid Data Reported

People served by both includes people with any Medicaid

Notes:

This table uses data from URS Table 14A, Table 14B and from the U.S. Census Bureau. All denominators for penetration rates use the SC-EST2023-ALLDATA6: Annual State Resident Population Estimates for 6 Race Groups by Age, Sex, and Hispanic Origin data from the U.S. Census Bureau.

U.S. totals are calculated uniquely for each data element based on only those states that reported clients served.
The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

The penetration rates for Some Other Race, as well as Age, Sex, Race, and Ethnicity Not Available are not reported on this table because the U.S. Census data does not include these categories.

Regional groupings are based on SAMHSA's Block Grant Regions.

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 17.

States are at different stages of crisis services implementation. In some states, mobile crisis teams are not available 24/7 or statewide and states may staff and operate crisis stabilization programs in different ways.

State Notes:

For Call Centers data, this includes 988 calls, texts and chats answered during SFY 2024, and reported through Vibrant, but also includes regular call centers calls, texts and chats.

Notes:

This table uses data from URS Table 3 and 6.

Admission Rate = number of admissions divided by total served during the year.

US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.

US Total Served During Year is calculated using data in URS Table 3.

Table 3 State Notes:

Notes:

Resident clients are clients who were receiving services in inpatient settings at the end of the reporting period.

This table uses data from URS Table 6.

State Notes:	
State Psychiatric Hospitals	None
Other Psychiatric Inpatient	None
Residential Treatment Centers	None
Overall	None

APPROPRIATENESS DOMAIN: Percent of Adults and Children Served Who Meet the Federal Definition of SMI/SED and Percent of Adults and Children Served Who Have Co-Occurring Mental and Substance Use Disorders, FY 2024

Kentucky

Reporting Period: 7/1/2023 To: 6/30/2024

Adults and Children Who Meet the Federal Definition of SMI/SED	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who meet the Federal definition for SMI	54.0%	72.0%	73.0%	57
Percent of Children served through the SMHA who meet the Federal definition for SED	40.0%	70.9%	77.5%	58

Co-Occurring MH and Substance Use Consumers	State	US Average	US Median	States Reporting
Percent of Adults served through the SMHA who had a co-occurring M/SUD	9.1%	27.4%	25.5%	56
Percent of Children served through the SMHA who had a co-occurring M/SUD	0.3%	3.7%	3.0%	56
Percent of Adults served through the SMHA who met the Federal definitions of SMI who also have a substance use diagnosis	5.1%	26.0%	25.0%	53
Percent of Children served through the SMHA who met the Federal definitions of SED who also have a substance use diagnosis	0.3%	4.6%	3.0%	54

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 12.

How are the number of clients with co-occurring disorders counted and calculated?

These numbers were derived by a requested data report from state data contractor with the number of individuals with both SMI/SUD or SED/SUD served during SFY 2024, compared with the state SMI/SED estimates, utilizing the state's more narrow definitions of SMI/SED.

State Notes:

None

Ethnicity Not Available	68	1.6%	19,736	9.1%	3.1%	3.5%	40

Notes:

U.S. figures are based on states reporting.

This table uses data from URS Table 15.

U.S. totals are calculated uniquely for each data element based on only those states that reported numerator (clients served) data.

The ethnicity categories may not sum to the total number of clients served because some states do not collect and report ethnicity separately from race.

General Notes, FY 2024

Kentucky

URS Table Number	General Notes
3, 4A, 4A	The 139,265 total on Table 3 does include 0-17 in the total, but the 93,386 total on Tables 4 & 4A do not count the ages 0-17.
6	KY does not operate any mental health residential treatment centers.
7A	<p>Total Medicaid Expenditures: Due to the rewinding of Medicaid protocols after COVID, some expenditures were decreased.</p> <p>Total Other Federal Funds Expenditures: Kentucky received more federal grant awards during SFY 2024, thus expended more.</p> <p>Total Other Expenditures: Kentucky received additional funds from other sources and expended more for the jail triage program during SFY 2024.</p> <p>Total Administration Expenditures: During SFY 2024, Kentucky employees received across the board pay increases through legislative action. In addition, due to additional grant awards, additional administrative staff were hired.</p> <p>Total ARP Funds Expenditures: There were more ARP funds allocated and expended during SFY 2024, which was following the state's allocation plans for supplemental block grant funding. As COVID-19 funds were expended, additional Bipartisan & ARP funds were allocated & expended to sustain service delivery to KY residents.</p> <p>Total Other Psychiatric Inpatient Care: Due to a processing issue, there were more expenditures by one of Kentucky's contracted inpatient facilities for the reporting period.</p> <p>Total Bipartisan Safer Communities Funds: The state contracting process can be arduous and more BSCA funding was allocated and expended in SFY 2024. As COVID-19 funds were expended, additional Bipartisan and ARP funds were allocated and expended to sustain service delivery to KY residents.</p>
7B	<p>Total BSCA Funds: The state contracting process can be arduous and more BSCA funding was able to be expended in SFY 2024. As COVID-19 funds were expended, additional Bipartisan & ARP funds were allocated & expended to sustain service delivery to KY residents.</p> <p>Training for CSC Practices: This increase was due to the implementation of a FEP Learning Series and a comprehensive training and coaching effort concerning the Recovery-Oriented Cognitive Therapy model for all CSC teams instituted.</p> <p>Planning for CSC Practices: This increase is attributed to a partnership with a local university to assist with improving fidelity processes for CSC programs.</p>
7C	<p>Total COVID-19 Relief Funds: These expenditures were less due to the winding down of these supplemental funds and expending funds approved by the No Cost Extension.</p> <p>Total ARP Funds: There were more ARP funds allocated and expended during SFY 2024, which was following the state's allocation plans for supplemental block grant funding. As COVID-19 funds were expended additional Bipartisan and ARP funds were allocated and expended to sustain service delivery to KY residents.</p> <p>Total BSCA Funds: The state contracting process can be arduous and more BSCA funding was able to be allocated and expended in SFY 2024. As COVID-19 funds were expended, additional Bipartisan and ARP funds were allocated and expended to sustain service delivery to KY residents.</p> <p>24/7 Mobile Crisis Teams and Crisis Stabilization Programs: Kentucky recently changed its reporting document for these expenditures allowing contracting entities to break down funding more specifically for crisis services. The decreases resulted from having additional services that could be broken out on the reporting form, allowing the contracted entities to be more precise with their reporting.</p> <p>Training and Technical Assistance: These expenditures were more in SFY 2024 due to specific training efforts for crisis call centers on texting and chatting capabilities and specific training efforts regarding adults with SMI and children with SED during natural disasters. Kentucky has been diligently working to increase its capacity to answer 988 calls, texts, and chats. Additional workforce has been onboarded to ensure the state responds to at least 90% of the calls made by state residents. Additional training and technical needs existed to onboard these staff, as well as to enhance the capacity of additional staff.</p>
8	<p>Total COVID-19 Funds Expenditures: These expenditures were less due to the winding down of these supplemental funds and expending funds approved by the No Cost Extension.</p> <p>Total ARP Funds Expenditures: More ARP funds were allocated for direct services.</p> <p>Total BSCA Funds Expenditures: The state contracting process can be arduous and more BSCA funding was able to be allocated and expended in SFY 2024. As COVID-19 funds were expended, additional Bipartisan and ARP funds were allocated and expended to sustain service delivery to Kentucky residents.</p>

URS Table Number	General Notes
12	Kentucky uses a more narrow definition for SMI and SED and thus the number served that meet the federal definition is unavailable. However, these percentages represent the numbers served in SFY 2024 that meet the more narrow state definition. KY will continue to work with the appropriate stakeholders for the state's mental health data system, specifically for the state hospital and community programs, to report unduplicated client counts.
14A	<p>Kentucky has a more narrow definition of SMI with criteria including diagnosis, disability and duration. Criteria include a diagnosis of Schizophrenia Spectrum and other Psychotic Disorders; Bipolar and Related Disorders; Depressive Disorders; and PTSD AND functional impairment in at least 2 of these areas (societal role, interpersonal, daily living/personal care, physical, and cognitive) AND one of these durations (clinically significant symptoms for at least 2 years OR hospitalized more than once in the past 2 years OR history of one or more episodes and illness expected to continue for a 2-year period of time.</p> <p>Kentucky uses a more narrow definition for SMI and SED and thus the number served that meet the federal definition is unavailable. However, these percentages represent the numbers served in SFY 2024 that meet the more narrow state definition.</p> <p>Kentucky uses "severe emotional disability" term for SED and the criteria for SED for KY includes the following criteria: clinically significant disorder of thought, mood, perception, orientation, memory or behavior that is listed in current DSM and excludes singularly diagnosed Intellectual Disability AND at least 2 of the following functional disabilities (self care, interpersonal relationships, family life, school/work, self direction) AND has persisted for one year or is judged by a professional to be at risk of continuing for a year without intervention OR is involved in interstate compact work OR is in custody of the state child protective services and is in out of home placement.</p>
15	<p>The reduction in the number of individuals with mental health diagnoses in Kentucky's jails and prisons during SFY 2024 can be attributed to several statewide initiatives aimed at diverting this population from incarceration and providing appropriate mental health care.</p> <p>These initiatives include Kentucky Judicial Commission on Mental Health (KJCMH), Assisted Outpatient Treatment (AOT) Programs, Expansion of Mental Health Courts, & Legislative Actions.</p> <p>These initiatives reflect Kentucky's commitment to addressing the needs of individuals with mental health disorders, including Serious Mental Illness (SMI) through treatment and support rather than incarceration, contributing to the observed decrease in this population within the state's jails and prisons during SFY 2024.</p>
16A	<p>For IPS-SE Kentucky provides annual fidelity reviews through partnership with a local university. SMHA staff assists.</p> <p>For ACT Kentucky provides annual fidelity reviews and during SFY 2024 transitioned from providing sole SMHA reviews to providing reviews through support of a local university. SMHA staff continues to assist.</p> <p>The increase in the number of individuals with Serious Mental Illness (SMI) receiving supported housing services in Kentucky during SFY 2024 can be attributed to several key factors. The contributing factors are the Expansion of Housing Programs, Increased Funding for Mental Health Services, Federal Grants and Initiatives, and Strategic Planning and Policy Development. Collectively, these efforts have contributed to an increase in the number of individuals with SMI accessing supported housing services in SFY 2024, reflecting Kentucky's commitment to improving mental health care and housing stability for its residents.</p>
17	<p>Regular call center calls, texts, and chats for SFY 2024 breakdown includes 21,590 under age 18, 74,073 age 18 and over, and 52,643 calls that remained anonymous so age not revealed. 988 calls, texts, and chats for SFY 2024 were 29,200. Age is not always collected by call centers due to anonymity. All 14 CMHCs have call centers so percentage of population with access is 100% for call centers.</p> <p>For mobile crisis services, there are no age restrictions. For Crisis Stabilization Units, there are age restrictions; some for adults & some for children. Not all counties have CSU coverage, thus the 64% access rate is accurate.</p>
20B	<p>The decrease in Kentucky's psychiatric facility readmission rates during SFY 2024 can be attributed to several key factors. These contributing factors are the implementation of Seth's Law, expansion of community-based mental health services, introduction of the 988 Crisis Hotline, and development of Specialized Emergency Psychiatric Units.</p> <p>Collectively, these initiatives have strengthened Kentucky's mental health infrastructure, leading to improved patient outcomes and a reduction in psychiatric facility readmission rates.</p>
